Water Innovation  
& Research  
Centre

UNIVERSITY OF  
**BATH**

*Dear All,*

*I'm very pleased to present to you the first newsletter from the Water Innovation and Research Centre (WIRC) at Bath. The centre started a little over a year ago now and there have been some very exciting times so far. It was a great pleasure to see all of the fantastic research projects going on. The added value of the centre is already being demonstrated, and we are ready to grow further and realise our ambition to become a globally leading research and innovation centre.*

*I'm also delighted to see that the water researchers are finding each other and a true water community is growing on campus..*

*This first newsletter is a reflection of what we do and what our impact can be. We will keep you informed about progress through this newsletter. Please subscribe and forward the link to your colleagues and friends*

Jan Hofman  
Director, WIRC @ Bath
