Jessica Markowski

Director Global Restaurant Brands, Deliveroo (UK&I)

MBiochem Biochemistry, 2001

About me

I've spent 20 years in fast-moving consumer goods (FMCG) global companies.

I have worked for Reckitt Benckiser, Bacardi and Budweiser in sales, marketing, and category insight roles, in the UK and Europe and am now working in the tech industry.

I have particular interest in diversity, equality and inclusion, and talent and career development. I also mentor internal and external people across the industry.

Fun Fact: I worked for a beer company for 13 years and I don't really like Beer!

Something I know now that I wish I had known at the beginning of my career

Knowing what you don't know is actually an asset.

How would this advice have helped me?

I spent a lot of time trying to close gaps in my experience, skill set, and knowledge when actually knowing how to build a team being transparent with your strengths and weaknesses, is much better than trying to solve everything yourself.

(And a lot quicker and better for your work life balance!)
