ABOUT THIS HANDBOOK

This is the 2022-23 Handbook for students on the MSc Global Public Health and Policy programme.

The contents of this Handbook are accurate at the time of publication September 2022 but information contained within may sometimes be subject to change after this Handbook has been issued.

The Important Links and Information section of this Handbook contain links to information about the topics in this Handbook and other key topics. It is important that you familiarise yourself with the online information as well as the contents of this Handbook.

Information about the structure of your programme (which units you take when, which units are compulsory etc), as well as key unit information (including learning outcomes, synopsis and assessment), for the upcoming academic year can be found online in the Unit and Programme Catalogues (see **Unit and programme catalogues** in this Handbook and www.bath.ac.uk/catalogues). You will also receive details about unit content and assessment via the University's online learning environment, Moodle.

You will be informed, normally by your Director of Studies or Unit Convenor, of any further changes that will affect your programme or a unit. See also **Unit and programme changes 2022/23** in this Handbook.

While this Handbook signposts information about regulations for students, it does not have regulatory status itself, and the Regulations available online (Regulations for Students: <http://go.bath.ac.uk/regulations> and Assessment Regulations: www.bath.ac.uk/corporate-information/new-framework-for-assessment) are the most up-to-date and take precedence over the contents of this Handbook. It is your responsibility to take the time to familiarise yourself with the Regulations.

If in doubt about what applies to you, or if your circumstances change, please contact your Director of Studies, Jo Cranwell, for advice.

IMPORTANT LINKS AND INFORMATION

UNIVERSITY INFORMATION ONLINE

This Handbook is an accompaniment to important information available to all students on the University's website. It is expected that you will familiarise yourself with the online information signposted below.

If you cannot find the information you are looking for in this Handbook or on the web please contact your programme administrator at health-pgt@bath.ac.uk in the first instance.

HEAD OF DEPARTMENT WELCOME 2022/23

ABOUT THE DEPARTMENT 2022/23

Welcome to the University of Bath. Your programme is delivered by the **Department of Health** within the [Faculty of Humanities & Social Sciences \(HSS\)](#) and the [School of Management](#). The Faculty of HSS is one of three Faculties and one School in the University (see below) and comprises six academic [Departments](#). The School of Management is one of the UK's leading business schools. We're ranked 1st in the country for Marketing (The Complete University Guide 2022) and 3rd for Accounting and Finance (Guardian University Guide 2021).

[Economics](#), [Education](#), [Health](#), [Politics, Languages & International Politics](#), [Psychology](#) and [Social & Policy Sciences](#).

Faculty H&SS Taught Programmes administration

Undergraduate and Postgraduate Taught (Masters) programmes are delivered by academic staff in departments, with administrative support provided by our Taught Programmes Team. Our Taught Programmes Team consist of expert Managers, Officers, Administrators and Administrative Assistants, located in Hub Offices across our Faculty buildings – 3 East, 1 West North, 1 West and 10 West.

Our Taught Programmes Team is responsible for all aspects of administrative support for all taught programmes in the Faculty, ensuring that services are efficient, effective and adapt to changing circumstances. We provide students with support and advice from registration to graduation and support academic teaching staff in our departments.

Our duties include:

- managing administrative processes of the Faculty's taught programmes
- acting as a central point of contact for staff and students seeking advice
- offering programme-related operational support for academic teaching staff in departments

It is important that you get to know the administrators who look after your particular programme, as they can often provide invaluable guidance on various aspects of the programme. If your administrator is unavailable then please speak to any other of our other administrators listed on our wiki page [here](#), all of whom will be very happy to help you. If you have any problems, then please contact one of the Programmes Officers or Managers. Emails are managed via shared mailboxes to deal with enquiries from students and academic staff and these are regularly monitored by designated members of the team.

KEY CONTACTS/STAFF LIST

Taught Programmes Team hub office 1WN 3.2 Health and PoLIS (UG and PGT Programmes)

How to contact us in person

From Monday 26 September 2022, the Taught Programmes Team hub office is open from Monday to Friday between 9am and 4pm for in-person enquiries.

We ask that students and staff do not enter the office unless you are invited in. Please use our hatch for student and staff enquiries.

We are currently operating 'hybrid working' in the team which means that we will work some of our time on campus in the office and some of it from home each week.

How to contact us remotely

You can contact us using our shared mailboxes with your enquiries. We are happy to take your calls on Teams if you would like to talk to us, however we may not be able to answer immediately if, for example, we are in a meeting. You can use our shared mailboxes to email us and book in a time when we can call you back.

Do you have an urgent enquiry?

If your enquiry is urgent, we advise sending an email to the relevant shared mailbox which will be monitored **between 9am and 5pm from Monday to Friday**.

ABOUT YOUR PROGRAMME

Dear Student,

Welcome to the University of Bath and the Department for Health. You are joining a thriving community with expertise across the spheres of, public health and social care, medical science, rehabilitation, sport and exercise science, and policy development and implementation. Our aim is to deliver teaching and research of the highest academic quality and with applications in the real world.

The MSc Global Public Health & Policy is a programme delivered jointly by the Department for Health and Department of Social and Policy Sciences to provide an integrated, interdisciplinary programme for graduates and professionals. It provides a route for undergraduate students from a range of programmes to study your chosen UG subject areas in more depth, alongside expanding your field of learning to the other disciplines related to public health. It is also designed for professionals embarking on a career in public health wanting to gain qualifications in order to progress. The programme provides a route for both traditional PhD and Professional Doctorate candidates to develop a broad postgraduate understanding of global public health before embarking on doctoral level study. Students leaving the programme prematurely may be eligible for a PG Certificate or a PG Diploma, if specific conditions are met.

The programme builds on the University's internationally leading profile in social policy, governance and public policy, international development, health and social care, health psychology and applied health research. You will have opportunities to be taught and supervised by world class academics and researchers from key research centres, including the Tobacco Control Research Group, the Centre for Motivation and Health Behaviour Change, the Centre for the Analysis of Social Policy, and the Centre for Development Studies. Each of these centres have professional affiliates from across the world, enabling you to learn from academics currently engaged in both researching and creating national and global public health policy, and with first-hand knowledge of policy making in practice.

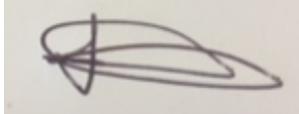

During the teaching weeks you will meet your fellow students and lecturers face to face. There will be opportunities to create a student community which is highly functional and supportive. This allows you to share information, provide ideas for better practice, exchanges opinions and reflects on current practices. As a student on this programme you will undoubtedly bring your own unique skill set and experiences to these discussions, so it is important that you engage with your peers to get the most out of the programme and the opportunities that it provides.

The purpose of this Handbook is to provide information and guidance to help you with your studies. It covers the ethos of the programme and a large amount of specific information about University and programme level regulations. **It is important that you understand this information and how the programme works, so please read it carefully as it should answer many of the queries that you have throughout your time on the programme.**

We are sure that being a student again will be a challenge at times, but hopefully a fun and rewarding one!

We look forward to working with you.

Kind regards,

Dr Jo Cranwell

Director of Studies.

Details about your programme and your Student Handbook will be made available on the Global Public Health & Policy (GPHP) Programme Hub on Moodle.

PROGRAMME AIMS AND LEARNING OUTCOMES

Educational Aims:

The MSc in Global Public Health & Policy aims to:

- Provide an in-depth, challenging and focused knowledge and understanding of all of the core aspects of public health
- Provide a strong global perspective which situates public health within a range of different social and geographical contexts
- Develop professionals who are able to synthesise multi-disciplinary perspectives, and reflect the challenges of a complex environment in policy development and evaluation
- Develop future intellectual leaders, able to go on to develop a recognised research profile in their field of specialism
- Enable graduates to respond effectively to the practical challenges of operating in fast-paced political, media and technological contexts
- Equip graduates with skills in both quantitative and qualitative research methods
- Develop communication skills that enable graduates to disseminate their work and ideas to a range of audiences using an array of formats (e.g., through presentations, representation, posters, reports and academic papers)

Learning Outcomes:

Knowledge and Understanding:

PG Certificate

- Demonstrate a practical understanding of the core principles and key concepts and theories in global public health, and determinants of health and illness.
- Demonstrate a practical understanding on research methods and project design

Assessed through unit assessments

Diploma and MSc

- Demonstrate a practical understanding of the core principles and key concepts and theories in global public health, and determinants of health and illness.
- Demonstrate a practical understanding on research methods and project design
- Demonstrate a practical understanding of the role of public health and health policies at global, national and local levels.

Assessed through unit assessments

Intellectual Skills:

PG Certificate

- Demonstrate critical thinking and judgement with respect to global public health and health inequalities
- Systematically deal with and evaluate both simple and complex data

Assessed through unit assessments

Diploma and MSc

- Demonstrate critical thinking and judgement with respect to public health, health promotion strategies, and current public health issues (national and global)
- Systematically deal with and evaluate both simple and complex data

Assessed through unit assessments

MSc

- Develop self-direction and originality in project design

Assessed through final year Research Project/Practicum

Professional Practice Skills:

Diploma and MSc

- By the end of the programme students should be able to apply theoretical knowledge of public health and health policy issues to the design of public health policies and interventions at both local and global level
- Critically appraise public policy so as to respond to the challenge of reducing health inequalities in their professional practice

Assessed through unit assessments

MSc

- Identify an important global public health issue and apply key public health concepts and research methods to investigate it, through collecting relevant data and critically analysing it in relation to previously published work in the area

Transferrable/Key Skills:

Diploma and MSc

- Prepare and communicate information on complex contemporary issues in global public health.
- Engage confidently in academic and professional communication with others, reporting on action clearly, autonomously and competently.

Assessed through unit assessments.

MSc

- Utilise problem-solving skills and competently undertake research tasks with minimum guidance

Assessed through final year Research Project/Practicum

PROGRAMME DESCRIPTION: STRUCTURE OF YOUR PROGRAMME

The structure of your programme year for 2022/23 can be found in the 2022/23 Unit and Programme Catalogues (see below). The content of the Programme Catalogues is correct for teaching being delivered in 2022/23 at the time of publication. Programmes and units may be subject to reasonable change (see **Unit and programme changes** in this Handbook).

UNIT AND PROGRAMME CATALOGUES

This is where you will find details about all individual units for the current academic year.

The Catalogues also provide links to the relevant areas of the University's assessment regulations, showing how these are applied to your programme of study.

For the online Catalogues, please refer to **Important Links and Information** in this Handbook. See also the section in this Handbook on **Assessment**.

YOUR TIMETABLE

Using MyTimetable, you can access your personal timetable and download it into an electronic calendar.

Your teaching on campus and any Live Online Interactive Learning (LOIL) sessions you may have will show in your timetable. Links to LOIL sessions can also be accessed through the relevant unit page on the University's online learning environment, Moodle.

When you start your units, you will be able to access associated online material at a time that suits your schedule.

MyTimetable updates regularly, so should there be a change to your timetable, it will be reflected in MyTimetable.

Students will be informed of any changes to the timetable via email, as soon as it is reasonably possible to do so.

Full information is available online. Please refer to **Important Links and Information** in this Handbook.

PHYSICAL STUDY SPACE – 2022/23

As in previous years, you will have access to drop-in and bookable study space on campus and in the city for individual or group study. Information on how to book and any usage guidelines or requirements are available online. Please refer to **Important Links and Information** in this Handbook.

OPTION CHOICES

If your programme has option choice then information about how and when to choose your option units can be found online (please refer to **Important Links and Information**). If applicable, you will receive an email notification at the relevant point in the year when online unit selection is available. If you need to discuss your option choices, please contact your Director of Studies.

RESEARCH ETHICS

It is crucial that, in carrying out dissertation work and Practice Projects, students adopt a continuing personal commitment to ethical practice and consult their supervisor about ethical issues as necessary. Ethical commitment means that the interests and rights of those involved in or connected to your research are respected and protected.

You can only begin collecting/analysing data for your dissertation or Practice Track project once ethical approval has been granted. To obtain ethics approval, you must complete and submit (via Moodle) the Research Ethics Application Form, found on Moodle. Please note that, in completing this form, you will also need to develop and submit research materials, such as a Participant Information Form, an Informed Consent Form (which are used if your dissertation or Practice Track project includes human subjects), and an example of your data collection tool (e.g., interview guide).

All ethics forms are reviewed by two independent readers in conjunction with the Department for Health's REACH ethics subcommittee. Any ethical concerns will be flagged and may require alteration to your study design or proposed project idea. Remember: ethical practice is relevant throughout your dissertation and Practice Track project. Once you have received ethics approval, you of course have to act in accordance with good ethical practice afterwards.

Further information and relevant links pertaining to research ethics and conduct have been provided in the Practice Track Handbook and the Dissertation Common Guidelines. These will be introduced to you and discussed in detail at the unit level.

UNIT AND PROGRAMME CHANGES 2022/23

All programme and unit changes are managed through formal University processes. This is to ensure that changes are academically appropriate, properly supported and are made in a way that safeguards the interests of students.

We continually look for ways to develop and improve our programmes, aimed at enhancing your learning experience and maintaining high academic standards and quality. Such changes could be, for example, to update content to reflect latest developments in a particular field of study, or to respond to student feedback on delivery and/or assessment. Students who would be affected by proposed changes are consulted about them, either via their Staff/Student Liaison Committee or directly, depending on the nature of the change.

In addition, it is sometimes necessary to make changes due to unforeseen or unavoidable circumstances. The need to adapt to circumstances created by the global pandemic was a significant example of this.

This could also be for reasons such as:

- the accrediting body requiring changes to be made to the course, or,
- being unable to run an option unit because too few students selected it.

When this happens, we always try to ensure that the impact on students is minimised and that those affected are informed of the changes at the earliest opportunity.

Information on how we assure the quality and standards of your programme of study is available online. Please refer to **Important Links and Information** in this Handbook.

GIVING FEEDBACK ON YOUR PROGRAMME TO THE UNIVERSITY

The University is committed to continually improving its practice and aims to engage students as active partners in their education (The University of Bath Strategy 2021 to 2026). The three main ways in which your feedback will be sought will be through:

- Staff / Student Liaison Committees (SSLCs)
- surveys and evaluations
- the Students' Union.

Full information is available online. Please refer to **Important Links and Information** in this Handbook.

ASSESSMENT

Full information is available online. For signposts to important information on many aspects of assessment, please refer to **Important Links and Information** in this Handbook.

SUBMISSION DEADLINES

You will be informed of the deadline to submit your assessment. Submission deadlines for coursework will be made available to you at the start of each semester during your introduction session of each Unit. Deadlines will also be available on unit Moodle Pages.

You will be notified of how you should submit for each unit in your unit outline and on the unit's Moodle page next to the assignment submission link.

Your assignment must be submitted by 12:00 noon on the submission date

It is your responsibility to ensure that you submit your correct assignment electronically before the deadline by uploading it to the Moodle course for your unit. **You will receive an automated email confirming that your assignment has been uploaded.**

You will not be contacted if you fail to upload your assignment.

Your assignment must be formatted correctly, according to the guidelines provided through the relevant Moodle pages. All units will be using electronic-only submission. For these units, you must download and complete the template coversheet (available on the Moodle unit page, next to the submission link), insert your assignment and upload this to Moodle. You should include the unit code and your 5 digit candidate number in the file name. You can find your candidate number on SAMIS. Your submission files should be saved as Word documents. Full instructions are available next to the Moodle submission link for the assignment.

LATE SUBMISSION OF COURSEWORK AND REQUESTING AN EXTENSION

To ensure fairness to all students, you will be expected to hand in all assessed coursework and dissertations/projects by a specified date and time, and there are penalties for submitting work after the specified deadline. If there are valid circumstances preventing you from meeting a deadline, your Director of Studies may grant you an extension to the specified submission date. Please be aware that an extension request needs to be submitted before the original deadline. You can request an extension in [SAMIS](#) under “Student Tasks”, more information is available on [your programme Moodle page](#).

WORD COUNTS

Coursework tasks will normally have a word limit or word range. This, and the penalty for non-compliance, will be confirmed when you receive an assignment. If you do not observe the given word range or limit for the coursework task, for example if you exceed the word limit, then a penalty will be applied. You should take note of what is included when calculating the total word count (e.g. whether or not contents pages, appendices, footnotes, bibliographies and other elements that are not part of the main text are included).

You should check with your Director of Studies if you have questions about word counts and penalties.

FEEDBACK ON ASSESSMENT

During your course, you will receive feedback on your assessed work. This feedback may take different forms, depending on the subject and type of assessment. You will be informed of the timing and nature of the feedback you will receive on each assessment, including whether the piece of work itself will be returned to you. For exam-type assessment, you may receive general feedback relevant to all who took the assessment rather than individual feedback. You can discuss feedback you receive on assessments alongside your performance and progress in your studies at meetings with your Personal Tutor. The departmental feedback policy will be available on your Global Public Health & Policy (GPHP) Programme Hub page on Moodle.

ACADEMIC INTEGRITY

The University has a wide range of resources available to you to help you understand the importance of academic integrity and how you can enhance your academic writing and practice.

All students will be unable to progress beyond the next progression point in their studies until they pass the University's Academic Integrity Test. The test has a pass mark of 85% but you can take the test as many times as you need to.

When you submit your assessment, you will be expected to make a declaration that the work is your own and, where you have re-used your own work and/or used other sources of information, that you have referenced the material appropriately. The University uses a plagiarism detection service (currently Ouriginal), which searches the web and databases of reference material and content submitted by other students, to identify duplicated text. Where practical, all summative assessment is submitted to this service to check for similarities as an initial indicator of whether work has been plagiarised and an assessment offence committed.

Submission of your assessment to the Plagiarism Detection Service - Data Protection statement

The Plagiarism Detection Service complies with European Data Protection legislation. When you registered with the University, you gave it permission to process your personal data for a variety of legitimate purposes. This includes allowing the University to disclose such data to third parties for purposes relating to your studies. The University, at its sole discretion, may submit the work of any student to the Plagiarism Detection Service (in accordance with Regulation 15.3e) and may make, or authorise third parties to make, copies of any such work for the purposes of:

- 1) assessment of the work
- 2) comparison with databases of earlier work or previously available works to confirm the work is original
- 3) addition to databases of works used to ensure that future works submitted at this institution and others do not contain content from the work submitted.

The University will not make any more copies of your work than are necessary, and will only retain these for so long as remains necessary, for these purposes.

Please note that, if at any time the University submits any of your work to the Plagiarism Detection Service, the service will be provided with, and will retain, certain personal data relating to you – for example, your name, email address, programme details and the work submitted. Such data may be transferred by the Plagiarism Detection Service to countries worldwide (some of which may not be governed by EU data legislation) in order for the work to be checked and an originality report generated in accordance with the proper workings of the Plagiarism Detection Service. Personal data is retained indefinitely by the Plagiarism Detection Service upon submission of work. You may ask for your personal data to be removed by contacting the University's Data Protection Officer.

PENALTIES FOR ASSESSMENT OFFENCES

Academic misconduct can be described as ‘the use of unfair means in any examination or assessment procedure’. Any student who is found to have used unfair means and therefore committed an assessment offence will be penalised. Potential types of assessment offence include plagiarism, self-plagiarism, collusion or unauthorised collaboration, contract cheating (including impersonation), fabrication or falsification, or breaching of examination regulations. Penalties for assessment offences depend upon the severity of the offence but may include failure of the assessment, unit or part of a degree, with no provision for reassessment or retrieval of that failure. Severe cases of academic misconduct, for example, contract cheating could lead to an Inquiry Hearing or disciplinary proceedings. Claims of inadvertence or ignorance will not be accepted as a basis for mitigation of a penalty.

If you are accused of an assessment offence, the Students’ Union’s welfare services are available to support you. You have the right to appeal against the outcome of the investigation.

Important information on academic integrity, the Plagiarism Detection Service, assessment offences and penalties, and support, as well as the Academic Integrity Test itself, is available online. Please refer to **Important Links and Information** in this Handbook.

IF CIRCUMSTANCES IMPACT ON YOUR ASSESSMENT ATTEMPT

Individual Mitigating Circumstances (IMCs) are the conditions which temporarily prevent you from undertaking assessment or significantly impair your performance in assessment. As such, the measure of their severity is not about impact on you, but the impact on your affected assessment. Full information about IMCs is available online. Please refer to **Important Links and Information** in this Handbook. **It is strongly advised that you become familiar with the available guidance and related regulations.**

ASSESSMENT PROCESSES

Assessment and marking processes at the University are designed to ensure that assessment of your work is fair and consistent, and that academic standards are appropriate and comparable between the University and other higher education institutions. This is achieved in a number of ways.

Marking: Assessments you will complete during your programme are marked according to:

- *marking criteria (or assessment criteria)* - these are the knowledge, understanding and skills that students should demonstrate in the assessment. They are based on the learning outcomes being assessed
- *marking schemes* - these are detailed descriptions of how specific numbers of marks should be assigned against individual components of an answer within the assessment task
- *grade descriptors* - these are descriptions of the levels of achievement required in order to get a result within a given band of marks (e.g. 70% or more).

Anonymous marking: The University has adopted a principle of anonymous marking in order to protect students and staff from bias, and the perception of bias, in the marking

process. It applies to all assessment where practicable. It is not possible to mark all coursework anonymously as in some types of assessment the student can be easily identified by the marker (e.g. presentations, group work, laboratory work) or it might not be practical, or in the student interest, to do so. You will be informed when your coursework is to be marked anonymously.

Moderation: Both the setting and the marking of assessments are independently checked through a process known as moderation to ensure that questions test the learning outcomes and are set at the right standard, and that marking is consistent and fair. Moderation is conducted by internal examiners and also by your External Examiner (see below).

Boards of Examiners: Assessment decision-making at the University is the responsibility of Boards of Examiners established at three levels: assessment outcomes go first to *Boards of Examiners for Units*, then *Boards of Examiners for Programmes*, then finally to *Boards of Studies*. Boards of Studies confirm decisions relating to student progression, re-assessment, and the final award. **The assessment marks you are given initially by markers are therefore provisional up until the point when they have been confirmed by the Board of Studies (BoS) for your programme.** An official release date is set when your confirmed results will be made available to you via SAMIS (the University's student records system). An academic appeal can only be made in relation to a confirmed result (see the section in this Handbook on **Academic Appeals**).

Scaling: All marks for a unit are reviewed at a meeting of a Board of Examiners for Units which will verify that the assessment process has been conducted appropriately and that the marks are an accurate reflection of the standards achieved. A Board of Examiners can decide to recommend a change to the provisional marks, based on evidence that there was a problem with the assessment which means the initial marks do not reflect the standards achieved by students. This adjustment is known as scaling and under these circumstances the marks of all affected students will be changed.

External Examiner: An External Examiner is someone from another University or professional organisation who is qualified and experienced in the field of study. At least one External Examiner is appointed for each programme or group of programmes. The role of External Examiner is an important one in assuring that assessment processes are fair, academic standards are appropriate, and supporting the development of your programme. External Examiners review draft assessment and samples of assessed work, and attend Boards of Examiners. They are members of Boards of Examiners.

Once a year, the External Examiners will provide a written report. University staff, including the Head of Department and Director of Studies, will look at these reports and a response will be made to the External Examiner's comments. External Examiner reports and responses are made available to students. Staff/Student Liaison Committees (SSLCs) also discuss External Examiner reports as part of routine monitoring activity.

The External Examiner for your programme is:

Dr Janas Harrington, Senior Lecturer and Director for the BSc Public Health Sciences, School of Public Health, University College Cork.

It is not appropriate for students to make direct contact with External Examiners. If you are dissatisfied with the process or outcome of an assessment, and are considering whether to raise this either informally or formally, the sections of this Handbook on **Academic Appeals** and **Dissatisfaction with a University Service or Facility (Complaints)** give some more information about the University's procedures for student complaints and academic appeals. The University's mechanisms for student representation are designed to enable students to engage with the quality management process through which the University considers and responds to External Examiners' comments and suggestions.

Full information is available online. Please refer to **Important Links and Information** in this Handbook.

ASSESSMENT REGULATIONS

The University's New Framework for Assessment: Assessment Regulations: Phases 2 & 3 for postgraduate taught programmes ('NFAAR-PGT') specifies the rules governing students' progression from one stage of their programme to the next as well as for the award of degrees. The rules cover all areas of assessment, including supplementary assessment and the extent to which failure may be condoned.

If at any time you are in doubt about how NFAAR-PGT provisions apply to your work, please consult your Director of Studies.

This section highlights areas of the University's assessment framework for the type of programme you are undertaking. It explains the regulations that govern your assessment and outlines how the University makes decisions concerning your progression through your programme and award. Complete information is available in the NFAAR-PGT document.

The full NFAAR-PGT, and definitions of terms used in it, are available online. Please refer to **Important Links and Information** in this Handbook.

YOUR PROGRAMME AND HOW YOU ARE ASSESSED

Within a programme of study, there are *compulsory units* (i.e. those units in a programme which must be taken by every student registered on the programme), and there may also be *optional units* (i.e. those units students may choose from a range of options).

In the Programme and Unit Catalogues, there are links to the relevant appendices of the NFAAR-PGT which state exactly how the assessment rules operate for each stage of your programme.

The following points will help you to understand how the assessment rules relate to your specific programme, such as pass marks, averaging of marks and dealing with any failures:

Firstly, there are several references below to the persistent generic rules on the extent of any failures of units permitted overall. The rules are that you can only (1) fail and retrieve units, or (2) marginally fail units and have them condoned, **within set limits**. Breaking these rules results in failure of the programme.

- Your programme does not have any Designated Essential Units (DEUs).
- Your programme is divided into stages, but does NOT have Stage Required Units (SRUs) that must be passed before being permitted to progress to the next stage. This means that, if you are required to undertake supplementary assessment, it will only have to be completed before the end of the programme. You must also never break one of the persistent generic rules.
- Your programme has units that constitute the Taught Stage(s) Credits in a separate phase before the period in which you will do the Dissertation/Project type unit(s), as indicated in the table showing the structure of your programme. The Programme Progression Requirement to get from the taught phase to the Dissertation/Project phase is 40%.
- Should you fail to qualify for the award of the degree of Master, you may be considered for the award of a related Postgraduate Diploma or Postgraduate Certificate (subject to your having met the requirements for one of those awards).

The normal pass mark for a unit is 40%. In some units, you might need to achieve a threshold mark in one or more component assessments in order to pass the unit overall. Particular rules apply to failure of units of the 'Taught type', or in the 'taught' stages. They are as follows:

- If you fail any units badly (i.e. achieve less than 35%), you will have to undertake supplementary assessment – unless you have failed so many units that you fail outright or the attempted retrieval would break the rule on how much failure can be retrieved.
- If you only fail units marginally (i.e. achieve 35%-39%), you might be able to progress without supplementary assessment. Whether you do progress will depend on the total credit value of the failed units.

Dissertation/Project units have their own special rule on failure: only cases of marginal failure (i.e. 35%-39%) will be given permission for attempted retrieval through supplementary assessment, and any resubmission that is permitted for marginal failure must be made within a specified period. Ultimately, you must pass a Dissertation/Project unit (or have an average of at least 40% for them if there are more than one) for satisfactory completion of the requirements for Dissertation/Project elements.

Your unit results are combined as follows to make overall assessment/award decisions:

- The Taught Stage(s) Average (TSA) will be calculated by taking the credit-weighted average of marks for all units required to contribute to the taught stage(s), or by taking the credit-weighted average of marks for all units defined as of 'Taught type' required to contribute to the programme.
- The Dissertation/Project Average (DPA) will be calculated by taking the credit-weighted average of marks for the unit(s) required to contribute to the

Dissertation/Project stage(s), or by taking the credit-weighted average of marks for the unit(s) defined as of 'Dissertation/Project type' required to contribute to the programme.

- The Overall Programme Average (OPA) will be calculated by taking the credit-weighted average of marks for all units required to contribute to the programme.

CALCULATING YOUR DEGREE OUTCOME

A Board of Examiners will decide at appropriate points whether you are continuing to meet the requirements for the programme (including not breaking persistent generic rules whereby you can only fail and retrieve, or marginally fail and have condoned, units within set limits), and/or whether you have met all the requirements for your target award or any alternative that might be available. The outcomes will depend on both your performance in individual units and your overall performance. Generally, if you pass each of your units, you will progress and, in due course, be recommended for an award.

If you fail units beyond certain credit values, or you fail some too badly, you might break one of the persistent generic rules whereby you can only fail and retrieve, or marginally fail and have condoned, units within set limits, and this will result in failure of the programme - without any opportunity for supplementary assessment. (Further information on supplementary assessment is provided below.)

The criteria for making awards with distinction or with merit are described in the relevant NFAAR-PGT rules (paras. 78-80).

Supplementary assessment

'Supplementary assessment' is the term normally used for an opportunity given to a student to retrieve failure before starting the next stage of a programme, or by the end of the programme if it is a single-stage programme or the failed units are not Stage Required Units (SRUs).

Academic year dates, including the supplementary assessment period, can be found online. See **Important Links and Information** in this Handbook.

Each unit's method of supplementary assessment is shown in the online Unit Catalogue.

At supplementary assessment, students will normally have the opportunity to gain credit for units then successfully passed and to have the mark gained reported to them for feedback purposes, but a maximum mark of 40% will be awarded and used in the Overall Stage Average, the Overall Programme Average, the Taught Stage(s) Average, and any award calculation.

If you pass all your supplementary assessments, you will be able to progress onto the next stage of your programme and/or, as appropriate, be considered for an award. If you do not pass them all, the outcome will depend on your overall performance including consideration of the rules about passing particular types of units and the persistent generic rules (as set out above).

ACADEMIC APPEALS

If you wish to submit a request for an academic appeal you should refer to Regulation 17 (Conduct of Student Academic Reviews and Appeals), which outlines the process and grounds for an appeal against formal Board of Studies decisions.

You are also strongly advised to read the online guidance on Appeals provided by the Academic Registry.

Independent advice about academic appeals is offered by the Students' Union Advice and Support Centre.

Full information is available online. Please refer to **Important Links and Information** in this Handbook.

CORE UNIVERSITY INFORMATION

UNIVERSITY REGULATIONS FOR STUDENTS

All registered students of the University are subject to the University's Regulations for Students. The Regulations contain rules and other important information about being a student at the University of Bath, including regulations governing the payment of fees due to the University, student discipline, fitness to study and those governing attendance, conduct and progress in studies. They also form part of the formal contract between you and the University. **You are strongly advised to read them carefully as they contain a lot of important information.**

For a link to the full Regulations for Students, see **Important Links and Information** in this Handbook.

ACCESSING UNIVERSITY EMAIL

You will need to use your University username and password to access your University email account. Your username also forms your email address (**username@bath.ac.uk**).

The University will often communicate with you about a range of important matters requiring action from you, including registration, assessment, degree ceremonies, and matters such as tuition fees, via your University email account. It is a University regulation that you access your University email account regularly, even if you are out on placement or study abroad.

You therefore have a responsibility to ensure that your University email account can receive incoming mail and that you read your email regularly.

To increase the security of your University account you will need to set up Multi Factor Authentication (MFA) so you can authenticate your identity and access your email.

Once you graduate or withdraw from your course, you will receive an email stating exactly when your account will be closed. The email will give at least 30 days' notice.

STUDENTS' UNION MEMBERSHIP

All students registered with the University are automatically given membership of the Students' Union; however you have the right not to be a member. Information on opting out of this membership, and the Code of Practice for the Students' Union, are available online. Please refer to **Important Links and Information** in this Handbook.

DATA PROTECTION

The University's Data Protection Policy and Guidelines on Data Protection may be accessed via the data protection website (see **Important Links and Information** in this Handbook).

REGISTRATION STATUS

You will be asked to register online at the start of your programme of study and then to re-register at the start of every academic year thereafter until you have completed your programme. It is a requirement that you register when asked to do so, and failure to do so

may impact on your access to certain University facilities such as Moodle. Tuition fees for each academic year are payable at registration in full or in instalments.

Regulation 1.1 explains the requirement to register, regulation 1.5 explains that the University reserves the right to terminate the registration of continuing students who do not complete registration in accordance with Regulation 1.1. Regulations 2.4 and 2.10 explain the consequences of non-payment of tuition fees. Please refer to **Important Links and Information** in this Handbook.

ACADEMIC ENGAGEMENT MONITORING FOR STUDENT VISA HOLDERS

Guidance and requirements on academic engagement for students who are Student visa holders, including the University's **Academic Engagement Monitoring Policy for Student visa holders**, and information on when and how to request an authorised absence, are available online. Please refer to **Important Links and Information** in this Handbook.

CHANGE IN YOUR CIRCUMSTANCES

It is important to ensure that the University holds your correct, up-to-date, personal and academic details within SAMIS, the University's student records database. If you change your address – either your semester-time or home address – please update your details online (see **Important Links and Information** in this Handbook).

You can make changes to the data that we hold about your identity including your name, gender, title, and the pronouns you use. Please refer to **Important Links and Information** in this Handbook.

If you develop or if there is a change to your disability, impairment, long-term health condition or specific learning difficulty, please get in touch with our Disability Service for advice on the support you may be entitled to.

If you are ill or are likely to be ill for more than three days, you must notify your Head of Department. Where you have a planned absence to undergo medical or surgical procedures that requires time off for more than three days, you can apply for a leave of absence from your Head of Department. Your department can arrange in advance for time off study and may be able to consider other options.

If you are considering suspending your studies, transferring from one programme to another, or withdrawing from your programme, please discuss your situation with your Director of Studies. They will be able to advise you on an appropriate course of action.

The financial implications of withdrawing from the University or suspending your studies can be significant. See **Important Links and Information** in this Handbook.

The Student Money Advice Team in Student Support and Safeguarding and the Student Finance Office will be able to advise you on the implications for fees in your situation and on how to suspend any student funding you are receiving.

If you are an international student holding a Student visa, you should consult the advisers in the Student Immigration Service about the implications of suspending or withdrawing from your programme. See Important Links and Information in this Handbook.

You will need to register any change of academic circumstance, including a change of optional units, with the University. Please speak to your Department or Faculty/School administration who will advise you on how to do this.

DISSATISFACTION WITH A UNIVERSITY SERVICE OR FACILITY (COMPLAINTS)

We want to ensure that, if you have a problem concerning the University, it is resolved as quickly as possible. The University is committed to continuing review and improvement, and seeks regular feedback from students. There are student representatives on the University's formal decision-making committees who can raise issues so that they can be dealt with promptly. The University is also committed to providing an environment within which students are encouraged to raise any matters of concern in an informal manner as soon as they arise. This often removes the need for formal complaints.

It is expected that most complaints can be resolved at an early stage by discussing the matter informally at a local level. If you have a problem concerning the University, you should bring the matter to the attention of an appropriate member of staff, who will aim to resolve it by informal discussion. If you have attempted to resolve matters informally but are not satisfied with the outcome, you may elect to proceed to the next stage by submitting a formal complaint. You may also submit a formal complaint if the issue involved is too complex or serious for informal resolution.

If you do need to make a complaint, there are procedures in place to deal with it, outlined in the University's **Student Complaints Procedure**. These procedures are designed to ensure that your complaint will be dealt with in good faith and that you will not be penalised for complaining.

There are separate procedures for requesting a review of progression or award classification decisions. See the section in this Handbook on **Academic Appeals**.

The University recognises that making a complaint can be stressful. Students are therefore advised to seek advice and support before making a complaint, from Student Support and Safeguarding, or from the Students' Union Advice and Support Centre, whose advice is independent of the University.

Full information is available online. Please refer to **Important Links and Information** in this Handbook.
