

Leave no Trace 2017

This year's end of term Leave no Trace campaign has been another success with a large amount of items donated to multiple local charities and community groups. Each year at the end of term students are encouraged to take home everything they need for next year but anything they don't need can be donated to good causes. The items are sorted before being passed on so any items which are not fit for use are recycled.

A breakdown of what has been donated since June 2017 is:
