Award-bearing, fully funded Postgraduate Certificate and modular CPD courses

Develop in-depth clinical knowledge and skills preparing you for extended medicines optimisation roles in community pharmacy. You will improve your delivery of safe, patient-focused care with Bath’s award-bearing courses.

Funding

Post-registration Training for Pharmacists is supported by NHS England and Health Education England through the Pharmacy Integration Fund. It will strengthen and diversify the pharmacy workforce and help to improve patient care. The fund has been set up by NHS England to enable pharmacist and pharmacy technician integration in primary care as part of new multi-disciplinary healthcare teams, making the most of their clinical skills, particularly for the benefit of people with long-term conditions.

Accredited CPD
You can enrol as a ‘CPD’ participant completing a range of individual courses tailored to your learning and practice needs, from the list below. However, this would not lead to a Postgraduate Certificate academic award.

Postgraduate Certificate in Clinical Pharmacy Practice (Community and Primary Care)

Benefits
- Blended learning with online, practice-based and face-to-face elements
- Study at your own pace with minimal time away from work
- Excellent support and learning networks
- Tailor your study to suit your role and professional interests and gain increased confidence to develop and extend your clinical and professional role
- Work with advanced practitioners and be inspired by our highly commended, well-structured courses developed by a top-ranked Department of Pharmacy that is an internationally recognised centre of excellence
- Help meet your CPD GPhC requirements and professional development in line with the RPharmS frameworks

Workshops
Enhancing practical and clinical skills, working with expert clinicians and fellow learners are crucial elements of high quality learning which take place at the face-to-face workshops. For the recommended Postgraduate Certificate route, over the year you will attend the induction, no more than 5 one-day workshops and the exam day. For CPD courses most units have a one-day workshop. For the latest list of workshop dates see our web page.

Apply
Early application is essential as spaces on these funded courses will be limited. To be eligible for a funded place, which will fund you up to the award of Postgraduate Certificate in Clinical Pharmacy Practice, you need:

- To be a practising pharmacist in a patient facing role for at least 15 hours a week (0.4 WTE).
- Support from your employer to release you for the workshops, and to complete work-based activities

Full details of entry and English language requirements can be found on our web page.
