

## 14<sup>th</sup> CR@B Symposium

*a showcase of presentations and posters highlighting cancer research activities taking place on*  
**4.30pm – 8pm on Wednesday 23 November 2016**  
**5 West 2.4, University of Bath**

### Programme

4.30pm **Registration and reception**

---

5pm **Opening note**

---

**New drug targets for childhood cancers**

5.10pm Dr Karim Malik, Reader/Associate Professor in Epigenetics, Faculty of Medical Sciences, University of Bristol

---

5.35pm **Unravelling the cancer preventative properties of physical activity in ageing: can regular exercise prevent multiple myeloma?**

Dr John Campbell PhD, Prize Fellow, Department for Health, University of Bath

---

6pm **Delivering super-potent cytotoxins to advanced prostate tumours**

Mike Kenny, PhD student, Department of Pharmacy and Pharmacology, University of Bath

---

6.10pm **Refreshments and informal poster session**

---

6.40pm **A fluorescence-based approach for developing stable, safe drugs**

Dr Chris Pudney, Department of Biology and Biochemistry, University of Bath

---

7.05pm **TruNTH prostate cancer follow-up project**

Dr Miranda Benny, Royal United Hospital, Bath

---

7.30pm **West of England Genomic Medicine Centre update**

Dr Mark Beresford, Royal United Hospital, Bath

---

7.40pm **Closing note**

---

7.45pm **Drinks, networking and poster session**

## About Cancer Research at Bath (CR@B)

Cancer Research at Bath (CR@B) is a unique network set up by the University of Bath and the Royal United Hospital (RUH) Bath. Our mission is to facilitate interaction between departments and institutes, multi disciplinary research and provide excellent opportunities for training for its members. It is also our mission to interact with fundraisers and industry, and generally raise awareness of all aspects of cancer.

Our objectives are:

To provide a forum to facilitate interaction between academics, clinicians, students and others with an interest in cancer

To promote opportunities for collaborative interdisciplinary research and training of the highest standards

To establish a platform to promote awareness of cancer research, expertise and facilities across the Bath region. Themed workshops to describe research capability, identify research problems and groups working on them.

For more information about CR@B, visit our website at: <http://www.bath.ac.uk/cancerresearch/>
