

## Covid-19 – Week Eight Check In Survey: Response from the Department for Health – PGR

Although we haven't created a specific response to the S1 Wk8 survey, we have of course communicated with our PGR / Doctoral students at other times throughout the year, and continue to offer support. Many of these are health professionals whose ability to study and conduct research even at a distance will very likely have been affected by the pandemic.

Best wishes

Fiona
