Letter of commitment to the priorities of the Concordat for the Environmental Sustainability of Research and Innovation Practice

I, **Professor Phil Taylor** on behalf of **The University of Bath**, confirm our commitment to the priority areas outlined in the Concordat for the Environmental Sustainability of Research and Innovation Practice.

The University of Bath fully supports the priority areas outlined in the concordat. We will deliver against all the priorities in practice and recognise our responsibilities as a signatory, as set out in the concordat.

By signing this concordat we recognise the need to change how we conduct research and innovation as well as promote wider solutions. We also agree to take shared action now and into the future to reduce and eliminate our own environmental impacts and emissions and achieve the transition to sustainable practices.

Sustainability is a research strength and priority for the University of Bath and joining this concordat is a landmark in our commitment to advancing sustainability. This commitment underscores our dedication to ensuring that both our operations and academic outputs are setting strong foundations for the future, for the University and society.

Yours sincerely,

Professor Phil Taylor
Vice-Chancellor and President
University of Bath
