

UNIVERSITY OF
BATH

COLLABORATE WITH US

Work with the University of Bath to make an impact in academia, business and society

The University of Bath provides industry, organisations and individuals many ways to collaborate.

With access to leading research, skills, facilities and innovative technologies our Industrial Partnerships team will help you to navigate a path through the university, connecting you with the right teams, people and services.

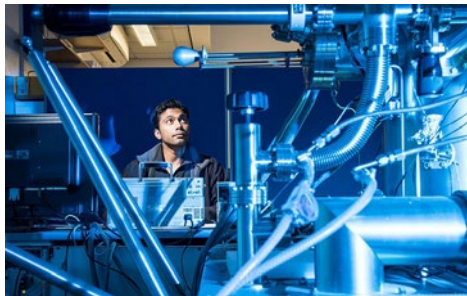

RESEARCH STRENGTHS

Our research capabilities at the University of Bath align with the National Industrial Strategy and regional industry sector strengths.

INDUSTRIAL PARTNERSHIPS

Research Collaborations

A dedicated team is available to facilitate collaborative research opportunities, sponsored research and access to skills that will enhance your businesses research, technology or practices. Through our Industrial Partnerships team you can tap into our pool of innovative researchers, technologies and equipment:
www.bath.ac.uk/teams/industrial-partnerships

Knowledge Transfer Partnerships (KTPs)

KTP is a UK-wide funding scheme enabling your business to innovate and grow by linking with a University graduate and an academic supervisor. Our KTP team will help you apply for funding and manage your funding programme: go.bath.ac.uk/ktp

Doctoral Training Centres (DTCs)

Partner with businesses, research councils and university organisations to support and train PhD students that will work in your industry: go.bath.ac.uk/doctoral-training-centre

ENTERPRISE AND INNOVATION

Exchange ideas and knowledge to bridge the gap between complex academic research, commercial application and business creation.

Consultancy

Take advantage of our cross-disciplinary research capabilities and state-of-the-art facilities, along with the academic experts who provide advice on a range of industrial or commercial problems:
www.bath.ac.uk/campaigns/consultancy-services

Commercialisation

Help your business to grow by partnering with our innovative technologies, research results or new businesses.

Start-up and Scale up Support

Engage with the SETsquared partnership, twice voted global #1 for business incubation. We offer work space, business acceleration and inspiration for high-growth companies and the entrepreneurs that create them. Become a member, join our networks, or develop your business skills through our entrepreneurship programmes:
<https://bath-setsquared.co.uk>

EXPERTISE AND FACILITIES

Find an expert using our research portal:
<https://researchportal.bath.ac.uk>

Search our research facilities available to industry and businesses, and our directory of Research Centres, Institutes and Groups:
www.bath.ac.uk/campaigns/research-partnerships

Explore our fantastic conference, accommodation and catering facilities here on campus:
www.bath.ac.uk/professional-services/conferences-events

EXECUTIVE EDUCATION

There are several ways you can develop your workforce with us. We provide customised and open programmes led by our renowned management thinkers and practitioners.
www.bath.ac.uk/professional-services/executive-education

Productivity through People

Learn about our leadership development programme for small and medium-sized enterprises and book places for people in your organisation.

Part-Time Masters Programmes

Our part-time post-graduate qualifications can fit around your professional life, including our Executive MBA at either Bath or our central London Pall Mall facility.

STUDENT ENGAGEMENT, EMPLOYABILITY AND RECRUITMENT

Engaging with our students through placements, projects, communities and employment can help attract and retain the talent your organisation needs.
www.bath.ac.uk/topics/collaborate-with-us

Placements

Our Placements teams can provide you with the right student to suit your business need
