Exporting your whole Library List

To export the whole list, click on the '...' at the top of the list and select export list. From the dropdown, select the export to endnote link.

Click export.

You can then import citations from endnote into word and select Harvard (Bath). You have to have set up this up in Endnote before, exporting from Library Lists. You can do this by following instructions on installing the EndNote toolbar linked in on the guidance pages

For all Library List queries, please contact library@bath.ac.uk
