Dear Jane

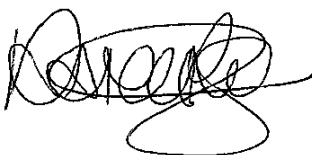

I am writing to offer a formal THANK YOU to you and your teams for allowing staff from the Trust to use the accommodation at the John Wood Building in central Bath during the first phase of our Covid-19 response.

As a result of being able to stay in the John Wood Building, colleagues have been supported to continue to attend for work whilst also protecting their families from potential exposure to the virus. Your teams have been accommodating and helpful when contacted – whether checking staff in and out, responding to queries or supporting residents when colleagues had suspected symptoms.

Being able to use the John Wood Building has allowed us to support those staff needing to be accommodated on site, whilst still offering accommodation free of charge to others with slightly different needs.

We know that this is not the only area in which the University has been supporting the RUH and its staff, but wanted to acknowledge how valuable the support of yourself and the teams had been. Thanks for being a superb part of the Bath Community.

Yours sincerely

Karen Rye
ICC Manager
