

GO ABROAD BURSARY

2022 Opportunities

The University of Bath's International Relations Office have launched the Go Abroad Bursary Scheme which gives under represented students the opportunity to attend a summer school abroad.

Summer Schools are short-term immersive packages that combine subject-specific tuition and social activities.

They are a fantastic opportunity to gain specialist knowledge in a range of topics, grow confidence and experience a new culture without having to commit to a full semester or year abroad. They also increase international competence (the ability to confidently be able to communicate with people from other cultures) which is highly valued by employers.

In this document you will find the opportunities that are available for 2022.

Copenhagen Business School Denmark
