ABOUT THIS HANDBOOK

This is the 2022-23 Handbook for all students on the BSc (Hons) Sport & Exercise Science, and MSci (Hons) Sport & Exercise science programmes.

The contents of this Handbook are accurate at the time of publication 23/09/22 but information contained within may sometimes be subject to change after this Handbook has been issued.

The Important Links and Information section of this Handbook contain links to information about the topics in this Handbook and other key topics. It is important that you familiarise yourself with the online information as well as the contents of this Handbook.

Information about the structure of your programme (which units you take when, which units are compulsory etc), as well as key unit information (including learning outcomes, synopsis and assessment), for the upcoming academic year can be found online in the Unit and Programme Catalogues (see **Unit and programme catalogues** in this Handbook and www.bath.ac.uk/catalogues). You will also receive details about unit content and assessment via the University's online learning environment, Moodle.

You will be informed, normally by your Director of Studies or Unit Convenor, of any further changes that will affect your programme or a unit. See also **Unit and programme changes** in this Handbook.

While this Handbook signposts information about regulations for students, it does not have regulatory status itself, and the Regulations available online (Regulations for Students: <http://go.bath.ac.uk/regulations> and Assessment Regulations: www.bath.ac.uk/corporate-information/new-framework-for-assessment) are the most up-to-date and take precedence over the contents of this Handbook. It is your responsibility to take the time to familiarise yourself with the Regulations.

If in doubt about what applies to you, or if your circumstances change, please contact your Director of Studies Dr Adam Brazil at ab471@bath.ac.uk for advice.

IMPORTANT LINKS AND INFORMATION

UNIVERSITY INFORMATION ONLINE

This Handbook is an accompaniment to important information available to all students on the University's website. It is expected that you will familiarise yourself with the online information signposted below.

If you cannot find the information you are looking for in this Handbook or on the web please contact the Director of Studies, Dr Adam Brazil at ab471@bath.ac.uk, or your Programmes Administrator at health-hes-ses@bath.ac.uk in the first instance.

HEAD OF DEPARTMENT WELCOME 2022/23

Welcome to the University, and to our sport and health related courses in the Department for Health. We are very proud of our courses, and the research and applied practice that our staff are doing that directly feeds into our teaching, so we hope you will enjoy learning from them and seeing some of the subjects you are interested in coming to life. We are lucky to be studying and researching topics that have the potential for such direct impact on people's lives, and hope that your time at Bath is a launchpad for you into a career that you love and really makes a difference.

We know you've had a very challenging time over the past 3 years, and hope that you are very proud of what you have achieved to get to the beginning of your University course. The transition into University life is fun and exciting but we know that there can be some unexpected challenges along the way. The University offers a wide range of support services which you will find out about from your course team, personal tutor and the Students' Union. Please do reach out to these sources of support if you have any concerns about your studies or University life.

Alongside your studies we encourage you to get involved in some of the huge range of sporting, cultural and community activities that the University and the Students' Union offer to maximise your student experience. Through your course and these activities we hope you meet a wide variety of new and inspiring colleagues who shape your thinking, contribute to your development and help you along the journey to the end of your course. We really hope you will enjoy your studies with us over the next few years, and of course all the other opportunities that coming to the University of Bath brings with it.

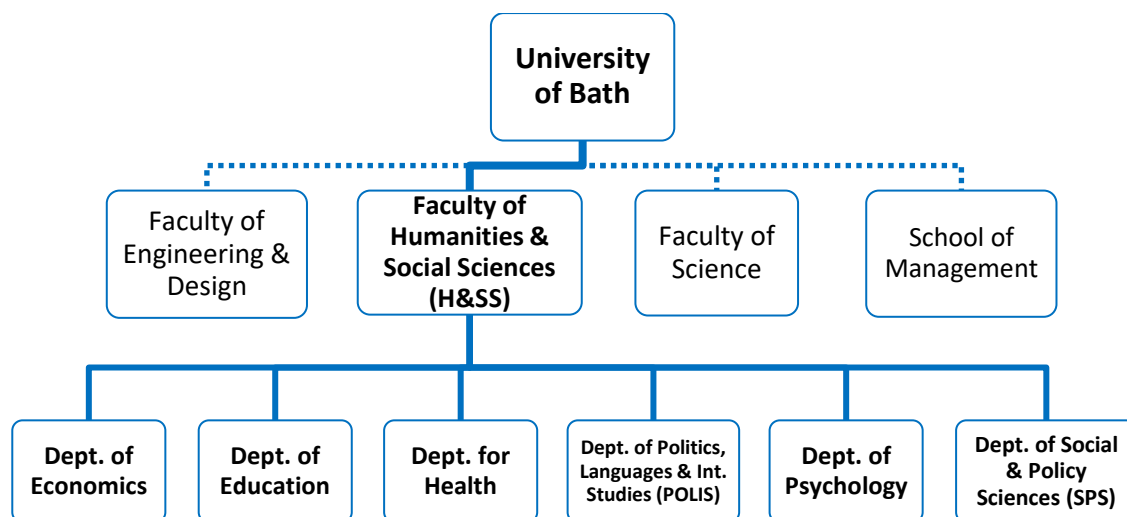

Polly McGuigan
Head of Department

ABOUT THE DEPARTMENT 2022/23

Welcome to the University of Bath. Your programme is delivered by the **Department of Health** within the [Faculty of Humanities & Social Sciences \(HSS\)](#). The Faculty is one of three Faculties and one School in the University (see below) and comprises six academic [Departments](#).

[Economics](#), [Education](#), [Health](#), [Politics](#), [Languages & International Politics](#), [Psychology](#) and [Social & Policy Sciences](#).

Faculty H&SS Taught Programmes administration

Undergraduate and Postgraduate Taught (Masters) programmes are delivered by academic staff in departments, with administrative support provided by our Taught Programmes Team. Our Taught Programmes Team consist of expert Managers, Officers, Administrators and Administrative Assistants, located in Hub Offices across our Faculty buildings – 3 East, 1 West North, 1 West and 10 West.

Our Taught Programmes Team is responsible for all aspects of administrative support for all taught programmes in the Faculty, ensuring that services are efficient, effective and adapt to changing circumstances. We provide students with support and advice from registration to graduation and support academic teaching staff in our departments.

Our duties include:

- managing administrative processes of the Faculty's taught programmes
- acting as a central point of contact for staff and students seeking advice
- offering programme-related operational support for academic teaching staff in departments

It is important that you get to know the administrators who look after your particular programme, as they can often provide invaluable guidance on various aspects of the programme. If your administrator is unavailable then please speak to any other of our other administrators listed on our wiki page [here](#), all of whom will be very happy to help you. If you have any problems, then please contact one of the Programmes Officers or Managers. Emails are managed via shared mailboxes to deal with enquiries from students and academic staff and these are regularly monitored by designated members of the team.

KEY CONTACTS/STAFF LIST

Administration Staff

Taught Programmes Team hub office 1WN 3.2
 Education and Health (UG and PGT Programmes)
 Distance Learning

How to contact us in person

The Taught Programmes Team hub office is open between 9am and 4pm from Monday to Friday for in-person enquiries.

We ask that students and staff do not enter the office unless you are invited in. Please use our hatch for student and staff enquiries.

We are currently operating 'hybrid working' in the team which means that we will work some of our time on campus in the office and some of it from home each week.

How to contact us remotely

You can contact us using our shared mailboxes with your enquiries. We are happy to take your calls on Teams if you would like to talk to us, however we may not be able to answer immediately if, for example, we are in a meeting. You can use our shared mailboxes to email us and book in a time when we can call you back.

Do you have an urgent enquiry?

If your enquiry is urgent, we advise sending an email to the relevant shared mailbox which will be monitored between 9am and 5pm from Monday to Friday.

ABOUT YOUR PROGRAMME

We are delighted to welcome you to the University of Bath to study on our BSc (Hons) Sport and Exercise Science, and MSci (Hons) Sport and Exercise Science programmes. This is a challenging and exciting time for all of you. Most of you have left your home and friends to join the degree programmes and will be learning to live in a new environment with a new circle of friends. The staff teaching on the degree programmes will help you to prepare for the challenges ahead. Not only do you have to prepare for three to five years of study, you can also integrate this with the many opportunities to participate in sport and physical activity in the excellent University facilities. The University community in the arts, drama, and music affords other exciting extra-curricular activities. Facilities provide space for theatre, music studios, and rehearsal rooms for art exhibitions. In addition, the Bath University Students' Union (BUSU) finances and supports many diverse clubs and societies, ranging from cultural societies and political groups through sports clubs and the arts. These academic, social and

cultural experiences underpin the University's strong emphasis on an education for the 'real world' – an emphasis reflected in the consistently high employer demand for its 'well-rounded' graduates.

The Sport and Exercise Science staff team and programmes are an integral part of the Department for Health within the Faculty of Humanities and Social Sciences. The Sport and Exercise Science degree is a modular programme delivered over two academic semesters each year. The Sport and Exercise Science academic staff delivers the programmes with input and expertise also provided by the Faculty of Science and the Department of Sports Development and Recreation. Our expectations of you are high, but with our help and support you all have the opportunity to be very successful. The University is a large and complex organisation that has systems of operation that may at first seem alien to you, but with a little patience you will come to understand how we can all work together for your benefit to solve any problems you may encounter.

The University of Bath is an elite institution in every respect. It has a world-renowned reputation for research and teaching, outstanding recreational provision for students and an outstanding elite athlete programme. We are delighted to welcome you to this unique learning environment and look forward to helping you to fulfil your ambitions.

Dr Adam Brazil
Director of Studies for Sport and Exercise Science

PROGRAMME AIMS AND LEARNING OUTCOMES

BSc (honours) Sport and Exercise Science

In support of the University's Mission, the general aims of the Degree programmes in Sport and Exercise Science are:	
<ul style="list-style-type: none"> To offer students an education in the inter-disciplinary approach to sport & exercise science in a supportive and stimulating environment that encourages them to reach their full academic potential To enable students to develop a coherent, critical understanding of the relevance of sport & exercise science to contemporary problems and practices To offer constructive appraisals of students' individual personal performances with respect to required learning outcomes To integrate research into teaching, and provide students with practical experience using sophisticated equipment in well-equipped laboratories To equip graduates with the appropriate knowledge and skills to support them in their chosen professional careers or to pursue further academic study. 	
Knowledge & Understanding:	Teaching in the programmes is research-led but also informed by professional practice with more prescriptive guidance given at Part 1. This is transformed into more independent learning in Parts 2 and 3. The programmes offer generic and specific knowledge and skills whilst allowing for depth and selective focus in the final year.

	<p>As the students progress through the programmes practical applications are added to the scientific and theoretical foundation. Thus, a distinctive feature of this educational experience is the 'bridge-building' between theory and practice in sport and exercise science in accordance with the Subject Benchmark Statement.</p> <p>At Part 1, learning and teaching are mostly tutor-led with lectures, practicals, and academic workshops providing the students with a foundation of core knowledge, understanding, and intellectual skills that are required to progress to Part 2. Students become increasingly independent at Part 2 with seminars, group learning, practical sessions, and student-led activities supplementing the information provided in lectures. At Part 3, the learning environment is one in which autonomous learning is facilitated via problem based learning, virtual learning environment, independent reading and independent research.</p> <p>A wide variety of assessment methods are employed throughout the programmes, including: essays, laboratory reports, activity logs, group and individual oral presentations, small group activities, seminar discussions, tests and tutorial sheets, computer based problem solving tasks, ICT/web based projects, research project and examinations.</p> <p>At the end of the programme, students should be able to:</p> <ul style="list-style-type: none"> • Demonstrate a level of knowledge and critical understanding of sport and exercise science sufficient to gain employment or follow postgraduate programmes • Demonstrate an understanding of the need for an interdisciplinary approach to the study of sport and exercise science
Intellectual Skills:	<ul style="list-style-type: none"> • With supervision, design and implement a research project, including data collection, analysis, and interpretation, plus effective communication of the results • Demonstrate experimental, practical, and critical and analytical skills in sport and exercise science, and apply the relevant principles of physiology, psychology, and biomechanics to solve familiar and unfamiliar problems • Develop coherent arguments and challenge assumptions
Professional Practical Skills:	<ul style="list-style-type: none"> • With supervision, design, implement, and evaluate exercise and health, sport science support, or coaching programmes • With supervision, work effectively in a sport and exercise science support laboratory, including testing participants and analysing and communicating results
Transferable/ Key Skills:	<ul style="list-style-type: none"> • Demonstrate good written and spoken communication, numeracy, leadership, problem-solving skills, and the ability to work independently and as part of a group • Use Communication and Information Technology for word processing, electronic communication, information retrieval, experimental design, interactive experimental control, and data collection, handling, and analysis • Plan and manage their own learning

	<ul style="list-style-type: none"> • Self-appraise and reflect on practice <p>ADDITIONAL LEARNING OUTCOMES:</p> <p>Professional Placements</p> <ul style="list-style-type: none"> • Apply their knowledge and skills in a particular area of sport and exercise science or a related activity • Explain the structure and significance of the employing organisation and the role of the placement project in the organisation's overall strategy • Utilise the experiences gained during the placement to enhance individual contributions to work within the final year <p>Study Abroad</p> <ul style="list-style-type: none"> • Demonstrate their ability to study effectively alongside students with a different cultural background • (In the case of students attending lectures in a language other than English) demonstrate the ability to operate at an academic level in the language of the country concerned
--	---

MSci (Honours) Sport and Exercise Science

In support of the University's Mission, the general aims of the MSci programmes in Sport and Exercise Science are:

- To offer students an education in the inter-disciplinary approach to sport & exercise science in a supportive and stimulating environment that encourages them to reach their full academic potential
- To enable students to develop a coherent, critical understanding of the relevance of sport & exercise science to contemporary problems and practices
- To offer constructive appraisals of students' individual personal performances with respect to required learning outcomes
- To integrate research into teaching, and provide students with practical experience using sophisticated equipment in well-equipped laboratories
- To equip graduates with the appropriate knowledge and skills to support them in their chosen professional careers or to pursue further academic study.

Knowledge & Understanding:	<p>Teaching in the programmes is research-led but also informed by professional practice with more prescriptive guidance given at Part 1. This is transformed into more independent learning in Parts 2 to 3. The programmes offer generic and specific knowledge and skills whilst allowing for depth and selective focus in the final two years. As the students progress through the programmes practical applications are added to the scientific and theoretical foundation. Thus, a distinctive feature of this educational experience is the 'bridge-building' between theory and practice in sport and exercise science and technology-enhanced and blended learning in accordance with the Subject Benchmark Statement.</p> <p>At Part 1, learning and teaching are mostly tutor-led with lectures, practicals, and academic workshops providing the students with a foundation of core knowledge, understanding, and intellectual skills that</p>
----------------------------	---

	<p>are required to progress to Part 2. Students become increasingly independent at Part 2 with seminars, group learning, practical sessions, and student-led activities supplementing the information provided in lectures. At Part 3, the learning environment is one in which autonomous learning is facilitated via problem based learning, virtual learning environment, independent reading and independent research.</p> <p>A wide variety of assessment methods are employed throughout the programmes, including: essays, laboratory reports, activity logs, group and individual oral presentations, small group activities, seminar discussions, tests and tutorial sheets, computer based problem solving tasks, ICT/web-based projects, research project and examinations.</p> <p>At the end of the programme, students should be able to:</p> <p>[¹ (below) indicates the intended learning outcomes to those students who may be awarded BSc (Hons) Sport and Exercise Studies interim exit award]</p> <ul style="list-style-type: none"> • Demonstrate a level of knowledge and critical understanding of sport and exercise science sufficient to gain employment or follow postgraduate research programmes [or for ¹: follow postgraduate taught programmes] • Demonstrate a systematic understanding of knowledge and a critical awareness of scientific research and chosen sport and exercise science discipline issues [for ¹: Demonstrate a systematic understanding of scientific research and chosen sport and exercise science discipline issues] • Demonstrate a comprehensive understanding of relevant research techniques in sport and exercise science and how the boundaries of knowledge are advanced through research • Demonstrate originality in applying knowledge and practical understanding in order to show how research can be used to create and synthesise knowledge • Demonstrate an understanding of the need for an interdisciplinary approach to the study of sport and exercise science¹
Intellectual Skills:	<ul style="list-style-type: none"> • Demonstrate experimental, practical, critical and analytical skills in sport and exercise science, and apply the relevant principles of physiology, psychology, and biomechanics to solve familiar and unfamiliar problems¹ • Develop coherent arguments and challenge assumptions¹ • Assess paradigms, and synthesise and interpret this information in a professional or vocational context • Demonstrate ability to deal with complex issues both systematically and creatively • Show originality in tackling and solving problems at the forefront of sport and exercise science • Demonstrate skills to work effectively as a part of a team¹ • With supervision, design and implement a research project, including data collection, analysis, and interpretation
Professional Practical Skills:	<ul style="list-style-type: none"> • With supervision, design, implement, and evaluate exercise and health, sport science support, or coaching programmes¹

	<ul style="list-style-type: none"> • With supervision, work effectively in a sport and exercise science support laboratory, including testing participants and analysing and communicating results¹ • With supervision, carry out independent research, demonstrate comprehensive application of techniques used in data collection & analysis, and demonstrate effective communication of the results
Transferable/Key Skills:	<ul style="list-style-type: none"> • Demonstrate good written and spoken communication, numeracy, leadership, problem-solving skills, and the ability to work independently and as part of a group¹ • Use Communication and Information Technology for word processing, electronic communication, information retrieval, experimental design, interactive experimental control, and data collection, handling, and analysis¹ • Plan and manage their own learning¹ • Self-appraise and reflect on practice¹ <p>ADDITIONAL LEARNING OUTCOMES (also for relevant BSc (Hons) Sport and Exercise Studies programmes)</p> <p>Professional Placements</p> <ul style="list-style-type: none"> • Apply their knowledge and skills in a particular area of sport and exercise science or a related activity • Explain the structure and significance of the employing organisation and the role of the placement project in the organisation's overall strategy • Utilise the experiences gained during the placement to enhance individual contributions to work within the final two years <p>Study Abroad</p> <ul style="list-style-type: none"> • Demonstrate their ability to study effectively alongside students with a different cultural background • (In the case of students attending lectures in a language other than English) demonstrate the ability to operate at an academic level in the language of the country concerned

PROGRAMME DESCRIPTION: STRUCTURE OF YOUR PROGRAMME

The structure of your programme year for 2022/23 can be found in the 2022/23 Unit and Programme Catalogues (<https://www.bath.ac.uk/catalogues/2022-2023/hl/hl-proglist-ug.html#C>) . The content of the Programme Catalogues is correct for teaching being delivered in 2022/23 at the time of publication. Programmes and units may be subject to reasonable change (see **Unit and programme changes** in this Handbook). Information on later years of your programme will be provided separately.

UNIT AND PROGRAMME CATALOGUES

This is where you will find details about all individual units for the current academic year.

The Catalogues also provide links to the relevant areas of the University's assessment regulations, showing how these are applied to your programme of study.

For the online Catalogues, please refer to **Important Links and Information** in this Handbook. See also the section in this Handbook on **Assessment**.

PROFESSIONAL BODY ACCREDITATION

The professional body for Sport & Exercise Scientists is The British Association for Sport & Exercise Science (BASES - <http://www.bases.org.uk/Home>). All students on the Sport and Exercise Science course at Bath are eligible for student membership, and the costs and benefits of doing so are set out on the BASES website.

All our BSc and MSci courses in Sport & Exercise Science have been recognised by the British Association of Sport and Exercise Science as BASES endorsed degrees. This is a further recognition of the quality of academic provision and brings along some advantages for your careers (please see https://www.bases.org.uk/spage-organisations-bases_undergraduate_endorsement_scheme.html for more details). For example, organisations/employers with which BASES has partnerships, recognise BASES accreditation as a key 'standard' of competence in sport/exercise science – of which a BUES degree is a key component.

YOUR TIMETABLE

Using MyTimetable, you can access your personal timetable and download it into an electronic calendar.

Your teaching on campus and any Live Online Interactive Learning (LOIL) sessions you may have will show in your timetable. Links to LOIL sessions can also be accessed through the relevant unit page on the University's online learning environment, Moodle.

When you start your units, you will be able to access associated online material at a time that suits your schedule.

MyTimetable updates regularly, so should there be a change to your timetable, it will be reflected in MyTimetable.

Group allocations may be visible through MyTimetable, or will be provided through the individual unit Moodle pages

Full information is available online. Please refer to **Important Links and Information** in this Handbook.

PHYSICAL STUDY SPACE – 2022/23

As in previous years, you will have access to drop-in and bookable study space on campus and in the city for individual or group study. Information on how to book and any usage guidelines or requirements are available online. Please refer to **Important Links and Information** in this Handbook.

OPTION CHOICES

If your programme has option choice then information about how and when to choose your option units can be found online (please refer to **Important Links and Information**). If applicable, you will receive an email notification at the relevant point in the year when online unit selection is available. If you want to discuss your option choices, please contact your Director of Studies.

PLACEMENT SUPPORT

The University is committed to enhancing students' vocational outcomes and learning experiences by supporting placements. We have a dedicated placements team to support and guide you through the process of applying for, securing and successfully completing a placement.

The contact details for your Placements Manager and Placement Tutor can be found in the list of key contacts/staff list at the start of the handbook.

If you have any queries or concerns then please contact the Placements team.

For some placements, there is a requirement for a Disclosure and Barring Service (DBS) check and you should liaise with the placement support team for further guidance.

Before going on placement you should consult the University Placements Handbook containing generic advice and information for whilst you are on placement. Please refer to **Important Links and Information** in this Handbook. You will receive programme specific information directly from your Department.

If you are on a placement of one semester or longer you can normally expect to be visited by staff, in person or remotely, at least once during your placement.

A re-induction activity will be conducted to welcome you back from placement and update you on any changes that may have occurred at the University during your time away.

There is a possibility of taking a year out (at the end of Year 2) to study abroad or take a professional placement (or a combination of the two), leading to a 4-year (BSc) or 5-year (MSci) sandwich programme. We believe that the ability to choose the programme that best suits your needs is one of the major strengths of our programmes at the University of Bath. Some of you will have specifically applied for one of these particular routes. Those of you who applied for a non-placement programme may request a transfer.

Requirements and Responsibilities

The University has a commitment to assisting you to organise the work and to support you during your placement year. This has been written into a code of practice for both Placement Officers and students. The responsibilities of the university are to:-

- Provide full information about the requirements of the placement to you.
- Provide (if possible) job descriptions of vacancies, deadline dates, methods of application and background information about the employer.

- Ensure that prospective employers meet appropriate health and safety standards.
- Inform you of the support you will receive, including tutor visits or campus weekends.
- Ensure that your progress is monitored.
- Arrange debriefings and collect reports from visiting tutors.
- Coordinate any placement assessment processes.

The full version of the code of practice can be found on the University website at:
<http://www.bath.ac.uk/placements>

There are also a number of responsibilities and expectations of students prior to, during, and following placements; see the Students' Union handbook for more details. There is inevitably a degree of administrative paperwork involved in setting up and administering appropriate and safe placements, and you will need to take the lead in making sure this is in place for your particular placement. Please be prepared for this and adhere to the deadlines set by the placements tutor and administrative team. Failing to complete requirements promptly could lead to the delay of your placement.

Overseas Placements

Many students choose a placement overseas. There are additional requirements in these cases for obtaining visas and permits, and insurance. It will be your responsibility to ensure that you organise these requirements in good time in order to be able to take up your placement promptly. Additional support and advice on the requirements for overseas placements is available from Student Services.

Selection Procedure

We must emphasise that, for all students, there is no guarantee of obtaining a particular placement or study opportunity. Application is competitive and is based, inter alia, upon a satisfactory Year 1 profile. Indeed, applying for a place is often analogous to a job application – application forms, cover letters and curriculum vitae are submitted and successful candidates are called for interview.

Further information

University Placement Handbook and other information for placement students:
<http://go.bath.ac.uk/placements-information-for-students>

STUDENT EXCHANGE/STUDY ABROAD

After the successful completion of Year 2, Sport and Exercise Science students have the opportunity to spend a year studying abroad at the University of Southern Cross in Australia or the Technische Universität München, Germany (our SES overseas partner institutions). There is not a “free choice” of host institutions for study abroad and you should contact the Placements Tutor regarding approved Study Abroad Institutions.

Students taking the study abroad option are required to spend one or two semesters, depending upon whether or not they are registered on the programme for a full year's study abroad or the mixed placement/study abroad option, at the partner institution. During their study, a minimum of 50% of the units that the student has enrolled in must fall into the subject of sport and exercise science. Enrolment fees are typically covered by the partner institution, however, students will be expected to cover accommodation, travel, and living expenses.

To pass the study abroad year and progress into the final year of their degree, students must successfully pass all of the units that they have enrolled on during their study abroad year and provide the University with an academic transcript from the partner institution.

If you have queries or any COVID-related concerns then please contact Dr Adam Brazil at ab471@bath.ac.uk.

UNIT AND PROGRAMME CHANGES 2022/23

All programme and unit changes are managed through formal University processes. This is to ensure that changes are academically appropriate, properly supported and are made in a way that safeguards the interests of students.

We continually look for ways to develop and improve our programmes, aimed at enhancing your learning experience and maintaining high academic standards and quality. Such changes could be, for example, to update content to reflect latest developments in a particular field of study, or to respond to student feedback on delivery and/or assessment. Students who would be affected by proposed changes are consulted about them, either via their Staff/Student Liaison Committee or directly, depending on the nature of the change.

In addition, it is sometimes necessary to make changes due to unforeseen or unavoidable circumstances. The need to adapt to circumstances created by the global pandemic was a significant example of this.

This could also be for reasons such as:

- the accrediting body requiring changes to be made to the course, or,
- being unable to run an option unit because too few students selected it.

When this happens, we always try to ensure that the impact on students is minimised and that those affected are informed of the changes at the earliest opportunity.

Information on how we assure the quality and standards of your programme of study is available online. Please refer to **Important Links and Information** in this Handbook.

GIVING FEEDBACK ON YOUR PROGRAMME TO THE UNIVERSITY

The University is committed to continually improving its practice and aims to engage students as active partners in their education (The University of Bath Strategy 2021 to 2026). The three main ways in which your feedback will be sought will be through:

- Staff / Student Liaison Committees (SSLCs)
- surveys and evaluations
- the Students' Union.

Full information is available online. Please refer to **Important Links and Information** in this Handbook.

ASSESSMENT

Full information is available online. For signposts to important information on many aspects of assessment, please refer to **Important Links and Information** in this Handbook.

SUBMISSION DEADLINES

You will be informed of the deadline to submit your assessment.

Submission deadlines for coursework will be made available to you at the start of each semester during your year group meeting and/or in the introduction session of each Unit. The slides from the induction meetings will be made available on the [SES Hub](#) Moodle page or in the Moodle area of each Unit. Details will also be available in individual unit outlines. While we try to stagger these deadlines across the semester as far as we can, inevitably we want to give you as much time as we can once you have undertaken the necessary lectures and practical sessions to complete your assignments. This means you can expect to have a number of deadlines towards the end of the semester. We recommend that you start preparing your assignments well ahead of this deadline to pace your workload.

You will be notified of how you should submit for each unit in your unit outline and on the unit's Moodle page next to the assignment submission link.

Your assignment must be submitted by 12:00 noon on the submission date

It is your responsibility to ensure that you submit your correct assignment electronically before the deadline by uploading it to the Moodle course for your unit. **You will receive an automated email confirming that your assignment has been uploaded.**

You will not be contacted if you fail to upload your assignment.

If the assignment is submitted after the deadline, your work may be marked as **late and capped at 40% if received within 5 working days. After this time you will receive zero.**

Your assignment must be formatted correctly, according to the guidelines provided through the relevant Moodle pages. All units will be using electronic-only submission. For these units, you must download and complete the template coversheet (available on the Moodle unit page, next to the submission link), insert your assignment and upload this to Moodle. You should include the unit code and your 5-digit candidate number in the file name. You can find your candidate number on SAMIS. Your submission files should be saved as Word documents. Full instructions are available next to the Moodle submission link for the assignment.

PLEASE NOTE: You must complete all elements of assessment to obtain a mark and gain credits in each unit. That is, if you do not submit a piece of coursework, or if you do not sit a class test, you cannot pass the unit as a whole even if you have achieved a high enough average mark for the unit.

LATE SUBMISSION OF COURSEWORK

To ensure fairness to all students, you will be expected to hand in all assessed coursework and dissertations/projects by a specified date and time, and there are penalties for submitting work after the specified deadline.

If there are valid circumstances preventing you from meeting a deadline, your Director of Studies may grant you an extension to the specified submission date. Extension requests should be submitted through SAMIS.

WORD COUNTS

Coursework tasks will normally have a word limit or word range. This, and the penalty for non-compliance, will be confirmed when you receive an assignment. Written coursework tasks will normally have a word range or limit. This is in order to give an indication of the depth and detail of work required, and to ensure that students' submitted work is comparable. You will be required to declare the word count for your work when submitting it for assessment.

If you do not observe the given word range or limit for the coursework task, for example if you exceed the word limit, then a penalty will be applied. The penalty that would apply should be stated in writing when the assignment task is distributed. You should take note of what is included when calculating the total word count (e.g. whether or not contents pages, appendices, footnotes, bibliographies and other elements that are not part of the main text are included).

You should check with your Director of Studies if you have questions about word counts and penalties.

FEEDBACK ON ASSESSMENT

During your course, you will receive feedback on your assessed work. This feedback may take different forms, depending on the subject and type of assessment. You will be informed of the timing and nature of the feedback you will receive on each assessment, including whether the piece of work itself will be returned to you. For exam-type assessment, you may receive general feedback relevant to all who took the assessment rather than individual feedback. You can discuss feedback you receive on assessments alongside your performance and progress in your studies at meetings with your Personal Tutor.

Please follow the link for more information:

<https://moodle.bath.ac.uk/course/view.php?id=54186§ion=9>

ACADEMIC INTEGRITY

The University has a wide range of resources available to you to help you understand the importance of academic integrity and how you can enhance your academic writing and practice.

All students will be unable to progress beyond the next progression point in their studies until they pass the University's Academic Integrity Test. The test has a pass mark of 85% but you can take the test as many times as you need to.

When you submit your assessment, you will be expected to make a declaration that the work is your own and, where you have re-used your own work and/or used other sources of information, that you have referenced the material appropriately. The University uses a plagiarism detection service (currently Ouriginal), which searches the web and databases of reference material and content submitted by other students, to identify duplicated text. Where practical, all summative assessment is submitted to this service to check for similarities as an initial indicator of whether work has been plagiarised and an assessment offence committed.

Submission of your assessment to the Plagiarism Detection Service - Data Protection statement

The Plagiarism Detection Service complies with European Data Protection legislation. When you registered with the University, you gave it permission to process your personal data for a variety of legitimate purposes. This includes allowing the University to disclose such data to third parties for purposes relating to your studies. The University, at its sole discretion, may submit the work of any student to the Plagiarism Detection Service (in accordance with Regulation 15.3e) and may make, or authorise third parties to make, copies of any such work for the purposes of:

- 1) assessment of the work
- 2) comparison with databases of earlier work or previously available works to confirm the work is original
- 3) addition to databases of works used to ensure that future works submitted at this institution and others do not contain content from the work submitted.

The University will not make any more copies of your work than are necessary, and will only retain these for so long as remains necessary, for these purposes.

Please note that, if at any time the University submits any of your work to the Plagiarism Detection Service, the service will be provided with, and will retain, certain personal data relating to you – for example, your name, email address, programme details and the work submitted. Such data may be transferred by the Plagiarism Detection Service to countries worldwide (some of which may not be governed by EU data legislation) in order for the work to be checked and an originality report generated in accordance with the proper workings of the Plagiarism Detection Service. Personal data is retained indefinitely by the Plagiarism Detection Service upon submission of work. You may ask for your personal data to be removed by contacting the University's Data Protection Officer.

PENALTIES FOR ASSESSMENT OFFENCES

Academic misconduct can be described as 'the use of unfair means in any examination or assessment procedure'. Any student who is found to have used unfair means and therefore committed an assessment offence will be penalised. Potential types of assessment offence include plagiarism, self-plagiarism, collusion or unauthorised collaboration, contract cheating (including impersonation), fabrication or falsification, or breaching of examination regulations. Penalties for assessment offences depend upon the severity of the offence but may include failure of the assessment, unit or part of a degree, with no provision for reassessment or retrieval of that failure. Severe cases of academic misconduct, for example, contract cheating could lead to an Inquiry Hearing or disciplinary proceedings. Claims of inadvertence or ignorance will not be accepted as a basis for mitigation of a penalty.

If you are accused of an assessment offence, the Students' Union's welfare services are available to support you. You have the right to appeal against the outcome of the investigation.

Important information on academic integrity, the Plagiarism Detection Service, assessment offences and penalties, and support, as well as the Academic Integrity Test itself, is available online. Please refer to **Important Links and Information** in this Handbook.

IF CIRCUMSTANCES IMPACT ON YOUR ASSESSMENT ATTEMPT

Individual Mitigating Circumstances (IMCs) are the conditions which temporarily prevent you from undertaking assessment or significantly impair your performance in assessment. As such, the measure of their severity is not about impact on you, but the impact on your affected assessment. Full information about IMCs is available online. Please refer to **Important Links and Information** in this Handbook. **It is strongly advised that you become familiar with the available guidance and related regulations.**

ASSESSMENT PROCESSES

Assessment and marking processes at the University are designed to ensure that assessment of your work is fair and consistent, and that academic standards are appropriate and comparable between the University and other higher education institutions. This is achieved in several ways.

Marking: Assessments you will complete during your programme are marked according to:

- *marking criteria (or assessment criteria)* - these are the knowledge, understanding and skills that students should demonstrate in the assessment. They are based on the learning outcomes being assessed
- *marking schemes* - these are detailed descriptions of how specific numbers of marks should be assigned against individual components of an answer within the assessment task
- *grade descriptors* - these are descriptions of the levels of achievement required in order to get a result within a given band of marks (e.g. 70% or more).

Anonymous marking: The University has adopted a principle of anonymous marking in order to protect students and staff from bias, and the perception of bias, in the marking process. It applies to all assessment where practicable. It is not possible to mark all coursework anonymously as in some types of assessment the student can be easily identified by the marker (e.g. presentations, group work, laboratory work) or it might not be practical, or in the student interest, to do so. You will be informed when your coursework is to be marked anonymously.

Moderation: Both the setting and the marking of assessments are independently checked through a process known as moderation to ensure that questions test the learning outcomes and are set at the right standard, and that marking is consistent and fair. Moderation is conducted by internal examiners and also by your External Examiner (see below).

Boards of Examiners: Assessment decision-making at the University is the responsibility of Boards of Examiners established at three levels: assessment outcomes go first to *Boards of Examiners for Units*, then *Boards of Examiners for Programmes*, then finally to *Boards of Studies*. Boards of Studies confirm decisions relating to student progression, re-assessment, and the final award. **The assessment marks you are given initially by markers are therefore provisional up until the point when they have been confirmed by the Board of Studies (BoS) for your programme.** An official release date is set when your confirmed results will be made available to you via SAMIS (the University's student records system). An academic appeal can only be made in relation to a confirmed result (see the section in this Handbook on **Academic Appeals**).

Scaling: All marks for a unit are reviewed at a meeting of a Board of Examiners for Units which will verify that the assessment process has been conducted appropriately and that the marks are an accurate reflection of the standards achieved. A Board of Examiners can decide to recommend a change to the provisional marks, based on evidence that there was a problem with the assessment which means the initial marks do not reflect the standards achieved by students. This adjustment is known as scaling and under these circumstances the marks of all affected students will be changed.

External Examiner: An External Examiner is someone from another University or professional organisation who is qualified and experienced in the field of study. At least one External Examiner is appointed for each programme or group of programmes. The role of External Examiner is an important one in assuring that assessment processes are fair, academic standards are appropriate, and supporting the development of your programme. External Examiners review draft assessment and samples of assessed work, and attend Boards of Examiners. They are members of Boards of Examiners.

Once a year, the External Examiners will provide a written report. University staff, including the Head of Department and Director of Studies, will look at these reports and a response will be made to the External Examiner's comments. External Examiner reports and responses are made available to students. Staff/Student Liaison Committees (SSLCs) also discuss External Examiner reports as part of routine monitoring activity.

The External Examiners for your programme are:

- **Professor Ross Wadey – Professor of Sport Psychology at St Mary's University**
- **Professor Neil Bezodis – Professor of Biomechanics & Technology at Swansea University**
- **Dr Alexander Willmott - Associate Professor / Programme Leader, School of Sport and Exercise Science at Lincoln University**

It is not appropriate for students to make direct contact with External Examiners. If you are dissatisfied with the process or outcome of an assessment, and are considering whether to raise this either informally or formally, the sections of this Handbook on **Academic Appeals** and **Dissatisfaction with a University Service or Facility (Complaints)** give some more information about the University's procedures for student complaints and academic appeals. The University's mechanisms for student representation are designed to enable

students to engage with the quality management process through which the University considers and responds to External Examiners' comments and suggestions.

Full information is available online. Please refer to **Important Links and Information** in this Handbook.

ASSESSMENT REGULATIONS

The University's New Framework for Assessment: Assessment Regulations: Phase 1 for first-degree programmes ('NFAAR-UG') specifies the rules governing students' progression from one stage of their programme to the next as well as for the award of degrees. The rules cover all areas of assessment, including supplementary assessment and the extent to which failure may be condoned.

Your programme is covered by the NFAAR-UG, so your work will be assessed according to its rules. If at any time you are in doubt about how NFAAR-UG provisions apply to your work, please consult your Director of Studies.

This section highlights areas of the University's assessment framework for the type of programme you are undertaking. It explains the regulations that govern your assessment and outlines how the University makes decisions concerning your progression through your programme and award. Complete information is available in the NFAAR-UG document.

The full NFAAR-UG, a student introduction to it, and definitions of terms used in it, are available online. Please refer to **Important Links and Information** in this Handbook.

YOUR PROGRAMME AND HOW YOU ARE ASSESSED

Within a programme of study, there are compulsory units (i.e. those units in a programme which must be taken by every student registered on the programme), and there may also be optional units (i.e. those units students may choose from a range of options). All units in the first two years of the Sport and Exercise Science Course are mandatory. Optional units can be chosen in the final year of the BSc variant and final two years of the MSci variant of the Course.

In the Programme and Unit Catalogues, there are links to the relevant appendices of the NFAAR-UG which state exactly how the assessment rules operate for each stage of your programme.

There are some units that you must pass in order to progress to the next stage of your programme and to achieve the normal award for the programme at the end. Such units are called Designated Essential Units (DEUs). Failure in a DEU – even marginal failure – will prevent you from progressing (or completing) your programme.

Programmes are divided into a number of parts and stages. For full-time students, stages usually correspond to the year of study (so, for example, most first-year students will be in Stage 1 of their programmes).

Within each stage of a programme, the contribution of each unit's assessment to the calculation of the Overall Stage Average (OSA) is normally directly proportional to the credit-values of the unit concerned. Placement units form part of a stage and have a credit weighting. Some placement units carry marks and some are just pass/fail. Only enhanced placement units contribute to the Overall Programme Average (OPA) however.

The normal pass mark for a unit is 40%. In some units, you might need to achieve a threshold mark in one or more component assessments in order to pass the unit overall.

The rules differ slightly between 'Coexistent Master Programmes' (which lead to a Master's degree but have an associated programme leading to a Bachelor's degree) and other programmes.

If you fail a stage, you will be required either to repeat the entire stage or to transfer to a Designated Alternative Programme (DAP), if one exists, or if you fail very badly, to withdraw from the University. Where stage repeats are possible within the set limits, the repeating of any stage will be permitted once only.

At the end of each stage a Board of Examiners will decide whether you have passed the stage. The outcome will depend on both (1) your average mark in the stage and (2) the marks you obtain for each unit. Generally, if you pass each of your units (and, in a Coexistent Master programme, reach any OSA requirement set in addition), you will progress (or, after the final stage, be recommended for an award).

If you fail a large number of units (or, in a Coexistent Master programme do not reach any OSA requirement set in addition), you might fail the stage outright without any opportunity for supplementary assessment. (Further information on supplementary assessment is provided below.)

Particular rules apply to failure of units. They are as follows:

- if you fail any DEUs, you will have to undertake supplementary assessment - unless you have failed so many DEUs that you fail the stage outright
- if you fail any non-DEUs badly (i.e. achieve less than 35%), you will have to undertake supplementary assessment - unless you have failed so many units that you fail the stage outright
- if you fail only non-DEUs marginally (i.e. achieve 35%-39%), you might be able to progress without supplementary assessment. Whether you do progress will depend on the total credit value of the failed units and also on your OSA.

CALCULATING YOUR DEGREE OUTCOME

Your degree result is based on the calculation of your Overall Programme Average (OPA) based on the stages in Parts 2 and 3 of your programme. The contribution of each stage of the programme is set out in the Programme and Unit Catalogues. Stages in Part 1 are not included in the OPA calculation.

SUPPLEMENTARY ASSESSMENT

‘Supplementary assessment’ is the term normally used for an opportunity given to a student to retrieve failure before starting the next stage of a programme.

Academic year dates, including the supplementary assessment period, can be found online. See **Important Links and Information** in this Handbook.

Each unit’s method of supplementary assessment is shown in the online Unit Catalogue.

If you pass all your supplementary assessments, you will be able to progress onto the next stage of your programme.

The outcomes of failing a supplementary assessment are as follows:

- if you fail supplementary assessment in a DEU, you will fail the stage
- if you fail supplementary assessment in a non-DEU badly, you will fail the stage
- if you fail supplementary assessment in a non-DEU marginally, you might be able to progress; whether you may do so will depend on how many units you have failed (and in some cases also on your Overall Stage Average).

EXIT AWARDS – CERTHE AND DIPLHE

If you leave your programme early you may be eligible for a generic exit award, either a Certificate of Higher Education (CertHE) or a Diploma of Higher Education (DiplHE).

ACADEMIC APPEALS

If you wish to submit a request for an academic appeal you should refer to Regulation 17 (Conduct of Student Academic Reviews and Appeals), which outlines the process and grounds for an appeal against formal Board of Studies decisions.

You are also strongly advised to read the online guidance on Appeals provided by the Academic Registry.

Independent advice about academic appeals is offered by the Students’ Union Advice and Support Centre.

Full information is available online. Please refer to **Important Links and Information** in this Handbook.

CORE UNIVERSITY INFORMATION

UNIVERSITY REGULATIONS FOR STUDENTS

All registered students of the University are subject to the University’s Regulations for Students. The Regulations contain rules and other important information about being a student at the University of Bath, including regulations governing the payment of fees due to the University, student discipline, fitness to study and those governing attendance, conduct and progress in studies. They also form part of the formal contract between you

and the University. **You are strongly advised to read them carefully as they contain a lot of important information.**

For a link to the full Regulations for Students, see **Important Links and Information** in this Handbook.

ACCESSING UNIVERSITY EMAIL

You will need to use your University username and password to access your University email account. Your username also forms your email address (**username@bath.ac.uk**).

The University will often communicate with you about a range of important matters requiring action from you, including registration, assessment, degree ceremonies, and matters such as tuition fees, via your University email account. It is a University regulation that you access your University email account regularly, even if you are out on placement or study abroad.

You therefore have a responsibility to ensure that your University email account can receive incoming mail and that you read your email regularly.

To increase the security of your University account you will need to set up Multi Factor Authentication (MFA) so you can authenticate your identity and access your email.

Once you graduate or withdraw from your course, you will receive an email stating exactly when your account will be closed. The email will give at least 30 days' notice.

STUDENTS' UNION MEMBERSHIP

All students registered with the University are automatically given membership of the Students' Union; however you have the right not to be a member. Information on opting out of this membership, and the Code of Practice for the Students' Union, are available online. Please refer to **Important Links and Information** in this Handbook.

DATA PROTECTION

The University's Data Protection Policy and Guidelines on Data Protection may be accessed via the data protection website (see **Important Links and Information** in this Handbook).

REGISTRATION STATUS

You will be asked to register online at the start of your programme of study and then to re-register at the start of every academic year thereafter until you have completed your programme. It is a requirement that you register when asked to do so, and failure to do so may impact on your access to certain University facilities such as Moodle. Tuition fees for each academic year are payable at registration in full or in instalments.

Regulation 1.1 explains the requirement to register, regulation 1.5 explains that the University reserves the right to terminate the registration of continuing students who do not complete registration in accordance with Regulation 1.1. Regulations 2.4 and 2.10 explain the consequences of non-payment of tuition fees. Please refer to **Important Links and Information** in this Handbook.

ACADEMIC ENGAGEMENT MONITORING FOR STUDENT VISA HOLDERS

Guidance and requirements on academic engagement for students who are Student visa holders, including the University's **Academic Engagement Monitoring Policy for Student visa holders**, and information on when and how to request an authorised absence, are available online. Please refer to **Important Links and Information** in this Handbook.

CHANGE IN YOUR CIRCUMSTANCES

It is important to ensure that the University holds your correct, up-to-date, personal and academic details within SAMIS, the University's student records database. If you change your address – either your semester-time or home address – please update your details online (see **Important Links and Information** in this Handbook).

You can make changes to the data that we hold about your identity including your name, gender, title, and the pronouns you use. Please refer to **Important Links and Information** in this Handbook.

If you develop or if there is a change to your disability, impairment, long-term health condition or specific learning difficulty, please get in touch with our Disability Service for advice on the support you may be entitled to.

If you are ill or are likely to be ill for more than three days, you must notify your Head of Department. Where you have a planned absence to undergo medical or surgical procedures that requires time off for more than three days, you can apply for a leave of absence from your Head of Department. Your department can arrange in advance for time off study and may be able to consider other options.

If you are considering suspending your studies, transferring from one programme to another, or withdrawing from your programme, please discuss your situation with your Director of Studies. They will be able to advise you on an appropriate course of action.

The financial implications of withdrawing from the University or suspending your studies can be significant. See **Important Links and Information** in this Handbook.

The Student Money Advice Team in Student Support and Safeguarding and the Student Finance Office will be able to advise you on the implications for fees in your situation and on how to suspend any student funding you are receiving.

If you are an international student holding a Student visa, you should consult the advisers in the Student Immigration Service about the implications of suspending or withdrawing from your programme. See **Important Links and Information** in this Handbook.

You will need to register any change of academic circumstance, including a change of optional units, with the University. Please speak to your Department or Faculty/School administration who will advise you on how to do this.

DISSATISFACTION WITH A UNIVERSITY SERVICE OR FACILITY (COMPLAINTS)

We want to ensure that, if you have a problem concerning the University, it is resolved as quickly as possible. The University is committed to continuing review and improvement, and

seeks regular feedback from students. There are student representatives on the University's formal decision-making committees who can raise issues so that they can be dealt with promptly. The University is also committed to providing an environment within which students are encouraged to raise any matters of concern in an informal manner as soon as they arise. This often removes the need for formal complaints.

It is expected that most complaints can be resolved at an early stage by discussing the matter informally at a local level. If you have a problem concerning the University, you should bring the matter to the attention of an appropriate member of staff, who will aim to resolve it by informal discussion. If you have attempted to resolve matters informally but are not satisfied with the outcome, you may elect to proceed to the next stage by submitting a formal complaint. You may also submit a formal complaint if the issue involved is too complex or serious for informal resolution.

If you do need to make a complaint, there are procedures in place to deal with it, outlined in the University's **Student Complaints Procedure**. These procedures are designed to ensure that your complaint will be dealt with in good faith and that you will not be penalised for complaining.

There are separate procedures for requesting a review of progression or award classification decisions. See the section in this Handbook on **Academic Appeals**.

The University recognises that making a complaint can be stressful. Students are therefore advised to seek advice and support before making a complaint, from Student Support and Safeguarding, or from the Students' Union Advice and Support Centre, whose advice is independent of the University.

Full information is available online. Please refer to **Important Links and Information** in this Handbook.
