Read these instructions carefully and completely before using your appliance and keep in a safe convenient place for reference when necessary.

Precautions

1. Do not attempt to operate this oven with the door open since open-door operation can result in harmful exposure to microwave energy. It is important not to defeat or tamper with the safety interlocks.
2. Do not place any object between the oven front face and the door or allow soil or cleaner residue to accumulate on sealing surfaces.
3. Do not operate the oven if it is damaged. It is very important that the oven door close properly and that there is no damage to the
 - a) Door (including any dents)
 - b) Hinges and latches (broken or loosened)
 - c) Door seals and sealing surfaces
4. The oven should not be adjusted or repaired by anyone except qualified service personnel.

Safety Instructions

WARNING!--To reduce the risk of burns, electric shock, fire, injury to persons or exposure to excessive microwave energy:

1. Use this appliance only for its intended use as described in the manual. Do not use corrosive chemicals or vapours in this appliance. This type of oven is specifically designed to heat or cook. It is not designed for industrial or laboratory use.
2. Do not operate the oven when empty.
3. Do not operate this appliance if it has a damaged cord or plug, if it is not working properly, or if it has been damaged or

dropped. If the supply cord is damaged, it must be replaced by the manufacturer or its service agent or a similarly qualified person in order to avoid a hazard.

4. **WARNING!**--Only allow children to use the oven without supervision when adequate instructions have been given so that the child is able to use the oven in a safe way and understands the hazards of improper use.
5. To reduce the risk of fire in the oven cavity:
 - When heating food in plastic or paper container, keep an eye on the oven due to the possibility of ignition.
 - Remove wire twist-ties from paper or plastic bags before placing bag in oven.
 - If smoke is observed, switch off or unplug the appliance and keep the door closed in order to stifle any flames.
 - Do not use the cavity for storage purposes. Do not leave paper products, cooking utensils, or food in the cavity when not in use.
 - The microwave oven is intended for heating food and beverages. Do not dry food, clothing, heat warming pads, slippers, sponges, damp cloth and similar as this may lead to risk of injury, ignition or fire.
6. **WARNING!**--Liquid or other food must not be heated in sealed containers since they are liable to explode.
7. Microwave heating of beverages can result in delayed eruptive boiling, therefore care has to be taken when handle the container.
8. Do not fry food in the oven. Hot oil can damage oven parts and utensils and even result in skin burns.
9. Eggs in their shell and whole hard-boiled eggs should not be heated in microwave ovens since they may explode even after microwave heating has ended.
10. Pierce foods with heavy skins such as potatoes, whole squashes, apples and chestnuts before cooking.

11. The contents of feeding bottles and baby food jars should be stirred or shaken and the temperature should be checked before serving in order to avoid burns.
12. Cooking utensils may become hot because of heat transferred from the heated food. Pot holders or oven gloves may be needed to handle the utensil.
13. Utensils should be checked to ensure that they are suitable for use in microwave oven.
14. **WARNING!**--It is hazardous for anyone other than a trained person to carry out any service or repair operation which involves the removal of any cover which gives protection against exposure to microwave energy.
15. This product is a Group 2 Class B ISM equipment. The definition of Group 2 which contains all ISM (Industrial, Scientific and Medical) equipment in which radio-frequency energy is intentionally generated and/or used in the form of electromagnetic radiation for the treatment of material, and spark erosion equipment. For Class B equipment is equipment suitable for use in domestic establishments and in establishments directly connected to a low voltage power supply network which supplies buildings used for domestic purpose.
16. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
17. Children should be supervised to ensure that they do not play with the appliance.
18. The microwave oven is only used in free-standing.
19. **WARNING!**--Do not install oven over a range cook top or other heat-producing appliance. If installed like this it could be damaged and the warranty would be void .

- 20. The microwave oven must not be placed in the cabinet.
- 21. **WARNING!**--The appliance and its accessible parts become hot during use.
- 22. **WARNING!**--Accessible parts may become hot during use. Young children should be kept away.
- 23. During use the appliances becomes hot. Care should be taken to avoid touching heating elements inside the oven, for cooking ranged and ovens.
- 24. The temperature of accessible surfaces may be high when the appliance is operating.
- 25. The appliance shall be placed against a wall.
- 26. Appliance is not to be used by children or persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction.
- 27. **WARNING!**--If the door or door seals are damaged, the oven must not be operated until it has been repaired by a competent person.
- 28. The appliances are not intended to be operated by means of an external timer or separate remote-control system.
- 29. The microwave oven is for household use only and not for commercial use.
- 30. Never remove the distance holder in the back or on the sides, as it ensures a minimum distance from the wall for air circulation.
- 31. Please secure the turntable before you move the appliance to avoid damages.
- 32. **CAUTION!**--It is dangerous to repair or maintain the appliance by no other than a specialist because under these circumstances the cover have to be removed which assures protection against microwave radiation. This applies to changing the power cord or the lighting as well. Send the appliance in these cases to our service centre.

- 33. The microwave oven is intended for defrosting, cooking and steaming of food only.
- 34. Use gloves if you remove any heated food.
- 35. Caution! Steam will escape, when opening lids or wrapping foil.
- 36. This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children unless they are aged from 8 years and above and supervised.
- 37. If smoke is emitted, switch off or unplug the appliance and keep the door closed in order to stifle any flames.

Installation Guide

- 1. Make sure that all the packing materials are removed from the inside of the door.
- 2. **WARNING:** Check the oven for any damage, such as misaligned or bent door, damaged door seals and sealing surface, broken or loose door hinges and latches and dents inside the cavity or on the door. If there is any damage, do not operate the oven and contact qualified service personnel.
- 3. This microwave oven must be placed on a flat, stable surface to hold its weight and the heaviest food likely to be cooked in the oven.
- 4. Do not place the oven where heat, moisture, or high humidity are generated, or near combustible materials.
- 5. For correct operation, the oven must have sufficient airflow. Allow 20cm of space above the oven, 10cm at back and 5cm at both sides. Do not cover or block any openings on the appliance. Do not remove feet.

6. Do not operate the oven without glass tray, roller support, and shaft in their proper positions.
7. Make sure that the power supply cord is undamaged and does not run under the oven or over any hot or sharp surface.
8. The socket must be readily accessible so that it can be easily unplugged in an emergency.
9. Do not use the oven outdoors.

Radio Interference

Operation of the microwave oven can cause interference to your radio, TV, or similar equipment. When there is interference, it may be reduced or eliminated by taking the following measures:

1. Clean door and sealing surface of the oven.
2. Reorient the receiving antenna of radio or television.
3. Relocate the microwave oven with respect to the receiver.
4. Move the microwave oven away from the receiver.
5. Plug the microwave oven into a different outlet so that microwave oven and receiver are on different branch circuits.

Grounding Instructions

This appliance must be grounded. This oven is equipped with a cord having a grounding wire with a grounding plug. It must be plugged into a wall receptacle that is properly installed and grounded. In the event of an electrical short circuit, grounding reduces risk of electric shock by providing an escape wire for the electric current. It is recommended that a separate circuit serving only the oven be provided. Using a high voltage is dangerous and may result in a fire or other accident causing oven damage.

WARNING Improper use of the grounding plug can result in a risk of electric shock.

Note:

1. If you have any questions about the grounding or electrical instructions, consult a qualified electrician or service person.
2. Neither the manufacturer nor the dealer can accept any liability for damage to the oven or personal injury resulting from failure to observe the electrical connection procedures.

The wires in this cable main are coloured in accordance with the following code:

Green and Yellow = EARTH

Blue = NEUTRAL

Brown = LIVE

Cooking Utensils Guide

1. Microwave cannot penetrate metal. Only use utensils that are suitable for use in microwave ovens. Metallic containers for food and beverages are not allowed during microwave cooking. This requirement is not applicable if the manufacturer specifies size and shape of metallic containers suitable for microwave cooking.
2. Microwave cannot penetrate metal, so metal utensils or dishes with metallic trim should not be used.
3. Do not use recycled paper products when microwave cooking, as they may contain small metal fragments which may cause sparks and/or fires.
4. Round /oval dishes rather than square/oblong ones are recommend, as food in corners tends to overcook.
5. Narrow strips of aluminium foil may be used to prevent overcooking of exposed areas. But be careful don't use too much and keep a distance of 1 inch (2.54cm) between foil and cavity.
6. The list below is a general guide to help you select the correct utensils.

Cookware	Microwave
Heat-Resistant Glass	Yes
Non Heat-Resistant Glass	No
Heat-Resistant Ceramics	Yes
Microwave-Safe Plastic Dish	Yes
Kitchen Paper	Yes
Metal Tray	No
Metal Rack	No
Aluminium Foil & Foil Container	No

Product Overview

1. Door Safety Lock System
2. Microwave Oven Window
3. Shaft
4. Roller Ring
5. Control Panel
6. Wave Guide (Please do not remove the mica plate covering the wave guide)
7. Glass Tray

Control Panel

The control panel consists of two function operators. One is a timer knob, and another a power knob.

POWER KNOB

Use the power knob to choose a cooking power level. It is the first step to start a cooking session.

TIMER KNOB

Use the timer knob to select a desired cooking time, up to 30 minutes per cooking session.

MICROWAVE COOKING

There are 6 power levels to choose from when cooking your food. Power level increases with the knob turning clockwise. The power levels can be classified as the following:

Power Output	Description
100%	HIGH
88%	M.HIGH
73%	MED
52%	M.LOW
42%	DEFROST
20%	LOW

Operation

To start a cooking session,

1. Place food in oven and close the door.
2. Turn Power Selector to select a power level.
3. Use Timer knob to set a cooking time

NOTE:

As soon as the timer is turned, oven starts cooking.

When selecting time for less than 2 minutes, turn timer past 2 minutes and then return to the correct time.

To stop microwave during cooking process, open the door by the handle. Close the door to restart the cooking process.

CAUTION: ALWAYS RETURN TIMER BACK TO ZERO POSITION if food is removed from the microwave before the set cooking time is complete or when not in use. Otherwise the microwave will continue working once the door is closed.

Cleaning And Care

1. Turn off the oven and remove the power plug from the wall socket before cleaning.
2. Keep the inside of the oven clean. When food splatters or spilled liquids adhere to oven walls, wipe with a damp cloth. Mild detergent may be used if the oven gets very dirty. Avoid the use of spray and other harsh cleaners as they may stain, streak or dull the door surface.
3. The outside surfaces should be cleaned with a damp cloth. To prevent damage to the operating parts inside the oven, water should not be allowed to seep into the ventilation openings.
4. Wipe the door and window on both sides, the door seals and adjacent parts frequently with a damp cloth to remove any spills or spatters. Do not use abrasive cleaner.
5. A steam cleaner is not be used.
6. Do not allow the control panel to become wet. Clean with a soft, damp cloth. When cleaning the control panel, leave oven door open to prevent oven from accidentally turning on.
7. If steam accumulates inside or around the outside of the oven door, wipe with a soft cloth. This may occur when the microwave oven is operated under high humidity condition. And it is normal.
8. It is occasionally necessary to remove the glass tray for cleaning. Wash the tray in warm sudsy water or in a dishwasher.
9. The roller ring and oven floor should be cleaned regularly to avoid excessive noise. Simply wipe the bottom surface of the oven with mild detergent. The roller ring may be washed in mild sudsy water or dishwasher. When removing the roller ring from cavity floor for cleaning, be sure to

replace in the proper position.

10. Remove odours from your oven by combining a cup of water with the juice and skin of one lemon in a deep microwaveable bowl, microwave for 5 minutes. Wipe thoroughly and dry with a soft cloth.
11. When it becomes necessary to replace the oven light, please consult a dealer to have it replaced.
12. The oven should be cleaned regularly and any food deposits removed. Failure to maintain the oven in a clean condition could lead to deterioration of the surface that could adversely affect the life of the appliance and possibly result in a hazardous.

Waste Electrical Recycling

This symbol indicates the product is classed as Electrical or Electronic Equipment and should not be disposed of with other household waste.

The Waste Electrical and Electronic (WEEE) Directive has been introduced across the EU:

- To recycle waste electrical products using the best available recovery and recycling techniques.
- To minimise the impact to on the environment
- To treat any hazardous substances
- To avoid increasing landfill

WEEE product should be disposed of by handing it over at a designated collection point. For more information about where to drop off your waste product for recycling please contact you local authority.

Technical Specification

Product Code	207760
Power Supply	230240V~50Hz
Power Consumption (Microwave)	1200W
Rated Microwave Output	800W
Operation Frequency	2450MHZ
Outside Dimensions	262mm (H) x 452mm(W) x 351mm (D)
Oven Cavity Dimensions	178mm (H) x 315mm(W) x 296mm (D)
Capacity	20 L
Net Weight	Approx 11.5kg
Standby Power	<0.5W

Sabichi Homewares Ltd, 5 Wadsworth Road,
Perivale, Middlesex UB6 7JD
Sabichi NI , Unit 01 Strangford Park Ards Business

Please note these figures are for reference and may differ slightly on the actual product

Troubleshooting

Before asking for service, please check each item below:

- Check to ensure the microwave is plugged in securely. If not, remove the plug from the outlet, wait 10 seconds, and plug it in again securely.
- Check for a blown circuit fuse or a tripped main circuit breaker. If these seem to be operating properly, test the outlet with another appliance.
- Check to ensure the control panel is programmed correctly and the timer is set.
- Check to ensure the door is securely closed, engaging the door lock system. If the door is not properly closed, the microwave will not operate.

IF NONE OF THE ABOVE RECTIFIES THE SITUATION, THEN CONTACT A QUALIFIED TECHNICIAN. DO NOT TRY TO ADJUST OR REPAIR THE OVEN YOURSELF.

Warranty

This product is guaranteed for 2 years from the date of original purchase. If the product fails within this period due to faulty materials or workmanship, it will be repaired, replaced or refunded at our discretion. Proof of purchase will be required.

This warranty applies only to:

- Product installed and used in accordance with the instructions contained in this manual.
- Product used for domestic purposes only.
- Product purchased in the UK and Ireland.

This warranty does not cover:

- Cosmetic damage.
- Normal wear and tear of consumable parts.
- Incorrect voltage supply or power surges.
- Customer misuse, modifications or adjustments.
- Products with unreadable or removed serial numbers.

Haden disclaims any liability for incidental or consequential loss or damages.

In the event of a problem:

- Please refer to the troubleshooting tips section within your user guide for help and guidance.
- If you are still unable to resolve the problem, please contact our technical support team for assistance.

When contacting Haden please provide:

- Product model number. Model & serial numbers can be found on the product rating label.
- Date of purchase.
- Complete description of the problem.

This information will help our team assist you more quickly.
