

Bath Insights Internship Programme job advert 2026-27

Salary

Grade 2, which meets (or exceeds) the real living wage plus free on-campus accommodation

Department

Various departments are hosting interns in 2026-27

Hours

36.5 hours per week

Employment type

Fixed Term Contract from 7 June 2027- 30 July 2027

Role location

The format varies between departments, but all internships are on-campus. There are no remote-only internships, as a key part of completing an internship is gaining experience of working with colleagues in a professional working environment.

Eligibility

The programme is open to most University of Bath undergraduate students in year one. If you're studying a distance learning course or visiting the University on an exchange, you're not eligible to apply.

Available opportunities

You're not able to apply to a specific internship, as this programme is designed to offer professional work experience across a range of areas, all of which will provide interesting and enriching experiences. The panel will review all applications, and shortlisted candidates will be invited to attend an Assessment Centre. If you are successful at that stage the panel will match you to the most appropriate internship.

All of the internships have been designed to give you the opportunity to gain work experience in a safe, supportive environment. Wherever you are placed, you will work on a real project, developing a range of sought-after skills and competencies, while being supported by the host department and the Internships Team. Every project will give you the chance to develop workplace skills and contribute blue skies thinking and practical solutions.

[See an overview of potential projects](#)

You will have the opportunity to indicate on your application if you have a particular interest in a Project theme.

Your skills and attributes

We know finding work experience can be a real challenge for students in years one as organisations often ask for evidence of prior experience and skills you may not have had a chance to develop. We also recognise that these internships are intended for students with minimal or no prior work experience, so we have designed the process to be as inclusive as possible. However, to be successful in any of these roles you will need to be someone who has:

- excellent written communication skills
- strong verbal communication skills

- effective planning and organising skills
- strong IT and digital skills; willingness to develop further IT skills
- experience of team working and awareness of different styles and approaches
- a commitment to high quality customer service
- a professional attitude and approach

Additionally, you'll be:

- able to take the initiative and be proactive
- able to cope with competing and shifting priorities and work towards deadlines
- enthusiastic, committed and resourceful

Selection process

Applications will be reviewed, and a shortlist of students will be invited to attend an Assessment Centre that will run in early March 2027. You're not able to apply to a specific internship; instead, if you are successful, you will be matched by the panel to the most appropriate internship opportunity for you.

Questions and support

Bath Insights is run by Employability and Student Success in conjunction with colleagues across the University. All interns will receive a comprehensive onboarding and induction. If you have any questions about the programme, please contact internships@bath.ac.uk.
