Paving the Way Shortlist

Aleena Rana, Beauchamp City Sixth Form

Anna Parkin, Sacred Heart Catholic Sixth Form

Danielle Blythe, Olchfa School

Paving the Way Award

Nominated by Andy Huang

"I would like to nominate Danielle Blythe as she was the one to show me all of the amazing opportunities and programmes (Including Pathway to Bath!) that I could apply for. Thanks to her, I've been able to visit so many different places such as Bath, Oxford and London to enhance my knowledge in Maths, Physics and university life. Without her I would have never known about all of these different opportunities - I probably wouldn't have known anything about widening participation at all! Initially, I thought I was going to be an average student but through her I have been able to develop myself into somebody who's much more independent and more passionate about Physics than ever. Her teaching is also excellent as she's always quite funny in class and she has always consistently posted resources for everyone to use to revise and her dedication to making sure people understand how physics works is amazing. Furthermore, she has also helped me work on my Personal Statement and has always been very supportive of me."

Nothing's Impossible

outreach programmes or outreach
opportunities*

Nothing's Impossible Shortlist

Alan Youngs, The Cottlesloe School

Tina Lewis, Ysgol Bro Teifi

Aastha Swaminathan, Cranford Community College

Nothing's Impossible Award

Nominated by Iwan Meredith

"I wholeheartedly nominate Tina Lewis for the University of Bath Teacher Champion Award. As a biology teacher, she consistently goes above and beyond to support her students not just academically, but personally. Every lesson is delivered with passion, clarity, and care, making even the most complex topics engaging and accessible. Her meticulously crafted revision booklets have been invaluable and reflect the time and dedication she pours into our success. What sets her apart is the unwavering belief in her students. She has been a constant source of motivation, encouraging me to aim higher and believe in my full potential. This doesn't just apply to me, but to all the students under her guidance. Her support has made a lasting impact on my academic journey and personal growth. She doesn't just teach a level biology; she inspires excellence, resilience, and curiosity. I cannot think of anyone more deserving of this award."
