

Improving the Quality Use of Medicines and Pharmacy Practice with Behaviour Change

One-day conference

Wednesday 26th September 2018

Venue: The Edge, University of Bath, Claverton Down Campus

This event creates an opportunity to:

- share learning around behaviour change, theory and the application to medicines and pharmacy practice.
- develop a network of academic researcher and practitioners.

This conference will be of interest to academic researchers, practitioners and stakeholders engaged in medicines management and optimisation, pharmacy practice development, and behaviour change of health professionals, patients and/or the public. This one-day event comprises keynote speakers, workshops and poster presentations*.

Keynote Speakers

- **Marie Johnson**,
Emeritus Professor of
Health Psychology,
University of Aberdeen.

- **Christopher Eccleston**,
Professor of Pain Research,
Department for Health,
University of Bath.

- **Line Guénette**,
Associate Professor, Faculty of
Pharmacy, Laval University,
Quebec, Canada.

- **Mags Watson**,
Professor of Health Services
Research, Department of
Pharmacy and Pharmacology,
University of Bath.
