WELCOME TO THE DEPARTMENT OF PHARMACY & PHARMACOLOGY!

It is my pleasure to welcome you as a new postgraduate member of the Department of Pharmacy and Pharmacology. My role as Director of Studies for the postgraduate MSc in Drug Discovery programme (taught jointly with the Department of Chemistry) is to ensure that we, as academic staff, do all we can to assist you in obtaining the best result in your postgraduate taught programme that you can achieve. This requires both you and us to contribute equally to what is a real partnership between 'learner' and 'teacher' and to accept our joint responsibility for making your postgraduate studies a success. Our responsibility is to deliver taught material that is relevant, high-quality and up-to-date in a number of different settings – through lectures, seminars, tutorials, workshops, e-activities and practical classes. In return, we expect you to demonstrate commitment by attending all formal teaching sessions and be prepared to undertake further independent, self-directed study to support your understanding and learning of the material.

We want you to enjoy student life in Bath- this includes both work and play! We hope you will look back on your time here as a key element in defining your future and helping you on the road to fulfilling your career aspirations – some of the friends you make during your studies here will remain close for the rest of your life.

Work hard and have a great time!

A handwritten signature in black ink, appearing to read "Paul J Mitchell".

Dr Paul J Mitchell, Director of Studies, Postgraduate MSc in Drug Discovery

ABOUT THIS HANDBOOK

This Handbook is intended for all students commencing the MSc in Drug Discovery in the academic year 2018/19.

Please note that the contents of this Handbook are accurate at September 2018 but that information may sometimes be subject to change after this Handbook has been issued. Your Director of Studies or Unit Convenor will inform you of any changes that will affect your programme or a particular unit. For further information about unit and programme changes, see the **Unit and programme changes** section in this Handbook.

While this Handbook signposts information about **regulations for students**, it does not have regulatory status itself, and the Regulations available online (Regulations for Students: www.bath.ac.uk/publications/regulations-for-students and Assessment Regulations: www.bath.ac.uk/registry/nfa) are the most up-to-date and take precedence over the contents of this Handbook.

If in doubt about what applies to you, or if your circumstances change (for example if you are returning from a suspension of study, or transferring to a different programme) please contact your Director of Studies, Dr. Paul Mitchell, for advice.

YOUR PROGRAMME

KEY CONTACTS/STAFF LIST

The table below summarises the contact details of the primary teaching team of the MSc in Drug Discovery programme.

Name	Role	Tel. ext.	Room	Email prefix (@bath.ac.uk)
Dr. Paul Mitchell	Director of Studies	6917	5W 3.31	p.j.mitchell
Dr. James Taylor	Assistant Director of Studies	4533	1S 0.17	j.e.taylor
Dr. Stephen Flower	Convenor XX50228 and XX50229	4881	3S 1.02	s.e.flower
Prof. Mark Lindsay	Convenor XX50225	6783	5W 2.45	m.a.lindsay
Dr. Ian Eggleston	Convenor XX50226	3101	5W 3.8	i.eggleston
Dr. Julie Letchford	Convenor XX50227	6729	5W 2.24	j.a.letchford
Dr. Christine Edmead	Lecturer in Pharmacology	3575	7W 2.11	c.e.edmead
Prof. Stephen Husbands	Lecturer in Pharmaceutical Chemistry	3103	5W 3.18A	s.m.husbands
Dr. Matthew Grayson	Lecturer in Chemistry	4964	1S 1.25A	m.n.grayson
Miss Terri-Anne Weyman	Programme Administrator	4978	WH3.33	t.weyman

DEPARTMENTAL INFORMATION

Organisation

The Department of Pharmacy & Pharmacology is led by the Head of Department, currently Professor Steve Ward. The Head of Department directs all aspects of the Department, with operational input from a number of nominated role-holders and a number of advisory committees.

Communication

Email

Email is the method that staff will generally use to contact you and the method by which they prefer you to contact them. Your tutors and lecturers will use email to tell you about times for tutorials and meetings as well as any lectures or workshops which have to be rearranged at short notice. If you write or reply to an email from a member of staff **please ensure you sign your email with a standard signature available in Outlook that includes your first name and surname as well as your programme of study, Track type (Chemistry or Biology) and your student number.**

Your University email account is the only account that is used for communications. It is your responsibility to ensure that your email inbox does not become over full as this will prevent new emails reaching you.

Student pigeon-holes

Student pigeon-holes are located in 5 West Level 3 Foyer and are used by the department to ensure that University relevant paperwork gets to you. You should check your pigeon-hole regularly, so that it does not become over full; please do not use the Department's address for personal mail.

Moodle

Our virtual learning environment, Moodle, is used extensively to communicate with you. Information will be regularly provided at Department, Programme and Unit levels. We also have a virtual area for students, which contains year group virtual noticeboards. We no longer routinely use paper-and-pin noticeboards to communicate with students.

Department Office

The Postgraduate Taught administration office is located in Wessex House 3.33. Staff are available to help resolve your queries, accept coursework due for handing in, or distribute information etc. If you want to contact the Department and you don't know where to go or who to see, your first point of contact should be your Programme Administrator (see contact list above).

Intranet Websites

The University website provides you with lots of relevant information. You can find out your timetable from the website, your unit lecturer, syllabus details of the units you are taking, information on mitigating circumstances, etc. For many queries the main Bath University internal website is a great place to start from: www.bath.ac.uk/students

You will also find local programme-related information on the website for your programme of studies, which has links to our Department website and to Moodle: <http://www.bath.ac.uk/pharmacy> and www.bath.ac.uk/pharmacy/moodle

EXPECTATIONS

Attendance

It is a University Regulation that you attend regularly. If you are not able to do so, or will be absent for longer than three days due to ill health, then you must contact your Director of Studies to discuss your situation and an appropriate course of action.

Further information

See Regulation 3: www.bath.ac.uk/publications/regulations-for-students

Attendance at all taught sessions is compulsory. You are expected to attend all formal teaching sessions as scheduled on your timetable and attendance will be randomly checked by register. This includes attendance at practical classes, workshops, seminars and tutorials (attendance will most likely be recorded for these sessions).

If, due to illness, you are unable to participate in a practical class it is particularly important to let the Department know in advance if you can. We prepare equipment and consumables for experiments, which is costly and wasteful if you don't attend. Please email facscipgtadmin@bath.ac.uk to inform them of your absence, preferably before 10am.

You should also send an email of apology to the lecturer concerned with an explanation about why you are not able to attend.

Directed study

All unit descriptions include "private study" as part of the unit content. This gives an indication of the time that it is recommended you spend outside the formal teaching timetable on various aspects of the material covered in the unit. Each unit includes a significant proportion of private study, not including revision for assessments. Formal contact with academic staff will generally account for a little under half the time allocated to a unit, so private study should be seen as an important part of the unit overall and, in particular, your learning of the subject matter covered. The total study time including both contact with academic staff and private study should approximate 40h per week.

During the project phase in the summer this time may be exceeded depending on the demands of the project.

Depending on the unit involved, time may be required for:

- reviewing and consolidating lecture notes, both through checking the accuracy of the notes taken and by reading the recommended textbook chapters or other literature,
- analysis of experimental data and writing practical reports,
- preparing for laboratory, workshop or tutorial classes, for example by reading practical schedules in advance of a laboratory class or by working through given exercises in advance of a problem-solving workshop,
- reading literature and taking notes on topics related to but not formally covered in the unit, as directed in the unit booklet.

The main purpose of directed study is to enable you to obtain a deeper and more rounded understanding of the material taught in a given unit and to encourage you to integrate this material into the wider context of your degree programme.

Remember that any topics presented for you to cover in directed study form part of the unit content and as such may be examined in unit assessments.

DEPARTMENTAL INFORMATION AND SAFETY

Statement of Intent

A concern for health and safety is an integral part of the management of the Department of Pharmacy and Pharmacology. This policy statement indicates the organisation, arrangements, monitoring and remedial actions which will be used by the Department to implement the requirements of the University Safety Policy, and the local Department rules. The local rules are in addition to, and not a substitute for, the requirements of the general University Safety Policy. The Department will make available resources of both time and money, and arrange for training and instruction in safety matters, so far as is reasonably practicable, so that the Safety Policy can be implemented.

Department Safety Team

The person with overall responsibility for safety in the Department of Pharmacy and Pharmacology is the Head of Department, Professor Steve Ward, while in Chemistry the Head of Department is Dr Andrew Burrows.

Safety-related duties have been delegated to the following persons:

Role	Pharmacology (5 West)	Chemistry (1 & 3 South)
Safety Liaison Officer:	Dr Daniel Lou-Hing 5W 3.39	Mr Dev Agarwal 3S 0.04
Radiological/Laser Liaison Officer:	Mrs Deborah Robarts, WH 3.12	Mrs Deborah Robarts, WH 3.12
Chemical Liaison Officer:	Dr T Woodman, 5W 3.4	N/A
Microbiological Liaison Officer:	Mrs Deborah Robarts, WH 3.12	N/A
Electrical Safety Testing:	Mr Stephen Phillips, 5W 3.28	Mr David Elkins 3S 0.13
Appointed First Aiders:	Call Security, ext. 666 or Dr Daniel Lou-Hing 5W 3.39	Call Security, ext. 666 or Mr Josh Byers 3S 1.05

The Departmental Safety Team has been formed to help the Head of Department discharge the duties of implementing and monitoring the University Safety Policy. The Terms of Reference of the Team are as stated in Appendix 3.4 of the University Safety Manual. The Team meets at least three times a year. Compliance with the University Safety Policy will be monitored in accordance with procedures laid down in Section 3.4 of the Safety Manual. The Head of Department will arrange, in consultation with the Departmental Safety Team, for a group to inspect the area at least twice a year. The result of the inspection will be reported on a suitable pro forma, and target dates will be set for any remedial actions. The Head of Department will acknowledge completion of the remedial actions and a copy of the completed report will be sent to the University Safety Officer for record purposes.

General Department Safety

All members of the Department have a responsibility for safety. As a Department we have a wide range of activities which if not carried out properly could pose safety risks. Therefore it is important that everyone is safety conscious. The greatest potential risks are found with regard to fires, radiation hazards, microbiological/tissue culture hazards, pressure vessels, centrifuges, weighing toxic chemicals or drugs and electrical equipment. Our most common problems are minor cuts resulting from people opening ampoules, and needle stick incidents. Although we have safety procedures in place, designed to pre-empt problems, we do depend on everyone being alert to these risks and bringing to the attention of colleagues any safety matters they are concerned about.

If you have visitors in the Department you should be responsible for their general safety and evacuation in case of an emergency.

Visitors with mobility issues should inform their host prior to arrival of their needs or requirements as soon as possible.

If children are brought on to the campus they should be under constant supervision. Children should not be brought into the Department unless absolutely necessary. If they are in the Department they must not enter the laboratories.

Potential Asbestos Risk

In the original construction of much of the University, asbestos was used for insulation and cladding, and dust from this has been known to collect in roof spaces above ceiling tiles. Therefore, before lifting any ceiling tile, consult with your supervisors who must contact the Estates Department to determine whether asbestos is contained within the ceiling void. In addition the building support

columns have been clad in asbestos. This cladding must not be used as a notice board. Any damage to the cladding should be reported to the Department Superintendent immediately. In addition to these general points, the following procedures should be followed by everyone in practical classes.

LABORATORY SAFETY

While in the pharmacy and pharmacology laboratories you will carry out various experiments which if not performed properly could present a risk to yourself and to others working with you. If you see anything which gives you concern over safety please inform the person in charge of the class.

There are potential risks arising from the use of pressurised vessels, centrifuges, microbiological and tissue culture work, chemicals, drugs, needles, ampoules, gases, radiation sources, exposure to allergens and electrical equipment. Therefore, do not carry out any experiment unless you are fully aware of the correct procedures. If you are unsure, do not proceed without taking advice from the class supervisor. Do not attempt to repair faulty equipment.

If you have a health problem which could be affected by laboratory work you must inform the Department Safety Liaison Officer, Dr Daniel Lou-Hing 5W 3.39 (Pharmacology) or Mr Dev Agarwal 3S 0.04 (Chemistry) and the University Medical Officer in Quarry House.

When carrying out individual projects during the later stages of your course you and your supervisor(s) will need to make a *Risk Assessment* prior to any practical work being carried out. This may also involve filling out *Control Of Substances Hazardous To Health* (COSHH) forms.

Risk assessments have been made by members of staff on all of the standard practical classes you will be carrying out and the level of safety is considered to be adequate to comply with the COSHH regulations. Individual risk and COSHH assessments will be found in your practical notes.

When in the laboratories you must comply with the following rules:

1. Make yourself familiar with the location of fire extinguishers and fire alarms together with evacuation routes. On hearing a fire alarm, leave the building by the nearest safe route and assemble outside **Westwood residences** (**Assembly point 10, Fig 1**) which is the assembly point for 5West and 7West. The assembly point for the 1 South and 3 South labs is situated on the grass to the side of 1 South (**Assembly point #, Fig 2**).
2. Always wear laboratory coats when you are in the laboratory. If you are wearing protective gloves do not contaminate door handles and taps with hazardous materials. Do not wear open shoes (flip flops, sandals or crocs), or other clothing which would compromise your safety in the event of a safety incident. Open cuts/sores should be protected from infection/contamination.
3. Safety spectacles must be worn at all times in the laboratory, and protective gloves must be used when required.
4. Long hair or loose clothing should be tied back if naked flames or rotating equipment is being used.
5. Smoking, eating, drinking and the application of cosmetics are forbidden in the laboratories.
6. Pipetting by mouth is forbidden.
7. Do not attempt to re-sheath syringe needles; once used place directly in a sharps disposal bin.
8. Take special care when weighing out chemicals as this is the time when maximal exposure to toxic agents can be expected.
9. Do not bring personal bags, coats etc. into the laboratories.
10. Do not block emergency exits.
11. If you do have an accident, report it to the person in charge and fill out an **Incident Report Form**. This should then be returned to the Department Secretary.
12. Rinse out all glassware prior to sending it for washing up by the Laboratory Assistants. Do not return Pasteur Pipettes and needles for washing up; dispose of them in the **Sharps Bins** that are provided for this purpose.
13. Clear up any breakages and spillages and inform the person in charge of the class. When you have finished your work leave the laboratory in a clean state. It is particularly important to

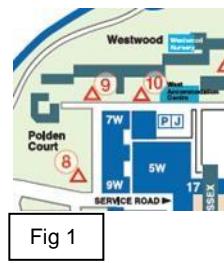

Fig 1

Fig 2

prevent flammable solvents being disposed of via sinks. Bottles should be rinsed out and the label defaced before being placed in the waste bins.

14. Ensure that all solvent bottles are returned to the storage cupboards when no longer required.
15. **Never** work in any laboratory alone.
16. If you notice something which you regard as a hazard, please inform the person in charge of the laboratory.

Public Liability insurance

The University has a public liability insurance policy to cover any claims brought by students or members of the public against the University where the University has been negligent. This policy does not, however, cover students who come to harm because of their own fault, or cause damage of their own volition.

Further information on the University's Insurance Policy covering placement students is provided on the following web link: www.bath.ac.uk/insurance-services/

Further Safety Information

Further safety information can be found on the back of laboratory doors, where key information is summarised. Additional information on the Department's health and safety policy can be found on the Pharmacy and Pharmacology Intranet, updates and latest procedures will also be posted there.

There you can also obtain information on:

- Decontamination of Biological waste
- Handling of Human Blood
- Storage and use of human material
- Taking human blood
- COSHH template
- Phenol Burns

PROGRAMME AIMS AND LEARNING OUTCOMES

The MSc is a 90 credit course with a taught component comprising 60 credits, split over two semesters, and a summer supervised research project of 30 credits.

The programme is designed to provide the student with a range of skills and expertise in drug discovery research. Students will graduate with a fully rounded knowledge of the drug discovery process, starting from the cellular processes that it is important to target, through the design and synthesis of new compounds, to the clinical development and regulatory approval of a medicine. It is aimed at graduates from a range of first degree backgrounds and will provide them with specific additional training in the fundamentals of chemistry, biology, and pharmacology relevant to drug discovery, according to their first degree background and career aspirations. This will provide students with the opportunity to enhance their knowledge and practical skills in an area of core science in which they may not have previously specialised, from which they will be able to gain an awareness of both the chemical and biological aspects of drug discovery, and apply them in practice.

As well as taught components on drug discovery science and core science training, the programme will include an embedded training in transferable skills for research, such as scientific writing and critical analysis of the scientific literature. Teaching will include lectures, workshops and small group tutorials, with contributions from industrial scientists and experts in regulatory affairs. This will prepare students to undertake an intensive individual research project based in either chemistry, biology, pharmacology, or pharmaceutical sciences, where they will be able to apply their knowledge, benefit from interactions with postdoctoral and PhD students, and develop their own ideas in drug discovery.

Students graduating from the programme will be ideally placed to either apply their research skills and knowledge of drug discovery in a career in the pharmaceutical industry, or to pursue a multidisciplinary PhD at the chemistry/biology interface.

Upon completion of the Programme of Study, the student will:

- be able to discuss the relevance of their research in the context of published work
- have acquired in-depth knowledge of how research in drug discovery adds to the body of knowledge
- have acquired in-depth knowledge of the chemical and biological aspects of drug discovery and how they can be exploited and managed
- have acquired the ability to formulate a research proposal and write a critical review of research related to their principal area of research
- have an understanding of the requirements of data storage for the purposes of publication and IP applications
- have demonstrated the ability to produce a research dissertation in the form of a publication related to their principal area of research

PROGRAMME DESCRIPTION: STRUCTURE OF THE PROGRAMME

Please note that the content of the programme description below is correct at the time of production of this Handbook and that programmes and units may be subject to reasonable change (see **Unit and Programme Changes** below).

Current versions of unit and programme descriptions are available via the online Unit and Programme Catalogues: www.bath.ac.uk/catalogues

Programme code	TSXX-AFM03
Programme title	MSc Drug Discovery
Award type	Master of Science
Award title	Master of Science in Drug Discovery
Mode of Attendance	Full time
Length	1 Year
State any designated alternative programme(s)	TSXX-AFL03: PG Dip Drug Discovery TSXX-AFC03: PG Cert Drug Discovery
Approving body and date of approval	

YEAR 1: MSc Drug Discovery (for implementation with effect from 2018/19)									
Part	Stage	Normal period of study for this Mode	Unit code	Unit title	Unit status	Credits	DEU status	SRU status	Taught, or Dissertation/project credits
4	T	All Year	XX50225	Techniques in Drug Discovery	Compulsory Unit	18			TSC
4	T	All Year	XX50226	Preparation for research project	Compulsory Unit	12			TSC
4	T	All Year	XX50227	Track A - Biology for Chemists	Select one of the following 2 units:	18			TSC
4	T	All Year	XX50228	Track B - Chemistry for Biologists	Select one of the following 2 units:	18			TSC
4	P	Dissertation	XX50230	Research Project	Compulsory Unit	30			DPC
4	T	Semester 2	XX50229	Synthesis of Medicinal Compounds	Select a minimum of 1 and a maximum of 2 from the list:	6			TSC
4	T	Semester 2	MN50578	Opportunity generation, assessment and development	Students can select a minimum of 0 and a maximum of 1:	6			TSC
4	T	Semester 2	MN50580	Technology-based entrepreneurship	Students can select a minimum of 0 and a maximum of 1:	6			TSC
4	T	Semester 2	PA40155	Research topics in natural products	Select a minimum of 1 and a maximum of 2 from the list:	6			TSC
4	T	Semester 2	PA40162	Drug targets in the immune system	Select a minimum of 1 and a maximum of 2 from the list:	6			TSC
4	T	Semester 2	PA40157	The molecular biology and treatment of cancer	Select a minimum of 1 and a maximum of 2 from the list:	6			TSC
4	T	Semester 2	ZZ00001	Director of Studies approved unit	Select a minimum of 1 and a maximum of 2 from the list:	6			TSC

Definitions of assessment terms: www.bath.ac.uk/registry/nfa/nfaar-pgt-appendix-02.pdf

UNIT AND PROGRAMME CATALOGUES

This is where you will find details about all individual units for the current academic year:
www.bath.ac.uk/catalogues

The Catalogues also provide links to the University's assessment regulations, showing how these are applied to programmes of study.

TIMETABLES

Programme and unit timetable information can be found online at: www.bath.ac.uk/timetable

You can also use MyTimetable to create a customised programme timetable that can be downloaded into an electronic calendar: www.bath.ac.uk/timetable/MyTimetable

Students are generally notified of any changes to the timetable by email (either from the central timetabling team, the Director of Studies or the lecturer concerned, as appropriate) or through MOODLE. However it is each student's responsibility to ensure that they are aware of all formal teaching sessions that they should attend.

Consequently, all students should develop the habit of checking their 'MyTimetable' record of their formal teaching sessions on a weekly basis.

OPTION CHOICES

Information about how and when to choose your option units can be found at:
www.bath.ac.uk/catalogues/information/students/online-unit-selection

You will receive an email notification at the relevant point in the year when online unit selection is available. If you want to discuss your option choices, please contact your Director of Studies who will discuss this with you during Welcome Week.

SUBMISSION DEADLINES

There are a variety of coursework submissions throughout each unit, the submission date for each will be mutually agreed between the lecturer and students at the appropriate time.

Generally coursework submissions will be electronically through Moodle or hard copy directly to the lecturer or programme administrator as appropriate.

MARKING CRITERIA

All units have marking schemes that have been evaluated by external examiners.

Masters Research project consists of three components, a mark for the written report, a mark for viva performance and a mark for laboratory performance and safety from the supervisor.

SUPPORT STRUCTURES

There is an induction morning scheduled on your Programme timetable during Week One of the first Semester, which will cover a number of administrative and supportive topics.

RESEARCH ETHICS

For information on Research Integrity and Ethics, and the steps we take to ensure our research meets the highest ethical standards, please visit the University's Ethics web page at:
<https://www.bath.ac.uk/topics/research-integrity-and-ethics/>

FURTHER STUDY

Following the completion of your MSc, you will be well placed for applying for a postgraduate research position in a similar field.

You can make an appointment to talk to our Faculty Careers Advisor, Saiyada Fazal, through the careers website: <https://myfuture.bath.ac.uk/>

UNIT AND PROGRAMME CHANGES

We continually look for ways to develop and improve our programmes. For example:

- it might be desirable to make some updates to the content of the curriculum to reflect the latest developments in a particular field of study
- a review of the assessments across a programme (including feedback received) might identify that changes to an assessment would better support student learning.

Students who would be affected by proposed changes are consulted about them, either via their Staff/Student Liaison Committee or directly, depending on the nature of the change.

In addition, it is sometimes necessary to make changes due to unforeseen or unavoidable circumstances. For example:

- the accrediting body for a programme may require changes to be made to it
- it may not be possible to run a particular unit because a member of teaching staff with specialist expertise leaves the University and we are unable to find a suitable replacement
- it may not be viable to run a particular optional unit in a given year because very few students select it.

In such cases, the University will always try to ensure that any impact on students is minimised and that students are informed of the changes at the earliest opportunity.

All programme and unit changes are managed through a formal process set out by the University. The aim of this is to ensure that changes are academically appropriate and properly supported, take place in a timely manner, and safeguard the interests of students.

HOW YOUR PROGRAMME IS REVIEWED AND MONITORED

The University has in place a number of ways to ensure that programmes remain up-to-date, issues are dealt with and improvements made.

All programmes and units are monitored annually, looking at evidence for what is working well and identifying any actions that need to be taken. Taking account of student feedback, including feedback given through unit evaluation and other student surveys, is a key part of unit and programme monitoring.

Departments also conduct periodic reviews of their programmes. These provide an opportunity for in-depth review and development, involving input from students and from an adviser(s) external to the University.

STUDY AND SUPPORT: GETTING THE MOST OUT OF YOUR STUDIES

ACCESSING UNIVERSITY EMAIL

You will need to use your University username and password to access your University email account. You are able to access your email by going to <http://mail.bath.ac.uk>. Your username also forms your email address (username@bath.ac.uk).

The University will often communicate with you about a range of important matters requiring action from you, including registration, unit enrolment, assessment, degree ceremonies, and matters such as tuition fees, via your University email account. It is a University requirement (Regulation 1.3) that you access your University email account regularly, even if you are out on placement or study abroad.

You therefore have a responsibility to ensure that your University email account can receive incoming mail and that you read your email regularly.

Once you graduate or withdraw from your course, you will receive an email stating exactly when your account will be closed. The email will give at least 30 days' notice.

Further information

Email guidance: www.bath.ac.uk/guides/accessing-your-university-email-and-calendar

Regulation 1.3: www.bath.ac.uk/publications/regulations-for-students

YOUR STUDENT RECORD: SAMIS

SAMIS is the University's student records database. It provides an online portal where you can view details about your registration, update your contact details, and do other things such as viewing exam information, viewing your confirmed assessment results, and (where applicable) choosing optional units.

Further information

<https://samis.bath.ac.uk>

MOODLE

Moodle is the Virtual Learning Environment (VLE) used at the University of Bath. It is used by academic Departments to support learning and teaching at programme and unit level. It provides a platform for the delivery of resources and online activities, and can also support student interaction and collaboration.

You can use the link below, or the QR code here, to get to the Moodle page.

Further information

<https://moodle.bath.ac.uk/course/view.php?id=58307>

PERSONAL TUTORING

When you join the University, you will be assigned a Personal Tutor who will help you to get the best out of your university experience. Your Personal Tutor will:

- support you in your academic progress and personal development
- discuss with you programme choices, placement opportunities and future career plans
- provide you with a reference for your placement or career
- guide you to sources of expert help with any personal/welfare issues.

Your Personal Tutor should arrange to meet with you on at least three occasions in your first semester and at least once per semester thereafter. This enables you both to get to know each other, such that you can raise any issues with your tutor and your tutor can support you fully through your programme. It is important that you attend scheduled meetings with your Personal Tutor and let them know in advance if you cannot attend. Many of these meetings may be in small groups but you can also request a one-to-one meeting.

If you should have reason to wish to change your Personal Tutor, please contact your Director of Studies to discuss the matter.

LANGUAGE AND ACADEMIC SKILLS SUPPORT AND DEVELOPMENT

To help you get the best out of your studies and your future employability, we offer all our students a comprehensive range of free, year-round skills and personal development opportunities designed to complement your academic programme.

These opportunities have been designed to give you choice and flexibility to help you get the support and development you need at the time you most need it.

To develop your academic skills, you can choose from classes, tutorials, drop-in sessions, workshops and online resources, for example:

- create well-written, clearly structured essays, reports and dissertations
- think critically in order to enhance your writing
- manage information sources and literature effectively
- give polished and effective academic presentations
- manage and analyse numbers, data and statistics
- use IT tools and resources effectively
- enhance your existing language proficiency, or learn a new language.

There are many opportunities available to you through our Careers Service and Students' Union to help you develop your skills and prepare for the workplace. For example:

- writing an effective job application and CV
- succeeding at interview or assessment centre
- leading and managing projects
- chairing meetings
- running a club or society.

Further information

Find out more about the skills support and development opportunities available here:

<http://go.bath.ac.uk/skills>

RECOGNITION FOR EXTRA-CURRICULAR ACTIVITIES: THE BATH AWARD

The Bath Award is open to all undergraduate and postgraduate students. It recognises the experiences, skills and strengths you have gained through participation in extra-curricular activities, volunteering, work experience, part-time work, global opportunities and more. The Award enables you to reflect on your personal development as a student and future employee. Completing the Award will enhance your employability, increase self-awareness of your skills and enable you to articulate these effectively to future employers.

thesubath.com/bathaward

THE LIBRARY

The Library is open 24 hours a day, all year round and provides print and electronic materials and information services to support study and research across the University. It houses over 520 PCs, wireless networking throughout, and provides areas for both quiet individual study and group work. Alongside 360,000 printed books, it offers over 26,000 electronic journals, 440,000 electronic books, 90 databases for information, literature and data searching, and digital versions of the University's academic publications, all available across the University and beyond. The Library's copy and print service includes black and white and colour photocopying, laser printing and scanning.

Information specialists, our Subject, School and Faculty Librarians (see the Department's library resources page below), are responsible for services to individual Departments/the School. They provide individual help to students and staff, as well as teaching information skills in Department and School programmes and through general University skills provision. All new students receive library introduction sessions during the induction period.

Further information

This Department's library resources page is:

<http://www.bath.ac.uk/library/subjects/pharmacy/index.html>

For information on all library services and resources: www.bath.ac.uk/library

COMPUTING SERVICES AND FACILITIES

Using your University username and password, you will be able connect to University computers, University email, the internet, file storage and printing. You will also be able to get access to a range of free software, including Office 365 and antivirus. You can also work from any location using our UniDesk and UniApps service, which gives you access to your files as if you were on campus.

If you'd like to know more about these services and how to access them, visit <http://go.bath.ac.uk/it-new-students>

IT Support is available from the IT Service Desk on Level 2 of the Library or online at:
<http://go.bath.ac.uk/it-help-form>

If you require learning assistance, Computing Services can support you with your computing needs. The Assistive Technology Team is available to provide advice and support. Additional resources are available, which include the Assistive Technology room, specialist software and computer hardware - including laptops for loan.

The IT shop in the Library stocks popular products such as academic software, DVDs, network cables and headsets. You can order many further IT products through the shop. Prices are often lower than in high street shops.

You can also borrow technology from the Service Desk in support of your studies, for example audio recorders, video cameras and projectors.

Computing Services Twitter feed: [@UniofBathIT](https://twitter.com/UniofBathIT)

RECORDING OF LECTURES

'Lecture capture' technology is widely used on campus to record lectures. Lecturers on your units will inform you if lectures will be recorded and the recordings made available for you to view again online. Where provided, lecture recordings are made available as an additional resource for personal study and revision purposes, and you can pause and rewind recordings when you re-watch them. The University cannot guarantee recordings (for example in the event of a technical fault) and recordings are not made available indefinitely.

As set out in Ordinance 22.4, students are not permitted to copy or redistribute lecture recordings, or to make their own recordings of lectures. However, the University may permit students with a disability to record lectures where this is a reasonable adjustment under the provisions of the Equality Act, in order to give these students equal access to educational opportunities. In such circumstances the lecturer will be informed that the lecture is being recorded and the student may use the recording for their own personal study purposes only. Students with a disability should contact the Disability Service for further advice.

Ordinance 22: www.bath.ac.uk/corporate-information/ordinances

Disability Service: www.bath.ac.uk/groups/disability-service

STUDENT REPRESENTATION

Feeding back your views to the University

The University is committed to reviewing and continually improving its practice. The main ways in which we seek feedback are through:

- Staff / Student Liaison Committees (SSLCs)
- surveys
- The SU (Students' Union).

We also use focus groups, Departmental working parties, and various kinds of feedback session.

You can get actively involved in determining how your educational and student experiences are organised by becoming active in The SU or by letting your Department know that you are interested in contributing.

Every Department has a formal system so that all students can comment routinely, in confidence and anonymously on the learning experience they have received. Such comments help us to check that:

- you have a clear idea of the aims and requirements of each unit you study
- our teaching is effective and stimulating
- the advice and feedback we provide on your work is helpful
- our resources are suitable.

You will be asked to complete a short online unit evaluation for units you have studied. You will also be asked to complete surveys periodically on your experience of the programme as a whole. Please complete each evaluation fully, thoughtfully, and candidly. In particular, please tell us not only your opinion but also the *reasons* behind your opinion.

When we receive responses to evaluations, we analyse them – especially the positive suggestions for change and concerns that are voiced. Student feedback and the resulting actions are taken into consideration in annual monitoring of units and programmes. Survey results are discussed at committees where student representatives have the opportunity to input to any action plans developed in response to the issues raised.

Your feedback is important to both the University and The SU. Please keep telling us what is going well and what needs to get better. We will communicate how feedback on units and programmes, and the wider student experience, has been acted upon.

Student representatives

As a student of the University you are automatically a member of The SU (although you have a right to opt out - see section below on **Students' Union membership**). Officers of The SU represent students' interests on University decision-making bodies. In addition, numerous elected student representatives play important roles on various Departmental, Faculty/School and University committees. All student representatives are elected through online elections facilitated by The SU.

There are many opportunities for elected student representatives. If you are elected to serve on Departmental, Faculty/School or University committees you will be expected to represent the views of your fellow students and provide feedback following meetings.

Student representation on Committees

Departmental level:	<p>Each Department has at least one Departmental Staff / Student Liaison Committee (SSLC). These comprise several elected student members, known as Academic Reps, and an equal or smaller number of staff members. Academic Reps are elected at the beginning of every year through online elections. Their role involves collecting the views of the students on their programme and attending SSLCs where they represent these views to their Department.</p> <p>The SU and the Centre for Learning & Teaching receive minutes of SSLC meetings in order to gain an overview of key themes explored, good practice identified and actions taken. This information helps to inform student engagement activity and summary reports prepared by The SU for the University.</p> <p>There is also provision for student membership of the Department Learning, Teaching and Quality Committee: normally one undergraduate and one postgraduate (taught) representative.</p> <p>Academic Reps attend SU Academic Council meetings. These take place regularly during semester time in order to:</p> <ul style="list-style-type: none">• keep SU Officers and fellow Academic Reps informed of academic developments throughout the University• discuss common problems and interests affecting Departments• gather student opinions and views to be used by the University and The SU• update Academic Reps on key issues. <p>Do feel free to approach your student Academic Reps at any time to inform them of good practice or areas for enhancement in your units and programme. This is normally the person who represents your year or degree scheme on the Departmental SSLC.</p>
Faculty/ School level:	Student representatives are also elected as Faculty Reps to sit on a number of Faculty/School level committees such as the Faculty/School Board of Studies and the Faculty/School Learning, Teaching and Quality Committee. Faculty Reps are also members of The SU Academic Exec Committee.
University level:	University committees with student representation include the Council/Senate/Students' Union, the University Learning, Teaching and Quality Committee, the Programmes and Partnerships Approval Committee, and Senate.

If you are interested in opportunities to represent student views, please contact The SU: academicreps@bath.ac.uk

The SU runs a full training programme for student representatives including an online course in Moodle, a conference and additional sessions through the Skills Training programme.

If you need to raise a concern, remember there are various routes open to you. You can discuss issues directly with a lecturer, your Personal Tutor, or the Director of Studies. Individual problems are often more readily resolved in this way. The SU Advice and Support Service, described below, also provides students with information and confidential advice.

Further information

Your SSLC: TBC

SU Academic Representation including contact details for Academic Reps:

thesubath.com/academicreps

Election of Academic Reps: thesubath.com/elections

SU Skills Training programme: thesubath.com/skills-training

Outline election procedures are included in QA48 Student Engagement with Quality Assurance and Enhancement, Annex A: Staff/Student Liaison Committees:

www.bath.ac.uk/quality/documents/QA48_Annex_A.pdf

STUDENTS' UNION MEMBERSHIP

All students registered with the University are automatically given membership of The SU. However, you have the right not to be a member. For further information on opting out of this membership, please go to the Code of Practice for The SU:

www.bath.ac.uk/corporate-information/code-of-practice-for-the-students-union-su

STUDENT SUPPORT

Most students find there are occasions when it can help to talk to someone about a personal problem or issue. In many cases your Personal Tutor, Director of Studies, or Wellbeing Adviser (see the **Wellbeing Service** section below) will be able to help. However, sometimes more specialist help is needed. The University has a range of professional support services that you can approach directly. Your two main contact points are Student Services at the Roper Centre in 4 West and the Advice and Support Service in the Students' Union.

Student Services

Student Services can provide advice and support on a range of issues including:

- counselling and mental health
- disability issues
- money and funding
- wellbeing and welfare.

You can make an individual appointment or just pop in to our daily drop-in sessions.

Student Services can also provide letters confirming student status for a variety of purposes, which can be requested by logging on to SAMIS: <https://samis.bath.ac.uk>

The Roper Student Services Centre in 4 West is open from 9.30am to 4.30pm throughout the year (tel: 01225 383838). Services are also available from the Virgil Building in Bath city centre.

For the full range of Student Services, see: <http://go.bath.ac.uk/student-services> or email: studentservices@bath.ac.uk

The Students' Union Advice and Support Service

The Students' Union Advice and Support Service can guide and support you with any problems you may have during your time at Bath. Their professional advisers offer confidential and non-judgemental information, advice and support, and are fully trained to give assistance and empower you to find the best resolution for your issue.

They can advise on a range of topics affecting your education and welfare. They provide academic advice for students wanting to submit Individual Mitigating Circumstances claims (see the section in this Handbook on **Assessment**), support for academic appeals, changing course, placements and more.

The Advice and Support Service can also support students with their housing situations. They can advise students on landlord issues, council tax, contract checking and more. They also offer support with personal issues such as harassment and stress, and offer cost-price condoms and free pregnancy tests.

The Students' Union Advice and Support Service is open Monday to Friday 9.00am to 5.00pm in term time (from 10.00am on Fridays) and 10.00am to 4.00pm during vacations (tel: 01225 386906, email: suadvice@bath.ac.uk)

The Advice and Support Service also supports the Diversity and Support groups – details of which can be found at: thesubath.com/diversity-support

The Students' Union webpage provides the facility for students to report incidents of harassment, discrimination or bullying. Incidents can be reported anonymously if preferred. Details of how to report an incident are available at: thesubath.com/report-an-incident

For the full range of services see: thesubath.com/advice

Further information

A guide to the wide variety of support and information available to students can be found at: www.bath.ac.uk/students and the Students' Union website: thesubath.com

Wellbeing Service

The University's professionally qualified Wellbeing Advisers provide a welfare and wellbeing service to all our students. You can talk to a Wellbeing Adviser about anything and we are also available evenings and weekends.

We hold daily drop-in sessions on campus, including weekends and University vacations. Drop-in sessions are also held at the Virgil Building in Bath city centre and we run activities during vacations for students who remain in Bath.

Further information

www.bath.ac.uk/groups/wellbeing-service

ADVICE FOR INTERNATIONAL STUDENTS

The Student Immigration Service provides immigration advice and support for all international students, including a 'check and send' service if you need to send a Tier 4 visa application to the Home Office. The Service offers workshops, a daily drop-in service, advice via email, phone and web-based platforms, or individual appointments can be made through the Helpdesk in The Roper Student Services Centre, 4 West.

Further information

www.bath.ac.uk/topics/visas

Student Services organise University-wide induction and welcome events in September. Events are also organised for incoming exchange students in the first week of each semester.

Further information

www.bath.ac.uk/campaigns/studying-at-bath-as-an-erasmus-exchange-or-visiting-student

For students who join outside of the standard semester dates, induction and welcome events are organised by the relevant Department.

DEALING WITH A PROBLEM INVOLVING THE UNIVERSITY

We want to ensure that, if you have a problem concerning the University, it is resolved as quickly as possible. As described above, there are student representatives on all formal decision-making committees – at Departmental, Faculty/School and University level. Student representatives help to anticipate potential problems and, when problems occur, to raise them so that they can be dealt with promptly. As a result we can often resolve problems *before* they get to the stage where a formal complaint might be necessary.

The Students' Union offers advice for students on a range of issues through its Advice and Support Service. Its advice is independent of the University. See the section above on **Student Support**.

Complaints

If you do need to make a complaint, there are procedures in place to deal with it, outlined in the University's Student Complaints Procedure (see below).

These procedures are designed to ensure that your complaint will be dealt with in good faith and that you will not be penalised for complaining. When we receive a complaint, we will first seek to deal with it through informal discussion. If this fails to resolve the issue at hand, you can raise the complaint formally.

There are separate procedures for requesting a review of progression or award classification decisions. See the section in this Handbook on **Procedures for Academic Appeals**.

Further information

Student Complaints: www.bath.ac.uk/guides/student-complaints-procedure

Bullying, harassment and victimisation

All our students and employees are entitled to be treated with dignity and respect and to be free from unlawful discrimination, victimisation, bullying, or any form of harassment. This is set out in the University's policy, *Dignity and Respect for Students and Staff of the University of Bath: Policy and Procedure for Dealing with Complaints*. This policy and procedure applies to all staff, students and third parties (e.g. contractors to the University).

Further information

www.bath.ac.uk/equalities

See also the section in this Handbook on **Student Support** for information on reporting incidents of bullying or harassment.

Mediation

If you are involved in a disagreement or dispute, you can seek help from the University's Mediation Service. This service is impartial, non-judgemental, and confidential. Requests for mediation support should in the first instance be made to the Mediation Service Manager.

Further information and contacts

Mediation Service: www.bath.ac.uk/guides/mediation

Mediation Service Manager: 01225 383098 or equalsdiv@bath.ac.uk

ADVICE FOR STUDENTS WITH DISABILITIES, LONG-TERM ILLNESS, AND SPECIFIC LEARNING DIFFICULTIES

If you have a disability and/or specific learning difficulty (such as dyslexia), we strongly advise you to speak to the Disability Service team, your Personal Tutor or Director of Studies as soon as possible and preferably before your programme begins. Referral to the Disability Service will enable us to assess your needs and make arrangements to support you.

Any personal information you give when disclosing your disability will be treated in confidence and made available *only* to relevant members of staff and only *with your permission*. If you don't disclose your disability it may be difficult for the University to provide suitable support to help you during your studies. Disclosure will not disadvantage you in any way.

The Disability Service provides advice, guidance, information and support for a range of needs including:

- Autism Spectrum Disorders/Asperger's Syndrome
- dyslexia and other specific learning difficulties
- mental health
- mobility impairments
- sensory impairments
- health conditions such as epilepsy, HIV, diabetes or chronic fatigue.

A screening process is available if you think you may have a specific learning difficulty/dyslexia.

Disability Advisers are also responsible for making applications for alternative arrangements for exams and assessments. Therefore, if you think that, because of a disability, you need alternative exam arrangements (such as extra time or the use of a computer) please discuss this with a Disability Adviser without delay.

Further information

www.bath.ac.uk/groups/disability-service

PREGNANCY AND MATERNITY

The University is committed to being as flexible as possible in supporting students who become pregnant, decide to terminate a pregnancy or have a very young child. You can seek advice, guidance and support via your Director of Studies, Personal Tutor and the University's Student Services. This will enable us to put in place arrangements that will assist you in undertaking your programme of study.

If you anticipate that you will need an absence from the University, talk to your department. They will offer you an appointment to discuss your options for continuing your studies and how the University can support you.

Further information

www.bath.ac.uk/guides/getting-advice-if-you-are-pregnant-while-studying-or-have-a-young-child

CARE-LEAVERS, ESTRANGED STUDENTS, REFUGEES AND YOUNG ADULT CARERS

The University is committed to supporting students from a wide range of backgrounds and circumstances including those who are care leavers, from a Foyer or are estranged from their family. We are aware of the challenges students may face when starting university and we want you to get the best out of your programme and university experience. We are able to offer you advice and guidance about settling in, academic studies, funding, accommodation, wellbeing and careers. The service we provide is confidential and entirely optional in relation to the level of support you feel that you may need.

Further information

www.bath.ac.uk/guides/additional-support-and-funding-for-care-leavers-foyer-residents-and-estranged-students

www.bath.ac.uk/guides/financial-support-for-refugees

www.bath.ac.uk/guides/students-with-caring-responsibilities

EQUALITY, DIVERSITY AND INCLUSION

Everyone at the University of Bath has a responsibility for promoting equality and fostering good relations between all members of the community, students and staff, and also for eliminating unlawful discrimination, harassment and victimisation against anyone for reasons of age, disability, gender, pregnancy and maternity, race (this means colour, nationality including citizenship, ethnic or national origins), religion or belief, sexual orientation, or transgender status. The new equality duty also covers marriage and civil partnership with regards to eliminating discrimination in employment.

Further information

There is a range of information and resources available at www.bath.ac.uk/equalities or email: equalsdiv@bath.ac.uk

Accessibility

An access guide is available which outlines the disabled access features and route plans at the University of Bath:

www.disabledgo.com/organisations/university-of-bath/main-2

CAREERS SERVICE

The University Careers Service can support you through the career planning process, whatever your career aspirations. In addition to providing support with developing your employability, and guidance on how to make informed career decisions, Careers Advisers can help you by providing feedback on your CV and applications, and your interview technique. The Careers Service also provides a wealth of careers information, and access to resources such as online aptitude tests. Being in regular contact with several hundred major employers, the Careers Service is also a fantastic source for graduate job vacancies for Bath students, as well as the organiser of several major careers fairs each year.

Further information

The Careers Service is open throughout the year, including the vacations.

Check the web site for opening times: www.bath.ac.uk/students/careers

The web site includes the *Myfuture* vacancies portal.

Contact careers@bath.ac.uk or 01225 386009 or follow the Careers Service on Twitter @CareersatBath or Facebook (search for BathUniCareers).

ASSESSMENT

FEEDBACK TO STUDENTS ON ASSESSMENT

During your programme, you will receive feedback on assessed work. Feedback on assessments may take different forms, depending on your subject and the type of assessment. You will be informed of the timing and nature of the feedback you will receive on each assessment, including whether the piece of work itself will be returned to you. For formal written examinations, students may receive general feedback to the group rather than individual feedback. You can discuss feedback you receive on assessments alongside your performance and progress in your studies at meetings with your Personal Tutor.

ACADEMIC INTEGRITY: REFERENCING AND PLAGIARISM

Plagiarism is the use of any published or unpublished work without proper acknowledgement in your references. Plagiarism occurs when a student 'borrows' or copies information, data, or results from an unacknowledged source, without quotation marks or any indication that the presenter is not the original author or researcher.

Another form of plagiarism (and hence cheating) is auto-plagiarism or self-plagiarism. This occurs when a student submits work (whether a whole piece or part of a piece) without acknowledging that they have used this material for a previous assessment.

If you use someone else's work – say, by summarising it or quoting from it – you must reference the original author. This applies to all types of material: not only text, but also diagrams, maps, tables, charts, and so on. Be sure to use quotation marks when quoting from any source (whether original or secondary). Fully reference not only quotations, but also paraphrases and summaries. Such references should then be included in a bibliography or reference list at the end of the piece of work. Note that the need for referencing also applies to web-based material; appropriate references according to the type of work or image should always be given.

There are several acceptable styles for referencing material, within two general systems: Name/date (e.g. Harvard) and Numeric. **Ask your Director of Studies or Personal Tutor for further information and advice on the referencing style used on your programme.**

Guidance on referencing and plagiarism is available through skills training run by the University and the Students' Union, as well as online resources. Information guides and style sheets are available from the Library, and your Subject Librarian will be able to help with any questions.

Further information

For a range of skills and development opportunities see: <http://go.bath.ac.uk/skills>
Library referencing resources, including style sheets: www.bath.ac.uk/library/infoskills/referencing-plagiarism
Students' Union Skills Training: thesubath.com/skills-training

IMPORTANT: ACADEMIC INTEGRITY: TRAINING AND TEST

As a student registered on a University of Bath award, you are required to undertake the academic integrity training and pass the associated test.

The academic integrity training aims to provide all students with a basic knowledge and understanding of good academic practice. This includes an understanding of plagiarism and other assessment offences, and skills necessary to reference your work appropriately.

The training and test are accessed from Moodle by clicking on the link entitled '**Academic Integrity Initiative**': <https://moodle.bath.ac.uk/enrol/index.php?id=53999>

If you have any access problems, then please contact facscipgtadmin@bath.ac.uk in the first instance.

When you have completed the training tutorial and are confident that you have understood it, you should undertake the test.

To pass the test you will need to achieve a mark of 85%. You can take the test as many times as necessary until you pass.

If you do not pass the test, you will need to re-visit the training and/or look at the other guidance available to you or as required by your Director of Studies, and then take the test again.

You will not be able to progress beyond the next progression point in your studies, irrespective of your programme marks, until you pass this test. For the purpose of the MSc in Drug Discovery, this means that you will NOT be able to progress to your project phase if you have not completed the Academic Integrity Test. Ultimately this means that, if you have not passed the test, you will not be able to receive your award. Intermittently throughout semesters one and two, you will be reminded to complete the test if you have not already done so.

Further information

Academic and information skills:

www.bath.ac.uk/library/infoskills

www.bath.ac.uk/professional-services/academic-skills-programme-asp

Regulation 3.7: www.bath.ac.uk/publications/regulations-for-students

Plagiarism detection and personal data

When you hand in a piece of assessed coursework, you will be expected to make a declaration that the work is your own and, where you have re-used your own work and/or used other sources of information, that you have referenced the material appropriately.

The University uses the Plagiarism Detection Service, Turnitin. This service checks electronic, text-based submissions against a large database of material from other sources and, for each submission, produces an 'originality report'. It makes no judgement on the intention behind the inclusion of unoriginal work; it simply highlights its presence and links to the original source.

Turnitin complies with the European General Data Protection Regulation (Regulation (EU) 2016/679) (GDPR). When you registered with the University, you gave it permission to process your personal data for a variety of legitimate purposes. This includes allowing the University to disclose such data to third parties for purposes relating to your studies. The University, at its sole discretion, may submit the work of any student to the Plagiarism Detection Service (in accordance with Regulation 15.3e – see below) and may make, or authorise third parties to make, copies of any such work for the purposes of:

- i) assessment of the work
- ii) comparison with databases of earlier work or previously available works to confirm the work is original
- iii) addition to databases of works used to ensure that future works submitted at this institution and others do not contain content from the work submitted.

The University will not make any more copies of your work than are necessary, and will only retain these for so long as remains necessary, for these purposes.

Please note that, if at any time the University submits any of your work to the Plagiarism Detection Service, the service will be provided with, and will retain, certain personal data relating to you – for example, your name, email address, programme details and the work submitted. Such data may be transferred by the Plagiarism Detection Service to countries worldwide (some of which may not be governed by EU data legislation) in order for the work to be checked and an originality report generated in accordance with the proper workings of the Plagiarism Detection Service. Personal data is retained indefinitely by the Plagiarism Detection Service upon submission of work. You may ask for your personal data to be removed by contacting the University's Data Protection Officer.

Further information

The University's procedures on Examination and Assessment Offences (QA53) are described at: www.bath.ac.uk/quality/documents/QA53.pdf

Regulation 15, Assessment of undergraduate and taught postgraduate programmes: www.bath.ac.uk/publications/regulations-for-students

University's Data Protection Officer: dataprotection-queries@lists.bath.ac.uk

Further information on Turnitin:

https://guides.turnitin.com/Privacy_and_Security#EU_Data_Protection_Compliance

ACADEMIC INTEGRITY: PENALTIES

Any student who is found to have used unfair means in an examination or assessment procedure will be penalised. 'Unfair means' here include:

- cheating - for example, unauthorised use of notes or course material in an examination
- fabrication - for example, reporting on experiments that were never performed
- falsification - for example, misrepresentation of the results of experimentation
- plagiarism, including self-plagiarism (see above)
- unfair collaboration or collusion - representation of work produced in collaboration with another person or persons as the work of a single candidate.

The University's Quality Assurance Code of Practice, QA53 Examination and Assessment Offences, sets out the consequences of committing an offence and the penalties that might be applied.

Penalties for unfair practice will be determined by the Department or by the Faculty/School Board of Studies in line with the procedures set out in QA53. They may include failure of the assessment unit or part of a degree, with no provision for reassessment or retrieval of that failure. Proven cases of plagiarism or cheating can also lead to an Inquiry Hearing or disciplinary proceedings. Claims of inadvertence or ignorance will not be accepted as a basis for mitigation of a penalty.

If you are accused of an offence, the Students' Union's welfare services are available to support you. You have the right to appeal against the outcome of the investigation.

Further information

Examination and assessment offences: www.bath.ac.uk/quality/documents/QA53.pdf

Appealing a decision about an assessment offence:

www.bath.ac.uk/guides/appeal-against-a-decision-about-an-assessment-offence

Students' Union advice and support: thesubath.com/advice

WORD COUNTS

Written coursework tasks will normally have a word range or limit. This is in order to give an indication of the depth and detail of work required, and to ensure that students' submitted work is comparable. You will be required to declare the word count for your work when submitting it for assessment.

If you do not observe the given word range or limit for the coursework task, for example if you exceed the word limit, then a penalty will be applied. The penalty that would apply should be stated in writing when the assignment task is distributed. You should take note of what is included when calculating the total word count (e.g. whether or not contents pages, appendices, footnotes, bibliographies and other elements that are not part of the main text are included).

You should check with your Director of Studies if you have questions about word counts and penalties.

LATE SUBMISSION OF COURSEWORK

You will be expected to hand in all assessed coursework and dissertations/projects by a specified date and time. This is to ensure fairness to all students who are submitting work.

If there are valid circumstances preventing you from meeting a deadline, your Director of Studies may grant you an extension to the specified submission date. Forms to request an extension are available from your Department. You will need to provide a description of the circumstances which you feel support your request. Your Director of Studies may ask you to produce supporting evidence.

Please note that:

- if you submit a piece of work after the submission date, and no extension has been granted, the maximum mark possible will be the pass mark
- if you submit work more than five working days after the submission date, you will normally receive a mark of 0 (zero), unless you have been granted an extension.

It is not usually possible to mark coursework anonymously if it is submitted after the deadline.

It is important that you speak to your Director of Studies as soon as possible if you become concerned about your submission deadlines.

See also the section in this Handbook on **Submission deadlines**.

INDIVIDUAL MITIGATING CIRCUMSTANCES

Individual Mitigating Circumstances (IMCs) are the conditions which temporarily prevent you from undertaking assessment or significantly impair your performance in assessment. As such, the measure of their severity is not about impact on you, but the impact on your affected assessment.

Full information and guidance on Individual Mitigating Circumstances and Assessment (including definitions of IMCs, in the document "What are Individual Mitigating Circumstances?") is available at: www.bath.ac.uk/registry/imc/imc-students.html

It is strongly advised that you become familiar with the available guidance so that you understand the process and timescales should such circumstances arise.

You should make yourself familiar with these definitions, in addition to any IMC guidance offered by your Department, and support and guidance offered through the Disability Service (www.bath.ac.uk/groups/disability-service) or the Students' Union Advice and Support Centre (thesubath.com/advice).

Your Department/School will be able to advise you on how to submit an IMC claim, and your Director of Studies can help you to understand the potential implications of your IMC claim on your overall progress and/or award, in light of your academic achievement to date and the assessment regulations for your programme.

Your IMC claim must be submitted no more than three days after the affected assessment. The IMC form is available at: www.bath.ac.uk/registry/imc/imc-students.html

You will also need to submit evidence of how your circumstances affected the relevant assessment(s), for example, a medical certificate in the case of illness or injury.

If you know of a potential IMC that may affect your assessment before you begin an examination period or before a submission date, it is important that you speak to your Director of Studies as soon as possible. After speaking to your Director of Studies, if you do intend to submit a formal IMC claim for the assessment(s) you feel were affected, you will still need to complete the form and follow procedures.

ASSESSMENT PROCESSES

Assessment and marking processes at the University are designed to ensure that assessment of your work is fair and consistent, and that academic standards are appropriate and comparable between the University and other higher education institutions. This is achieved in a number of ways.

Marking: Assessments you will complete during your programme are marked according to:

- *marking criteria (or assessment criteria)* - these are the knowledge, understanding and skills which it has been identified that students should demonstrate in the assessment and which are taken into account during marking. They are based on the learning outcomes being assessed
- *marking schemes* - these are detailed descriptions of how specific numbers of marks should be assigned against individual components of an answer within the assessment task
- *grade descriptors* - these are descriptions of the levels of achievement required in order to get a result within a given band of marks (e.g. 70% or more).

Anonymous marking: The University has adopted a principle of anonymous marking in order to protect students and staff from bias, and the perception of bias, in the marking process. It applies to all examinations and, where practical, other assessment. It is not possible to mark all coursework anonymously as in some types of assessment the student can be easily identified by the marker (e.g. presentations, group work, laboratory work) or it might not be practical, or in the student interest, to do so. You will be informed when your coursework is to be marked anonymously.

Moderation: Both the setting and the marking of assessments are independently checked through a process known as moderation to ensure that questions test the learning outcomes and are set at the right standard, and that marking is consistent and fair. Moderation is conducted by internal examiners and also by your External Examiner (see below).

Boards of Examiners:

Assessment decision-making at the University is the responsibility of Boards of Examiners established at three levels: assessment outcomes go first to *Boards of Examiners for Units*, then *Boards of Examiners for Programmes*, then finally to *Boards of Studies*. Boards of Studies confirm decisions relating to student progression from one stage of the programme to the next and the final award. **The assessment marks you are given initially by markers are therefore provisional up until the point when they have been confirmed by the Board of Studies for your programme.** An official release date is set when your confirmed results will be made available to you via SAMIS (the University's student records system). An academic appeal can only be made in relation to a confirmed result (see the section in this Handbook on **Procedures for Academic Appeals**).

All marks for a unit are reviewed at a meeting of a Board of Examiners for Units which will verify that the assessment process has been conducted appropriately and that the marks are an accurate reflection of the standards achieved. On rare occasions a Board of Examiners may decide to recommend a change to the provisional marks assigned initially, based on evidence that there was a problem with the assessment (for instance, disruption during an examination, or an exam paper that was too easy or difficult) which means that the marks assigned initially do not accurately reflect the standards achieved by the candidates. This adjustment is known as scaling and under these circumstances the marks of all affected students will be changed.

EXAMINATIONS – INFORMATION AND GUIDANCE

Rules and procedures for examinations are set out in the University's Regulation 15 and Rule 2. The dates of the University's formal assessment periods are found on the academic year charts:

www.bath.ac.uk/publications/academic-year-charts

You will have access to your personal examination timetable via SAMIS approximately seven weeks before the assessment period begins.

If you have learning or support needs and think you may require alternative examination arrangements please seek advice from the Disability Service and inform your Director of Studies as early as possible.

Further information

www.bath.ac.uk/student-records/examinations/examinations-information

Regulation 15: www.bath.ac.uk/publications/regulations-for-students

Rule 2: www.bath.ac.uk/rules/exam

Disability Service: www.bath.ac.uk/groups/disability-service

EXTERNAL EXAMINERS

An External Examiner is someone from another University or a professional organisation who is suitably qualified and experienced in the relevant field of study. At least one External Examiner is appointed for each taught programme or group of programmes. The role of External Examiner is an important one in assuring that assessment processes are fair and academic standards are appropriate, and supporting the development of your programme. External Examiners look at draft examination papers and samples of assessed work, and attend Boards of Examiners.

Once a year, External Examiners provide a written report on each taught programme. University staff will look at these reports and a response will be made to the External Examiner's comments.

Staff/Student Liaison Committees (SSLCs) also discuss External Examiner reports as part of annual monitoring activity.

You can read the latest External Examiner report for your programme, and the University's response to it. See: <http://go.bath.ac.uk/external-examiners-reports>

The External Examiner(s) for your programme will be confirmed at a later date.

It is not appropriate for students to make direct contact with External Examiners. If you are dissatisfied with the process or outcome of an assessment, and are considering whether to raise this either informally or formally, the sections of this Handbook on **Procedures for Academic Appeals** and **Dealing with a problem involving the University: Complaints** give some more information about the University's procedures for student complaints and academic appeals. The section on **Student representation** sets out how students can engage with the quality management process through which the University considers and responds to External Examiners' comments and suggestions.

ASSESSMENT REGULATIONS

The University's **New Framework for Assessment: Assessment Regulations: Phases 2 & 3 for postgraduate taught programmes ('NFAAR-PGT')** specifies the rules governing students' progression from one stage of their programme to the next as well as for the award of degrees. The rules cover all areas of assessment, including supplementary assessment and the extent to which failure may be condoned. If you began the first stage of your programme in or after the 2011/12 academic year, NFAAR-PGT applies to you. (If you began before then, please ask your Director of Studies for guidance on assessment).

If at any time you are in doubt about how NFAAR-PGT provisions apply to your work, please consult your Director of Studies.

This section highlights areas of the University's assessment framework for the type of programme you are undertaking. It explains the regulations that govern your assessment and outlines how the University makes decisions concerning your progression through your programme and award. Complete information is available in the NFAAR-PGT document.

Important information

This section may contain terms unfamiliar to you. In addition to the explanations we give below you can find full definitions at:

www.bath.ac.uk/registry/nfa/nfaar-pgt-appendix-02.pdf

For full details of the NFAAR-PGT, visit: www.bath.ac.uk/registry/nfa

For information relating to your programme, visit: www.bath.ac.uk/catalogues

Your programme and how you are assessed

Within your programme of study, there are *compulsory units*, (i.e. those units in a programme which must be taken by every student registered on the programme), and *optional units* (i.e. those units you may choose from a range of options).

The **Programme Description: Structure of the programme** section in this Handbook shows the structure of your programme. In the table, compulsory and optional units are labelled 'C' and 'O' respectively.

Please note that you can also access this information via links in your programme's description in the Programme and Unit Catalogues available at: www.bath.ac.uk/catalogues

At the end of the table, there is a link to the relevant appendix of the NFAAR-PGT which states exactly how the assessment rules operate.

The following points will help you to understand how the assessment rules relate to your specific programme, such as pass marks, averaging of marks and dealing with any failures:

Firstly, there are several references below to the persistent generic rules on the extent of any failures of units permitted overall. The rules are that you can only (1) fail and retrieve units, or (2) marginally fail units and have them condoned, within set limits. Breaking these rules results in failure of the programme.

- Your programme does not have any Designated Essential Units (DEUs).
- Your programme is divided into stages and follows the general principle that all stage assessment must be successfully completed before progression to the next stage is permitted. This means that, if you are required to undertake supplementary assessment, you will have to do so before you can progress further. You must also never break one of the persistent generic rules.
- Your programme has units that constitute the Taught Stage(s) Credits in a separate phase before the period in which you will do the Dissertation/Project type unit(s), as indicated in the table showing the structure of your programme. The Programme Progression Requirement to get from the taught phase to the Dissertation/Project phase is 40%.
- Should you fail to qualify for the award of the degree of Master, you may be considered for the award of a related Postgraduate Diploma or Postgraduate Certificate (subject to your having met the requirements for one of those awards).

The normal pass mark for a unit is 40%. In some units, you might need to achieve a threshold mark in one or more component assessments in order to pass the unit overall. Particular rules apply to failure of units of the 'Taught type', or in the 'taught' stages. They are as follows:

- If you fail any units badly (i.e. achieve less than 35%), you will have to undertake supplementary assessment – unless you have failed so many units that you fail outright or the attempted retrieval would break the rule on how much failure can be retrieved.
- If you only fail units marginally (i.e. achieve 35%-39%), you might be able to progress without supplementary assessment. Whether you do progress will depend on the total credit value of the failed units.

Dissertation/Project units have their own special rule on failure: only cases of marginal failure (i.e. 35%-39%) will be given permission for attempted retrieval through supplementary assessment, and any resubmission that is permitted for marginal failure must be made within a specified period. Ultimately, you must pass a Dissertation/Project unit (or have an average of at least 40% for them if there are more than one) for satisfactory completion of the requirements for Dissertation/Project elements.

Your unit results are combined as follows to make overall assessment/award decisions:

- The Taught Stage(s) Average (TSA) will be calculated by taking the credit-weighted average of marks for all units required to contribute to the taught stage(s), or by taking the credit-weighted average of marks for all units defined as of 'Taught type' required to contribute to the programme.
- The Dissertation/Project Average (DPA) will be calculated by taking the credit-weighted average of marks for the unit(s) required to contribute to the Dissertation/Project stage(s), or by taking the credit-weighted average of marks for the unit(s) defined as of 'Dissertation/Project type' required to contribute to the programme.
- The Overall Programme Average (OPA) will be calculated by taking the credit-weighted average of marks for all units required to contribute to the programme.

A Board of Examiners will decide at appropriate points whether you are continuing to meet the requirements for the programme (including not breaking persistent generic rules whereby you can only fail and retrieve, or marginally fail and have condoned, units within set limits), and/or whether you have met all the requirements for your target award or any alternative that might be available. The outcomes will depend on both your performance in individual units and your overall performance. Generally, if you pass each of your units, you will progress and, in due course, be recommended for an award.

If you fail units beyond certain credit values, or you fail some too badly, you might break one of the persistent generic rules whereby you can only fail and retrieve, or marginally fail and have condoned, units within set limits, and this will result in failure of the programme - without any opportunity for supplementary assessment. (Further information on supplementary assessment is provided below.)

The criteria for making awards with distinction or with merit are described in the relevant NFAAR-PGT rules (paras. 78-80).

Supplementary assessment

'Supplementary assessment' is the term normally used for an opportunity given to a student to retrieve failure before starting the next stage of a programme, or by the end of the programme if it is a single-stage programme or the failed units are not Stage Required Units (SRUs). It generally involves re-doing coursework or re-sitting an examination. Students undertaking supplementary assessments are likely to have to do so at the University in the summer re-sit examinations.

For the 2018–19 academic year, this period will be 14 August to 23 August 2019.

Each unit's method of supplementary assessment is shown in the online Unit Catalogue.

At supplementary assessment, students will normally have the opportunity to gain credit for units then successfully passed and to have the mark gained reported to them for feedback purposes, but a maximum mark of 40% will be awarded and used in the Overall Stage Average, the Overall Programme Average, the Taught Stage(s) Average, and any award calculation.

In units where the original assessment is a written examination, supplementary assessment may sometimes take the form of reworking an examination paper, known as 'mandatory extra work', rather than re-sitting the examination. In such cases the pass mark is 70% and a mark below 60% is considered a bad fail.

If you pass all your supplementary assessments, you will be able to progress onto the next stage of your programme and/or, as appropriate, be considered for an award. If you do not pass them all, the outcome will depend on your overall performance including consideration of the rules about passing particular types of units and the persistent generic rules (as set out above).

ACADEMIC APPEALS

Students wishing to submit a request for an academic appeal should refer to Regulation 17 (Conduct of Student Academic Appeals and Reviews): www.bath.ac.uk/publications/regulations-for-students

You are also strongly advised to read the online guidance provided by the Academic Registry: www.bath.ac.uk/registry/appeals

Independent advice about academic appeals is offered by the Students' Union Advice and Support Centre: thesubath.com/advice

Regulation 17.16 outlines how you may appeal against formal Board of Studies decisions in respect of one or more of the following:

- i) the student's suitability to progress from one stage of the programme of study to the next
- ii) the student's suitability to remain on the programme of study
- iii) the marks/grades, degrees, certificates or diplomas, and the classifications/grades awarded to the student.

The regulation also sets out the grounds on which an appeal can be based (Regulation 17.16). Please note that:

- dissatisfaction with a mark or set of marks, or any other aspect of the properly exercised academic judgement of the examiners, will not of itself be acceptable as a valid ground for an academic appeal (Regulation 17.1)
- students who have concerns about assessment outcomes that have not yet been approved by a Board of Studies should seek advice in the first instance from their Director of Studies. This may include matters such as suspecting errors in the totalling or transcription of marks/grades, or wishing to seek clarification about the marking process (Regulation 17.2).

All academic appeals must be submitted within the timescales set out in Regulation 17. Students must provide the required information and evidence, including a completed AA1 form. The form and further academic appeals guidance are available at:

www.bath.ac.uk/registry/appeals

Student Complaints are dealt with under separate procedures. For more information, see:
www.bath.ac.uk/guides/student-complaints-procedure

If you are uncertain as to whether your concerns are a potential academic appeal or a student complaint, please refer to the guidance at: www.bath.ac.uk/students/support/complaints

GENERAL INFORMATION

THE ACADEMIC YEAR 2018-19

Semester 1

Event	Dates
New student arrivals	Saturday 22 September 2018 - Sunday 23 September 2018
Welcome Week	Monday 24 September 2018 - Sunday 30 September 2018
Semester 1	Monday 1 October 2018 - Friday 14 December 2018
Semester 1 vacation	Monday 17 December 2018 - Friday 4 January 2019
Semester 1	Monday 7 January 2019 - Friday 25 January 2019

There will be an inter-semester break 28th January – 1st February 2019

Semester 2

Event	Dates
Semester 2	Monday 4 February 2019 - Friday 19 April 2019
Semester 2 vacation	Monday 22 April 2019 - Friday 3 May 2019
Semester 2	Monday 6 May 2019 - Friday 31 May 2019

Please note: Friday 19th April is Good Friday and Monday 6th May is a Bank holiday and so no teaching will occur on these dates.

Event	Dates
Project research stage	Monday 3 June 2019 – Friday 16 August 2019
Project write up	Monday 19 August 2019 – Friday 13 September 2019
Project submission date	Friday 13 September 2019

UNIVERSITY REGULATIONS FOR STUDENTS

All registered students of the University are subject to the University's Regulations for Students. The Regulations contain rules and other important information about being a student at the University of Bath, including regulations governing the payment of fees due to the University, student discipline, fitness to study and those governing attendance, conduct and progress in studies. They also form part of the formal contract between you and the University. You will find references to the requirements of the Regulations for Students throughout this Handbook. You are advised to download a copy of the Regulations and read them carefully as they contain a lot of important information.

Important information

The full Regulations for Students can be found at:

www.bath.ac.uk/publications/regulations-for-students

REGISTRATION STATUS

Note that only registered students may use the University's facilities, such as email, Moodle and the Library. You will be asked to register online at the start of your programme of study and then to re-register at the start of every academic year thereafter until you have completed your programme. It is a requirement that you register when asked to do so. Tuition fees for each academic year are payable at registration in full or in instalments.

Regulation 1.1 explains the requirement to register. Regulations 2.4 and 2.10 explain the consequences of non-payment of tuition fees:

www.bath.ac.uk/publications/regulations-for-students

ATTENDANCE MONITORING

Guidance and requirements on attendance, including the University's Attendance Monitoring and Engagement Policy for Tier 4 students, are available at:

www.bath.ac.uk/guides/attendance-monitoring-for-tier-4-students

This page also sets out information on when and how to request an authorised absence.

CHANGE IN YOUR CIRCUMSTANCES

It is important to ensure that the University holds your correct, up-to-date, personal and academic details within SAMIS, the University's student records database. If you change your address – either your semester-time or home address – please update your details online at: <https://samis.bath.ac.uk>

If you change your name, you will need to provide valid proof of the change. Please speak to your Department or Faculty/School administration, or Student Services in the Roper Centre, for advice on how to do this.

If you are considering suspending your studies, transferring from one programme to another, or withdrawing from your programme, please discuss your situation with your Director of Studies. They will be able to advise you on an appropriate course of action.

It is a University Regulation (3.1) that you attend regularly. If circumstances are such that you are not able to do so, then please contact your Director of Studies to discuss your situation and agree an appropriate course of action.

Your Personal Tutor will also be able to provide support and guidance on matters relating to your programme.

The financial implications of withdrawing from the University or suspending your studies can be significant.

You will find general information at: www.bath.ac.uk/students/finance/changes-to-your-study/withdrawning-or-suspending-from-your-course

The Student Money Advice Team in Student Services and the Student Finance Office will be able to advise you on the implications for fees in your situation and on how to suspend any student funding you are receiving.

If you are an international student holding a Tier 4 visa, you should consult the advisers in the Student Immigration Service about the implications of suspending or withdrawing from your programme: www.bath.ac.uk/topics/visas

You will need to register any change of academic circumstance, including a change of optional units, with the University. Please speak to your Department or Faculty/School administration who will advise you on how to do this.

HEALTH AND SAFETY

The University's Health and Safety Policy Statement is available at:
www.bath.ac.uk/corporate-information/health-and-safety-policy

The Policy Statement is also displayed throughout the campus. Staff within the University Health, Safety and Environment Service (Wessex House 3.12) provide professional advice on health and safety matters and monitor the health and safety performance of the University.

Further information

email: uhse@bath.ac.uk

Current University guidance on fieldwork, work placements and overseas travel:

www.bath.ac.uk/corporate-information/fieldwork-safety-standard

www.bath.ac.uk/corporate-information/placements-and-study-abroad-programmes-safety-standard

www.bath.ac.uk/guides/overseas-travel-safety-guidance

DATA PROTECTION

The University's Data Protection Policy and Guidelines on Data Protection may be accessed via the data protection website: www.bath.ac.uk/data-protection
