Bath Insights Internship Programme Project Brief

Project title: ResLife Data Internship

Department: ResLife

Project theme: Data

Capabilities: Data literacy; Collaboration; Critical thinking; Drive and initiative

Project brief: Produce a visual overview of student private accommodation locations in relation to campus, transport links, and local amenities.
Identify common private accommodation issues, their frequency, and when they most commonly arise throughout the student journey.
Evaluate the effectiveness and student engagement with Studentpad and Roome, identifying opportunities to improve awareness and usage.
Enhance the Power Automate support tool to provide timely, accurate, and accessible guidance for common accommodation-related enquiries.
Benchmark private accommodation support provision across other universities to identify areas for service improvement and best practice adoption.

Main outputs or deliverables:

- Week 2: Research data from other universities
- Week 3: Data collation of private accommodation
- Week 4: Stakeholder contact
- Week 5: Analysis of Topdesk
- Week 6: Map finalisation
- Week 7: Power automate tool finalisation
- Week 8: Final evaluation report and presentation.
