Welcome to the University of Bath

On behalf of the University, it is my great pleasure to invite you to consider studying for a master's degree with us. As you read this prospectus, I hope you can appreciate the opportunities that await you at Bath, where the quality of education you receive will give you the knowledge, expertise, and skills to thrive in your career, whether you're applying for a first job, taking the next step on your career path, or working towards a research degree.

A master's from Bath will not only help you grow your knowledge and understanding in your chosen area, but also build skills that are highly sought after by employers: agility, digital proficiency, collaboration, leadership, and a strong sense of seizing opportunities to work for the common good in a changing world.

We are honoured to have been named University of the Year 2023 by The Times and The Sunday Times Good University Guide having been singled out for advances in our high-quality education, student experience and the way in which these factors combine to support and prepare our students for enriching and fulfilling careers ahead. As you take this next step to postgraduate study, our aim is to help you develop as a person and achieve beyond your expectations. Bath students are recognised as exceptionally well qualified, both nationally and internationally, as our league table results consistently show.

Our staff are international experts in their subject areas and use their research to make sure you benefit from teaching that incorporates the most relevant topics and the latest understanding. This year, the Research Excellence Framework assessment ranked 92% of our research as 'world-leading' or 'internationally excellent' - a wonderful recognition of the quality of our research that you, as a master's student at Bath, can benefit from in your studies.

Our vibrant campus offers an exceptional range of sporting, arts, social, and cultural opportunities

to help you develop your skills further and make lasting contacts for the future. Here you'll find a very special community; one that nurtures ambition, celebrates diversity, and supports the health and wellbeing of all its members.

The city itself, with its striking architecture and melding of cultures, is the UK's only entire city on UNESCO's World Heritage list, both as one of the Great Spas of Europe and for its Roman heritage and Georgian architecture. The Complete University Guide has named Bath the safest University town or city in England and Wales and there are excellent transport links to London and Bristol. It is a wonderful place in which to live and study. In recent years, the city has developed a thriving digital sector and a community that supports innovation and entrepreneurship, giving you opportunities for employment should you stay in the region after your studies.

If you choose one of our online or distance learning courses, you'll be part of a global community of learners and build close links with Bath's outstanding academic experts. You will have access to a range of innovative online tools and support and be able to browse the University's extensive online library from day one of your studies.

I hope this prospectus provides a taste of what to expect at Bath. To find out more about us, please do visit the campus and the city of Bath if you can. Alternatively, you can join us at one of our Virtual Open Days or at a postgraduate fair near you. There is also a wealth of information on our website, including how to get in touch if you have any questions about the course you are considering, the admissions process, or the University itself.

We look forward to supporting you in your future learning.

Professor Ian White DL FREng
Vice-Chancellor and President

Next-level learning

Choosing Bath means getting an excellent education from leaders in their fields, delivered with flexibility that responds to your individual study needs. First-class facilities and skills development opportunities further enhance your master's experience.

"My lecturers like to provide lots of support, and they're always very flexible in scheduling convenient times to meet."

Eleonora
MSc Economics and Finance

Flexible learning

The delivery of our campus-based courses is mainly through in-person activities on campus, supported by online elements and structured independent study.

This approach enables us to support individual students' study needs and retain flexibility in course delivery when needed.

In-person teaching and engagement takes place each week on campus, making sure that your learning is worked through in practice, a key feature of Bath education. In addition, our online teaching includes both live, interactive learning sessions – allowing sharing and exploration of ideas within a group – and structured independent self-study.

We also provide both in-person and online student support services, including high-quality careers advice, health and wellbeing support, personal tutoring, and support for all our students, studying or working on campus or around the world.

Excellence in education

At Bath, we continually improve our courses by acting on feedback from our students. You'll be taught by teaching staff, researchers, and practitioners who are leaders in their fields using their research and industry links to inform course content and teach you the most up-to-date topics.

By the time you finish your master's, you'll have the skills to give you a competitive edge when entering the job market.

🔍 Visit go.bath.ac.uk/pgt23-teaching to find out more.

🔍 Visit go.bath.ac.uk/pgt23-learning to find out more.

Academic facilities

To help you get the most out of your time here, we're continually investing in teaching buildings, informal learning spaces, laboratories, and online learning materials for our students.

Depending on your course, you can also use our specialist facilities while studying, including our:

- acoustics lab with sound-pressure level meters
- artificial sky with light meters
- automatic motion capture system
- psychology observation suites
- refurbished Engineering laboratories
- 3D printers

You'll also have access to our Virtual Learning Environment, with course materials, quizzes, and recorded lectures for your subject.

Visit go.bath.ac.uk/pgt23-learning-facilities to find out more.

Study spaces

As a master's student, you'll always be able to find somewhere for independent study, whether you're on campus or in the city.

On campus, you can access learning resources, PCs, printers, and Wi-Fi in the Library, which is open 24-hours-a-day. You'll also have access to our postgraduate common rooms and other study areas.

If you want to study off campus, you can use our city-centre facilities, with University-networked computers and printers, so you're always connected to campus.

Visit go.bath.ac.uk/pgt23-study-spaces to find out more.

Skills development

As a Bath student, you'll have the opportunity to develop your academic, personal, and employability skills by fitting your own development programme around your course studies.

You'll have access to 'MySkills', where you can sign up for year-round online and in-person skills development sessions, including personalised writing support, and find additional resources to support your studies, your health, and your wellbeing.

You can develop your:

- academic skills - writing effective essays, applying critical thinking, referencing correctly to avoid plagiarism, managing your time effectively, honing your exam techniques, and improving your understanding of maths and statistics
- digital skills - raising awareness of a range of digital tools to support your academic study and future career, using these creatively to find innovative solutions, manage information, data and media, and participate and collaborate effectively online
- employability - developing your interview techniques, presenting with impact, making your CV and job applications stand out, and developing a range of soft skills such as team working, problem solving, and effective networking
- language skills - learning or improving a foreign language (we offer eight languages at different levels) and developing intercultural and communication skills to support your employability
- health and wellbeing - developing ways to look after your mental health and learning how to manage your finances

Visit go.bath.ac.uk/pgt23-skills to find out more.

Education powered by research

As a student at Bath, you'll be studying at a university that makes a real impact in the world through its research. We're ranked in the top 25 universities in the UK for research quality¹ and 92% of our research was defined as world-leading and internationally excellent by the Research Excellence Framework (REF) 2021.

Be educated by the experts

Your master's course will be directly influenced and improved by the research we do. You'll be educated by teaching staff and researchers who are leaders in their fields and use their research and links with industry to develop their course content and teach you the most up-to-date topics.

You can also volunteer to be a subject in many of our research studies, giving you an idea of how studies are run while you contribute to potentially ground-breaking research.

🔍 Visit go.bath.ac.uk/pgt23-research to find out more.

Get involved in research

During your master's studies at Bath, you'll have opportunities to take part in current research studies.

If you'd like to collaborate in a research project, you can apply to take part in a Vertically Integrated Project (VIP), working with other students, researchers, and members of staff. Our VIPs often focus on addressing global issues at a local level and are a great way for you to apply research techniques to real-world problems, as well as develop your collaboration, communication, and adaptability skills.

🔍 Visit go.bath.ac.uk/pgt23-vip to find out more.

Planning for doctoral study

If you plan to progress to doctoral study, getting involved in research as part of your master's can prepare you for this and help your application.

You'll also be able to meet current doctoral research students during your master's studies, either in the postgraduate-only study spaces or as part of your course, as they're often involved in teaching.

🔍 Visit go.bath.ac.uk/pgt23-doctoral-research to find out more.

¹ We're ranked joint 25th in the UK by the Complete University Guide 2023

RESEARCH WITH IMPACT

Our research aims to improve lives and change the world. Here are some examples of the impact our research has on society.

Developing a sustainable alternative to palm oil

How a yeast fed on waste could take a seat at the dinner table – and curb deforestation.

Culturing meat for sustainable nutrition

Growing meat instead of rearing animals to eat could radically change our diets. At Bath, we're leading on making it work at scale.

Keeping us safe from cyber threats

As our lives become ever more reliant on digital technology it can feel just a matter of time before we fall victim to cybercrime. Researchers at Bath are taking on this menace.

Creating a new way of storing and transporting vaccines without refrigeration

Our Chemists are developing technology to make vaccines stable in all temperatures by encasing them in sand.

Informing health policy around the world to reduce smoking and save lives

Our research is helping to reduce smoking and save lives, from informing public policy to the introduction of standardised packaging for cigarettes.

Stemming the flow of drugs into prisons

We're developing the world's first portable device that detects synthetic drugs.

🔍 Visit go.bath.ac.uk/pgt23-research-impact to find out about our research impact.

Diparati

Department of Computer Science

"My lectures are really fun, entertaining, and interactive, and we do a lot of activities in the class itself. Since our student group is really small, the lecturer-to-student ratio is good. I have a great relationship with my Director of Studies. She knows us all well and she knows our strengths. She's my supervisor for my dissertation as well, so it's helpful that my project aligns with her area of study.

The units I've studied here focus a lot on teamwork to help students go into the industry after the course. This is useful as employers look for teamwork experience on your CV. It teaches us transferable skills as well, like presentation skills and time management, which you'll require all throughout your professional life.

If you're working in a group, you can ask each other for help and share what you're planning for your coursework. Of course, if you have any doubts, you can always reach out to the lecturers. Everybody is very approachable here. I don't remember finding anybody on my course who wasn't supportive when I asked for help, so I make sure to be the same when people approach me too."

"I have a great relationship with my Director of Studies. She knows us all well and she knows our strengths."

Read my student blog at: go.bath.ac.uk/pgt23-diparati-blog

“When I wanted to work with an industry partner for my dissertation, my supervisor actively engaged with potential industry partners to find a good match for me.”

Go further in your career

Studying at Bath means you could become one of the most sought-after graduates in the UK.¹ 93% of our UK-based graduates are in high-skilled employment 15 months after leaving the university² so with our Careers Service's support and courses designed to offer you workplace-ready skills, you too could be one step closer to your dream career.

Visit go.bath.ac.uk/pgt23-careers-service to find out about the Careers Service.

¹ We're ranked 6th for graduate prospects by the Complete University Guide 2023, based on data from UK domiciled, full-time, first-degree students.

Expert careers advice

You can get advice and guidance from our Careers Service during your studies and throughout your working life. Using tailored online resources, workshops, group sessions, and one-to-one appointments, the team can help you:

- decide on and plan your future career goals
- understand how to search for jobs more efficiently
- prepare applications, including developing your CV and cover letter
- develop a professional online presence
- prepare for interviews and other recruitment experiences through mock interviews and assessment centre activities

Subject-specific guidance

You can also get support and advice, tailored to your area of study, from a Careers Adviser in your faculty. Through them, you can access extensive online resources, including sector briefings and guidance from Bath alumni working in relevant industries.

Meet a wide range of employers

The Careers Service also organises employer events and careers fairs throughout the year to help you meet recruiters and explore your career options.

Our events and resources are arranged in three categories:

- Career Essentials to help you succeed in all aspects of the application and selection process
- Career Discovery to find your dream job or further study opportunities
- Career Fulfilment for practical tools and advice on being successful and fulfilled in your future career

Visit go.bath.ac.uk/pgt23-careers-events to find out more.

Improve your employability with a new language

Learning a language can develop your intercultural awareness and increase your chances of being employed across the world and in international businesses.

Through our Skills Centre, you can choose to learn a new language or work on your existing skills. We offer classes in eight languages at different levels and, if English isn't your first language, you can join our weekly English language classes.

You can also make the most of our international community through our Virtual Exchange and Peer Assisted Learning (PAL) programmes which give you opportunities to develop your language skills with other students in a friendly, informal way.

🔍 Visit go.bath.ac.uk/pgt23-foreign-languages to find out more.

Working in the UK

If you're an international student and want to stay in the UK after your studies, you'll be able to apply for a Graduate route visa.

If you complete your master's degree, you'll then be able to work or look for work in the UK for up to two years after you graduate. If you complete a PhD or other doctoral qualification, you'll be able to stay to work or look for work for up to three years after you graduate.

If you are then offered a job that meets the Skilled Worker criteria, you can switch to this route. This visa can last for up to 5 years.

🔍 Visit go.bath.ac.uk/pgt23-graduate-route to find out more.

"My teachers have great connections with alumni in the industry and there's a huge network of Bath people out there that want you to succeed."

Rosario
MA Interpreting
and Translating

Extracurricular research projects

As a Bath student, you could take part in a Vertically Integrated Project (VIP), working with other students, researchers, and members of staff. Our VIPs often focus on addressing global issues at a local level and are a great way for you to apply research techniques to real-world problems, as well as develop your collaboration, communication, and adaptability skills.

🔍 Visit go.bath.ac.uk/pgt23-vip to find out more.

Doctoral research

If you plan to do a postgraduate research degree at Bath after your master's, you'll be joining a large research community with support and advice from our Doctoral College. You can gain transferable skills to take into your career through our DoctoralSkills courses, which develop your intellectual abilities, and cover areas like personal effectiveness, research governance, and public engagement. You'll also have the opportunity to teach while studying as a doctoral student.

🔍 Visit go.bath.ac.uk/pgt23-doctoral-research to find out more.

Our alumni stories

Jacklyne Betty Njeri studied MSc Business Analytics until 2017. She is now a Commercial Planner at Copia Global, a mobile commerce company in Nairobi, Kenya.

My lecturers truly and positively contributed to my confidence level both as a professional and as a person. It was an experience full of curiosity. There was a lot to learn from those I interacted with, and I enjoyed it. The course itself exposed me to new ways of resolving complex optimisation problems. I learned there's no shame in not having a solution to a problem, and I have found that it's sometimes the best place to start.

🔍 Read more of Jacklyne's story at go.bath.ac.uk/pgt23-jacklyne-betty-njeri

Kirsty Matthews completed her MBA in 1996. She is now CEO of Hft, a national charity supporting adults with learning disabilities.

The Bath MBA is a stepping stone into so many different possibilities. What I really liked about the course was the combination of theory and practical business experience. Through project work, we were able to apply what we had learned and ground it in reality. It was inspiring and gave me a strong sense that so much of what you do in building good business skills is about applying common sense and being brave.

🔍 Read more of Kirsty's story at go.bath.ac.uk/pgt23-kirsty-matthews

Nav Sawhney studied MSc Humanitarianism, Conflict and Development in 2020. He created The Washing Machine Project, a social enterprise designed to ease the burden of handwashing clothes for displaced people.

I wanted to combine my passion for humanitarianism with academic studies. I had the engineering skills to create a manual-drive washing machine, but I didn't know who was going to use something like this. The course really taught me the lay of the land. Gen Z is angry right now at the world that they're inheriting, and they want to change things but may not know how. Courses like this equip you with those skills.

🔍 Read more of Nav's story at go.bath.ac.uk/pgt23-nav-sawhney

Zihan Zhou studied MSc Drug Discovery in 2021 after receiving the Global Leaders Scholarship and is now pursuing doctoral study.

With great teaching resources and a rich science pedigree, I really wanted to study my master's degree at Bath. The University offers a range of scholarships for overseas students, including the Global Leaders Scholarship and GREAT scholarships. After submitting my application for the scholarship, Bath informed me I had been chosen as a candidate. I was very excited about this news, and it also gave me far more confidence to study abroad. I could also see the pride it gave my parents, teachers and classmates.

🔍 Read more of Zihan's story at go.bath.ac.uk/pgt23-zihan-zhou

Toby Thwaites studied MSc Engineering Business Management until 2019. He is now a Business Development Lead for Princess Yachts, a British luxury yacht manufacturer.

There's a real community feel on campus and among your course mates too. There are lots of social events for postgraduates, which help you settle in quickly. Alongside this, our course leaders also organised activities, all of which contributed to an open and positive environment to learn and enjoy myself. I joined the yoga society and played badminton as well. Exploring the beautiful city and surrounding countryside always kept me busy in my downtime.

🔍 Read more of Toby's story at go.bath.ac.uk/pgt23-toby-thwaites

Jay Didcott studied MSc Data Science in 2020 and is a Data Science Consultant for an international technology company.

Data science is a broad and new subject, and Bath teaches both the theoretical and practical elements across fundamental and cutting-edge research areas. Assessments test not just your technical skills, but also how you answer ambiguous questions that you face in industry. By the end of the course, I felt ready to enter the workplace as a Data Scientist. In 2020, Forbes even ranked the course in the top 10 Data Science programmes globally.¹

🔍 Read more of Jay's story at go.bath.ac.uk/pgt23-jay-didcott

¹ The 10 Best AI And Data Science Master's Courses For 2021, forbes.com.

Support from our alumni

As a Bath graduate, you'll belong to a global community of over 125,000 alumni in more than 170 countries, as well as around 500 remarkable honorary graduates.

The Alumni Relations team helps our graduates stay in touch with each other and with the University. There are Bath alumni working in amazing places all around the world, so you can benefit from a wealth of experience at our Get Connected networking events and through mentoring.

Investing in your future

Alumni also support our students through donations. These help to pay for some of the experiences that make Bath so special, as well as funding scholarships and awards to help exceptional students and graduates reach their full potential.

Support for aspiring entrepreneurs

If you have an idea for a business, you can take part in Enterprise Bath's Entrepreneurship Programme. You could get mentoring and find networking opportunities, helping you turn your idea into a full business plan. Sign up for workshops, speaker events, masterclasses, and competitions, all designed to give you the industry knowledge you'll need for the future.

Stay connected

Bath students and graduates have exclusive access to our networking site, Bath Connection, to get in touch with graduates around the world. You can ask questions about working in a particular industry or find a mentor to learn from someone who has been at Bath and wants to help you succeed.

🔍 visit go.bath.ac.uk/pgt22-bath-connection to find out more.

🔍 visit bath-setsquared.co.uk/ented to find out more.

Xintong

MSc Management

"My advice to a new student is to use the Careers Service resources as much as possible. I know many students may be busy with their lectures and coursework, but I think it's useful to spend some time reflecting on yourself and finding out what kind of job you want.

I booked a meeting with the School of Management Careers Officer. They make different suggestions based on each person's progress. I did some mock interviews with them because I'd found it hard to show my abilities in interviews before. It was good practice for me, and the officer told me to reflect on my past experience to find links with the role and present my story in a logical way.

My Student Experience Officer also gave me some very useful advice about questions that might be in a job interview. They said I might be asked to show teamwork ability, data analysis skills, and problem solving. It's helped me to be more organised for my next interview.

I've become more resilient during my master's and now I feel able to adapt to different situations in the future too."

"I've become more resilient during my master's and now I feel able to adapt to different situations in the future too."

"The people I've met throughout the course and at the University – they've had an impact which is going to stay with me for years."

Ehtesham

Living in Bath as a student

Bath is a lively, friendly, and historic city, surrounded by beautiful countryside. The city is home to global businesses and start-up companies, so you can find local employment opportunities while you study and when you graduate.

"Bath is very walkable. I just walk with my friends and keep finding new places. That has to be my favourite thing about the city"

Diparati
Department of Computer Science

A historic city

Bath is a UNESCO World Heritage Site, both as one of the Great Spas of Europe and for its Roman heritage and Georgian architecture.

As a student here, you can immerse yourself in Bath's history and beauty by visiting the famous Roman Baths and admiring the grand 18th century buildings.

The Roman Baths

A vibrant student community

As a master's student at Bath, you'll be living in a city that is full of opportunities to get involved in student-led activities and local events throughout the year.

The University works with the local council to make Bath a great place to live and many of our students stay in Bath after their time at the University.¹

A safe city

Bath has a friendly community atmosphere and is ranked the safest university city in England and Wales, and sixth safest in the UK.² Our Security team works with the local emergency services to help keep our students and the local community safe.

The city has a multicultural population, and over 5,500 overseas students were enrolled on courses in the city in the 2020/21 academic year.³

Social life

When you want to go out for a meal with friends, Bath has plenty of restaurants and cafés to choose from, many of which offer student discounts. You'll find lots of well-known chains in the city, as well as independent places offering a variety of cuisines, including European, Chinese, Indian, Thai, and halal dishes.

If you're looking for bars, pubs, and clubs, there's a great selection, ranging from cosy and quiet to late-night and noisy.

Bath has three cinemas and three theatres, including the Theatre Royal where you can watch West End plays.

There are also cultural events throughout the year which have included:

- Bath Festivals, a series of multi-arts events
- FilmBath Festival
- Bath Comedy Festival
- Bath Fringe Festival

¹ About 1,050 University of Bath graduates currently live in Bath.

² Bath was ranked the safest university town or city in England and Wales, and the sixth safest in the UK, by the Complete University Guide (23 March 2022).

³ Based on Local Government Inform's data on the number of higher education student enrolments from outside the UK (2020/21 (academic)) for Bath and North East Somerset.

A unique destination for shopping

Bath has an exciting mix of luxury, high-street, and independent shops, so you should always be able to find what you're looking for. You can browse for well-known brands or explore the picturesque alleyways and side streets for artisan gems. There are also regular markets and popups, run by local traders, for a one-of-a-kind shopping experience.

There are three large supermarkets in the city centre and numerous international food shops in the local area that sell African, Asian, Caribbean, Indian, Mediterranean, Middle-Eastern and Polish goods.

Enjoy the outdoors

There are lots of outdoor spaces to relax in the city, including squares with kerbside cafés and leafy parks and gardens.

If you like to stay active, the city and surrounding countryside are perfect for walking, running, and cycling, with access to National Cycle Network routes to help you explore the area with friends.

There are also places to go swimming, both indoors and in the wild, as well as Cleveland Pools, Britain's oldest lido, which is due to reopen in 2022. If you prefer to stay dry on the water, you can hire a rowing boat, paddleboard, canoe, or punt on the River Avon.

Art and culture

While studying at Bath, you and your friends can immerse yourselves in arts and culture in the city. There are lots of museums, galleries, and historic sites to explore, including the ancient Roman Baths and Georgian streets filled with stunning architecture.

Open to innovation

There's a thriving local economy in Bath, giving you a wide range of employment opportunities with leading organisations across different industries.

Living in Bath also gives you the chance to go to industry events, like Bath Digital Festival, where you can meet potential employers and make contacts for the future.

Examples of innovative Bath-based employers include:

- engineers, Buro Happold, who designed Tottenham Hotspur F.C.'s new 62,000 capacity stadium
- landscape architects, Grant Associates, designers of Singapore's environmentally sustainable Supertrees
- manufacturer, Avon Rubber, which produces the world's most advanced underwater life-support for military divers

🔍 Visit bathunlimited.org to find out more about innovative businesses in Bath.

Beyond Bath

Bath is a gateway to the beautiful South West and beyond and it's easy to get out and explore from the train and coach stations in the city centre.

You could go to the Jurassic Coast of Dorset and Devon, surf in Cornwall, or visit nearby towns and cities. Trains take about:

- 15 minutes to Bristol
- 1 hour and 10 minutes to Cardiff
- 1 hour and 20 minutes to London

🔍 Visit go.bath.ac.uk/pgt23-living-in-bath to find out more.

Your accommodation

You can apply for postgraduate accommodation to suit you. Our goal is to make Bath feel like home by creating a community that celebrates individuality within our accommodation. This can help you to create lifelong memories and lasting relationships with your housemates.

🔍 Visit go.bath.ac.uk/pgt23-accommodation to find out all you need to know about our accommodation, including prices for the current academic year

University-managed accommodation

We believe in keeping things simple. Whether you choose to live on campus or in the city, rent is all-inclusive, which means gas, electricity, water, and fast Wi-Fi are included as part of your accommodation package, as well as contents insurance to protect your belongings.

Our postgraduate accommodation in the city is close to Bath's shops, restaurants, and bars. It's also close to bus stops with regular services to campus. Alternatively, you can walk or cycle.

🔍 Visit go.bath.ac.uk/pgt23-accommodation-packages to find out more.

Accommodation to suit your needs

You can apply for accommodation to suit your budget and your lifestyle, including:

- self-catered accommodation
- single or double rooms
- shared bathrooms or en-suite rooms
- single and mixed-sex flats
- family accommodation

More than a room

Choosing University accommodation offers you more than just a room.

Support whenever you need it

Our Student Living team is here to support you by developing a sense of community, connecting you with key services, and helping you with any issues.

Helpful, friendly faces

As part of a Postgraduate Package that we offer all our postgraduate students our Student Living Assistants can help you with any concerns. They run social activities and keep you up to date with the latest events.

Among the benefits of your Postgraduate Package, you'll also receive coach transfer from your arrival airport to your accommodation, a welcome goodie bag, and a city tour to help you settle in.

🔍 Visit go.bath.ac.uk/pgt23-accommodation-packages to find out more.

Polden accommodation, University campus

Canal Wharf accommodation

A secure environment

Bath is ranked the safest university city in England and Wales,¹ so you can feel safe and secure during your time here. Our dedicated accommodation Security team is available to help 24-hours-a-day. You can contact our friendly and approachable officers by phone or by stopping by the security desk in the Library.

Additional requirements

We're committed to providing a safe and happy environment for you to live in, whatever your choice of accommodation. For example, if you're trans or gender diverse we may be able to offer you an en-suite bedroom or a studio.

Our guarantee

If you're an eligible overseas postgraduate student and apply for accommodation before the closing date, we'll guarantee you a place in our accommodation.

If you're a postgraduate student from the UK, you can apply for rooms in University managed accommodation, but we cannot guarantee you a room.

🔍 Visit go.bath.ac.uk/pgt23-room-allocation to find out how we allocate University managed accommodation.

Privately managed accommodation

If you prefer to live in privately managed accommodation, our Student Living team is here to help you.

In privately-owned accommodation, you usually need to pay for gas, electricity, water, and Wi-Fi separately to your rent.

¹ Bath was ranked the safest university town or city in England and Wales in 2022 by the Complete University Guide.

"I live off-campus in Aquila Court. I really love it because it's brand new, you can get anywhere in town by foot, and the bus stop is just outside so it's very convenient to come to campus."

Milty
MSc Marketing

"I really like the postgraduate space in 10 West. It's nice to have that bit of exclusive space where you can just quietly get on with your own thing."

Alex
MA Gender and
Politics

The heart of our community

At the centre of campus is the Parade. This wide walkway has access to the Library and Students' Union building. From here, you don't have to walk far to reach any of our other facilities, including:

- teaching and study areas
- shops and Post Office
- cafés, restaurants, and bars
- the IT Shop
- the Sports Training Village
- The Edge arts and creativity hub
- the Medical and Dental centres

Take a virtual tour of our campus:
go.bath.ac.uk/pgt23-virtual-tour

Campus grounds

Our campus

Our campus is where our community comes together. There are lots of places to study, meet with friends, relax in green spaces, and buy food and drink. With a diverse and welcoming atmosphere, you're sure to find a place you belong.

Study spaces

There are spaces you can use throughout campus, whether you want to study on your own or with friends. As a master's student, you can use our postgraduate common rooms as well as our 24-hour library, which has PCs and Wi-Fi throughout.

Green spaces

Wherever you are on campus, you're never far from a patch of grass.

You can sit in the amphitheatre overlooking the lake and fountain in the centre of campus or find an open field to play a game with friends. For a scenic walk or run, there's the Woodland Walk on campus or the National Trust Bath Skyline Walk with views over the city and the Cotswold countryside.

Socialising on campus

You'll find lots of places on campus where you can meet up with friends or make new ones. Our campus reflects the diversity of our students. Whether you want food or drink, a quiet spot outdoors, or somewhere comfortable to chat, you can find your place on campus.

Safety and security

Whether you're on campus or in University buildings in the city, you'll have the support of our Security team, day or night.

All security staff are trained in first aid and mental health first aid. They can offer welfare support and help you with crime prevention.

Visit go.bath.ac.uk/pgt23-security to find out more.

Getting to campus

Getting to campus from Bath city centre is quick and easy.

During term time, you can catch one of the bus services from Bath. They take around 20 minutes to reach campus from the city. There are stops all over town, many close to the postgraduate accommodation, and you can get discount tickets as a student.

If you prefer to walk or cycle you can choose from various routes that give you stunning views of the city. You can also get a taxi with friends from the city to the campus.

Visit go.bath.ac.uk/pgt23-travel-advice to find out more.

Be part of our community

The people you meet at university can have a huge impact on your time as a master's student. With activities, classes, societies, and sports to suit your interests and help you get involved, you can make lifelong friends and find a place to belong at Bath.

Campus Parade and Library

Your Students' Union

When you join Bath, you'll automatically become a member of The SU (Students' Union). The SU is here to empower you, equip you, and help you have an unforgettable university experience.

Join a group

Through The SU, you'll be able to join over 180 student groups. You're automatically part of The SU's postgraduate community, which runs events, highlights issues, and puts you at the heart of University life.

You can join other groups based on your academic, sporting, cultural, and social interests. SU groups are a great way to make friends and find your place in the University in an informal setting.

Be supported

The SU has an independent Advice & Support Centre with trained advisors who offer confidential, non-judgemental support for any problems you might have during your time at Bath.

There are also student-led support groups which run campaigns and awareness activities on issues such as diversity and inclusion, and mental health and wellbeing.

See pages 54 to 63 to find out more about being supported at Bath.

Your academic community

As a postgraduate student, your academic department is the first of many Bath communities you can become a part of. You'll be encouraged to contribute to discussions in lectures and seminars and get one-to-one support from our teaching staff to help you form your own views on the topics covered during teaching hours.

Outside your studies, you can take part in your department's seminar series, public lectures, and course socials, where you'll meet like-minded students and can network with academics in your field.

Be represented

As a part of our postgraduate community, you'll be represented in The SU and throughout the University by the Postgraduate Officer. The Postgraduate Officer aims to make sure that the voices of all postgraduate students are heard. You can contact the Postgraduate Officer to raise concerns about all aspects of life at Bath, including student welfare and educational support.

🔍 Visit go.bath.ac.uk/pgt23-su to find out more about the SU.

Your sports community

Sport and fitness activities are a great way to make friends and balance your studies with something energetic. At Bath, you can get involved whatever your level of ability and experience.

Playing sport

As a Bath student, you can join one of the 49 sports clubs run by The SU. Each club welcomes new members, whether you're a novice or a professional.

The SU also runs Bath Active, which provides free, low-commitment sport and physical activity sessions, including opportunities just for postgraduate students. These activities include yoga, touch rugby, dance fitness, and football.

You can also get involved in personal development opportunities through coaching and volunteering. If you want to get more competitive, you can try out to represent Bath in British University and College Sport (BUCS) matches or you can just support your friends from the sidelines as they take on other universities.

Visit teambath.com to find out more about Team Bath and its activities and services.

Visit thesubath.com to find out more about student clubs and activities.

"The Sports Training Village is amazing; it's so cool to see how massive it is"

Sophie
MSc Management with Marketing

Sports facilities and services

When you start at Bath, you'll be able to use the Team Bath Sports Training Village (STV) to keep fit, play sports, socialise, and get training and fitness support from expert members of staff whatever your ability. You'll have access to facilities used by athletes who competed in the Tokyo 2020 Olympic Games, winning nine gold

medals between them. You'll get access to many of these facilities free of charge with your Sports Pass, which is activated through your student library card. You can also take advantage of special student membership offers for the Team Bath Gym & Fitness Centre.

		
<p>Team Bath Gym and Fitness Centre</p>	<p>Multi-purpose sports hall</p>	<p>Rugby, football, lacrosse and cricket pitches</p>
<p>200 workout stations across three zones, plus studio spaces.</p>	<p>2,000-seat arena with sprung-wood floors. For badminton, volleyball, frisbee, netball and other sports.</p>	<p>Grass match pitches and a 3G training area.</p>
		
<p>Olympic-sized swimming pool</p>	<p>400 metre outdoor athletics track</p>	<p>Indoor athletics track and hall</p>
<p>Professional-standard 50-metre London 2012 Legacy pool available to everyone for regular lane-swimming.</p>	<p>Floodlit track and multipurpose infield overlooked by a viewing balcony.</p>	<p>130 metre sprint track plus throwing and jumping facilities and squad weight-training area.</p>
		
<p>Tennis courts</p>	<p>Judo dojo</p>	<p>Indoor and outdoor shooting and laser ranges</p>
<p>Eighteen courts, indoors and outdoors, with different surfaces.</p>	<p>300m² dojo based on a traditional Japanese style.</p>	<p>Three ranges, one indoors and two outdoors.</p>
		
<p>Hockey pitches</p>	<p>Fencing salle</p>	<p>Physio and Sport Science Centre</p>
<p>Two all-weather, floodlit pitches also used for five-a-side-football.</p>	<p>Eight indoor fencing pistes.</p>	<p>Physiotherapy, hydrotherapy, sports massage and more provided by experts in our facilities.</p>

Your arts community

Managed by the SU, our campus creativity and wellbeing hub, The Edge, offers performance, rehearsal and workshop spaces where you can get involved and enjoy arts, culture and wellbeing activities.

You can take part in activities that will help you find new ways to problem solve and innovate, as well as meet students on different courses and expand your horizons. The SU Arts Team can help you develop skills to support your studies, your career, and your mental health.

"At The Edge, there's a bunch of music rooms fully equipped with amps. The fact that you can just book one – I think that's incredible"

Upasruti
MSc Applied Psychology and Economic Behaviour

Visit thesubath.com/arts to find out more about arts at Bath and The Edge.

Arts and cultural societies

Join groups through the Students' Union.

Themed workshops

Get involved in workshops on wellbeing, study techniques, and sustainability.

Classes

Do ballet, mindfulness sessions, and more.

Performances

See plays, concerts, and other performances in the theatre.

Andrew Brownsword Gallery

Go to art exhibitions on campus.

Music tuition

Learn from expert music tutors, subsidised by the University.

Music rehearsal rooms

Use our rehearsal rooms to practice solo or as a group.

Scholarships and awards

Apply for an arts award to support your artistic ambitions.

Protecting our environment

Our community is committed to researching ways to reduce the effects of climate change. We're also improving our sustainability and reducing the impact our systems, staff, and students have on the environment.

Our Climate Action Framework

Between 2005 and 2020, even as we've developed our campus facilities and infrastructure, our carbon emissions fell by 45%. In 2020, we set out our eleven Climate Action Framework principles. These are our commitments to further address the climate emergency. They include targets to:

- achieve Net Zero in University vehicle emissions, refrigerant losses, heating, and electricity by 2030
- halve emissions from purchased goods, services, waste, and all travel by 2030, with full Net Zero by 2040
- develop our curriculum over the coming years to create opportunities for every student to study and work on climate-related issues

Education for change

We were the first university to include Carbon Literacy in our induction for all new students. This means you can gain accreditation with the Carbon Literacy Project by making climate action pledges to achieve meaningful change.

You can take part in Vertically Integrated Projects to work with local councils and organisations, locally and globally, on real-world sustainability challenges. You can also get involved in our Climate Action work. For example, in 2021 and 2022, students helped create principles for climate-aligned research and education at the University.

Research for change

Many of our researchers are looking at the impacts of climate change and investigating ways to reduce emissions and protect the environment. We have several research institutes and centres dedicated to this, including:

- The Centre for Climate Change and Social Transformations
- The Centre for Sustainable and Circular Technologies
- The Institute for Advanced Automotive Propulsion Systems
- The Institute for Sustainable Energy and the Environment

Our environmental research includes:

- informing global policy and decision making around climate change go.bath.ac.uk/pgt23-climate-policy
- promoting the use of economic valuations of environmental damage go.bath.ac.uk/pgt23-environmental-damage
- strengthening national vehicle pollution policy and standards go.bath.ac.uk/pgt23-pollution-standards
- working with Ford to develop globally unique experimental and simulation techniques, and saving CO₂ in the process go.bath.ac.uk/pgt23-simulation-techniques
- designing more efficient power gas turbines go.bath.ac.uk/pgt23-gas-turbines

Collaborating with other universities

We're a member of the COP26 Universities Network, a growing group of more than 40 UK based universities working together to provide the government with academic expertise on climate issues. The Network has been meeting since 2019 to discuss and agree on the plans for our contributions to a low-carbon world.

We're a part of The Alliance for Sustainability Leadership in Education (EAUC). We work with colleges and universities across the UK and Ireland to make higher education as sustainable as it can be.

We are also members of the GW4 Climate Alliance, collaborating together with the Universities of Bristol, Cardiff and Exeter through research, education, and professional services to reduce our climate impacts.

Generating our own power

Our Combined Heat and Power plants on campus are over two times more efficient than a standard power station. During a typical year, they generate enough electricity to power 540 houses.

These mini 'power stations' also recycle their waste heat on-site, which keeps our Olympic-sized swimming pool warm and creates hot water for showers.

We also have five large sets of solar panels on our buildings, with more to come, and the rest of our electricity comes from zero carbon sources.

Reducing our waste

Our students and staff are actively involved in helping to reduce waste on campus. As a student at Bath, you can help by:

- bringing your own reusable cup when you buy drinks on campus, which saves you 20p on all takeaway drinks
- borrowing and returning a reusable cup at our cafés instead of buying a disposable one
- buying discounted food through our Munch Box scheme, which saves surplus food from being thrown away

At the end of each term, you can take part in the Pack for Good campaign and donate unwanted things to charity when you move out of your accommodation.

In 2021, we donated nearly 19 tonnes of second-hand clothes, utensils, electronic equipment, and books to the British Heart Foundation through the campaign, raising an estimated Bath city total of £32,000 for the charity. Since the campaign began in 2012, we've raised a total of £554,000 through charity donations.

Visit go.bath.ac.uk/pgt23-climate-change to find out more

Will

MSc Drug Discovery

"What I'll take away from Bath most are the people I've met and the opportunities that have arisen from being here. The people on my course – they're absolutely amazing. We've got on really well, and, because there're only 18 of us, it's like a little family.

If I have any problems, I know who to go to. You can easily email lecturers to arrange a Microsoft Teams call or a meeting. The fact they make themselves available to us – it's a big benefit, not just academically, but emotionally and personally.

I really like Bath because you've just got to come to the campus and everything's there. It's very easy to get around, and you know where you're going because everything's located in relation to the Library.

One nice surprise was that every Bath student can book free tennis courts, free swim lanes, football pitches, hockey pitches, and so on. I've used the athletics track and the swimming pool a lot, and I try to use the tennis courts as much as possible. You're at the University to study, but you're also there to grow as an individual and become a better person, so it's good to try other things.

I've changed from the person I was at the start of my master's. I feel more confident, and I wouldn't have got that if I hadn't come to Bath."

"I've changed from the person I was at the start of my master's. I feel more confident, and I wouldn't have got that if I hadn't come to Bath."

"It was super nice that during Freshers' Week there were so many postgrad events. It's great being supported to not only achieve great results academically, but also socially."

Eleonora
MSc Economics
and Finance

Supporting you

We're here to support you throughout your Bath experience. Our specially trained staff and students have the tools to help you through any troubles you face, including wellbeing, money, faith, health, and mental health concerns. We also believe in helping out with course fees where we can, and awarded 200 postgraduate scholarships in 2021 alone.

Discover more:
go.bath.ac.uk/pgt23-study

Health and wellbeing support

A big part of belonging at Bath is feeling supported throughout your studies. By coming to Bath, you'll be part of a community that looks out for each other, and you'll have access to any support services you need to help you make the most of your time here.

Support from staff

We understand that different people need to be supported in different ways. If you'd like to talk to a member of staff about a problem, there are lots of people you can turn to, including doctors, counsellors, and chaplains.

The Student Support team organises a lot of the support and guidance, including counselling and mental health, disability support, money management, and international student advice.

Visit go.bath.ac.uk/pgt23-student-support to find out more

The Wellbeing team

"I was struggling with anxiety when my course started. Through the mental health support team, I was able to really quickly access support for that and get myself back on track."

Beth
MSc Molecular
Biosciences

Health and wellbeing services

As a Bath student, you'll have access to health and wellbeing services on campus, so you know that any support you need is always close by.

The Medical Centre provides NHS services, including doctor's appointments and prescriptions. The Dental Centre offers NHS and private treatment.

If you feel stressed or depressed, you can get free and confidential help and support from the Therapeutic Services & Mental Health team. You can also contact our Wellbeing Advisors, who will try to help you with anything that's on your mind.

Our confidential Be Well - Talk Now service is also open 24-hours-a-day, throughout the year, for immediate advice and support as well as counselling in English and other languages. It's accessible from around the world, by phone, video call, or live chat, including during holidays and placements.

Money advice

You can contact the Student Money Advice team if you need help with your finances. They offer confidential guidance and support on applying for funding and loans and managing your money.

Visit go.bath.ac.uk/pgt23-money-advice to find out more

See [pages 62 and 63](#) for more information on funding your studies.

Disability support

The Disability Service is here to support you through your application and time at Bath if you have:

- mobility and sensory impairments
- specific learning difficulties
- autistic-spectrum conditions
- mental health difficulties
- long-term medical conditions

Visit go.bath.ac.uk/pgt23-disability-service to find out more

Faith-based support

The Chaplaincy on campus plays an important role in our community and welcomes people of all faiths and none. There is a Chaplain on call for students every weekday and we have a Muslim prayer room on campus with washing facilities.

Visit go.bath.ac.uk/pgt23-chaplaincy to find out more

Support for students who may be vulnerable

If you're a refugee or young adult carer, we'll put you in contact with a member of our Student Retention and Success team when you start your course. You can meet with them regularly and they'll help you get any support and advice you need, including extra financial support if possible.

For more information, visit: go.bath.ac.uk/pgt23-student-carer-support

Visit go.bath.ac.uk/pgt23-student-refugee-support

Childcare

Our on-campus nursery provides childcare for children from six months old to school entry age. You can apply for childcare when you're offered a university place.

Visit go.bath.ac.uk/pgt23-nursery to find out more

For guidance about being a parent at university, visit go.bath.ac.uk/pgt23-student-parents

Supporting you as an international student

Moving to the UK to study for your master's is an exciting step and we provide a range of services to make moving here as simple as possible. Our international students are a huge part of the vitality and diversity of life at Bath, so we aim to help each student feel like they belong as part of our community.

Your peer mentor

Depending on your academic department, you might be allocated with a peer mentor to help you settle into postgraduate life. Most peer mentors are doctoral students. They'll have studied a similar master's course to yours so will be able to guide you through any problems you have or suggest other people to talk to if you need specific support.

🔍 Visit go.bath.ac.uk/pgt23-su to see all the ways The SU can support you.

Support from students

If you'd prefer to talk to a fellow student than a member of staff, our Students' Union (The SU) runs schemes that can help you find support.

Someone to listen

The SU has an independent advice service that can guide and support you with any problems during your time at Bath. The SU also runs Nightline, a confidential listening, support, and practical information service. It's run by trained students, for students. You can talk to them about anything, big or small, in confidence, remaining fully anonymous. They won't judge you or tell you what to do. They'll simply listen.

"If you're stuck and you don't know where to begin, it's not just the Wellbeing Service that's there to help, it's basically everyone. That's helped me a lot."

Shavrani
MSc Engineering Business
Management

Our international community

If you study at Bath, you'll be one of more than 5,600 international students at the University.

When you arrive at Bath, you'll automatically become a member of the Students' Union. They organise regular events to help you meet other international students and settle into life in the UK.

You can also join over 180 student groups, or become a community volunteer, to help you make new friends, learn about British culture, and improve your conversational English.

Application support

If you're thinking of applying to study at Bath, our Central Postgraduate Taught Admissions team can give you advice and guidance about:

- fees
- entry requirements
- the application process

Email pgtadmissions@bath.ac.uk if you have any questions or concerns. See page 72 to find out about the application process.

Visas and immigration support

As an international student, you'll need a visa to study in the UK.

When you apply to study at Bath, you can contact our Student Immigration Service for advice about visas and moving to the UK.

You can also contact them throughout your time at Bath with any questions about visas and immigration. The Student Immigration Service can give you advice about:

- what type of visa you need
- applying for a visa
- bringing your family to the UK
- academic engagement monitoring
- placements for visa holders
- working in the UK
- what to do if you lose any of your documents while in the UK
- extending your Student visa
- UK post-study work visas after you graduate

Visit go.bath.ac.uk/pgt23-visas or email studentimmigrationservice@bath.ac.uk to find out more.

Accommodation support

At Bath, you can apply for different types of accommodation depending on your preferences and lifestyle. As an international student, we guarantee to find accommodation for you, if you apply for it before the deadline.

You can contact our Accommodation team with any questions while you're applying and throughout your time at Bath. They're available to help you with anything to do with University managed accommodation, including:

- fees and payments
- maintenance
- household disputes

See page 38 to find out about accommodation.

Arriving at Bath

As you move to Bath and start your studies, we'll support you through every step. We can collect you by coach from London Heathrow Airport and take you straight to the University. We can also help you settle into your new accommodation.

We organise a welcome programme of events for our international students, including information sessions, tours of the campus and city, and social events. If you have any concerns, you can speak to our Student Support advisors at one of our daily drop-in advice sessions.

English language and skills support

If English is not your first language, we'll offer you English language and skills development support while you study. This is designed to help build your confidence in reading, writing, and speaking English and enable you to develop the wider range of skills you need to complete your academic study successfully and secure future employment.

Visit go.bath.ac.uk/pgt23-skills to find out more.

You can also attend a pre-session course in the summer before your course starts. If you complete the course, you'll be able to start your master's study with the English language skills you need, without having to take another IELTS test.

Our pre-session course also gives you the chance to meet other international students and will help you to make a smooth transition to the UK. You'll be able to learn more about the University, the city of Bath, and the wide range of development opportunities and leisure activities available.

Visit go.bath.ac.uk/pgt23-pre-sessional to find out more.

Financial support

Studying for a master's degree is an investment in your future. At Bath, our financial support can help take away the stress of money so you can focus on succeeding in your studies and improving your career prospects.

Scholarships

A scholarship to Bath is a reward for your academic achievements and a prestigious honour that can help you reach your goals. Wherever you're from in the world, you could be eligible to apply for one of our scholarships.

Deans Award for Academic Excellence

Awarded on the basis of strong academic credentials and a demonstrable background of achievement and success. Each award is worth £5,000 with twenty-four available.

Global Leaders scholarships

Awarded for leadership potential based on academic excellence, exceptional communication and interpersonal skills. Scholarships are worth £5,000 with forty-five available.

School of Management MSc scholarships

A range of scholarships from £5,000 to £10,000 each, with over thirty scholarships available.

MBA scholarships

A range of scholarships available to outstanding applicants.

These scholarships are open to Home and Overseas applicants for our full-time, campus-based courses.

🔍 Visit go.bath.ac.uk/pgt23-funding to explore all funding opportunities and the most up-to-date information about our financial support.

Postgraduate master's loans

If you're an eligible UK master's student, you can apply for a loan to help you with tuition fees and living costs.

🔍 Visit go.bath.ac.uk/pgt23-masters-loans for more information.

Funding for Bath graduates

Bursaries for UK students

You could be eligible for a Postgraduate Master's Bursary worth either £5,000 or £10,000 if you:

- are a UK student
- graduated from Bath with an undergraduate degree (BSc, BA or BEng) with no more than one-year study break before starting your master's course
- previously received an undergraduate Bath Bursary or Gold Scholarship

🔍 Visit go.bath.ac.uk/pgt23-bursaries for more information.

Bath alumni discount

If you've graduated from the University of Bath with an honours degree or equivalent and are self-financing, you may qualify for a 10% discount on tuition fees for a postgraduate course. We'll automatically discount your fees if you receive an offer to study any full-time master's course here.

🔍 Visit go.bath.ac.uk/pgt23-alumni-discount for more information.

Additional support

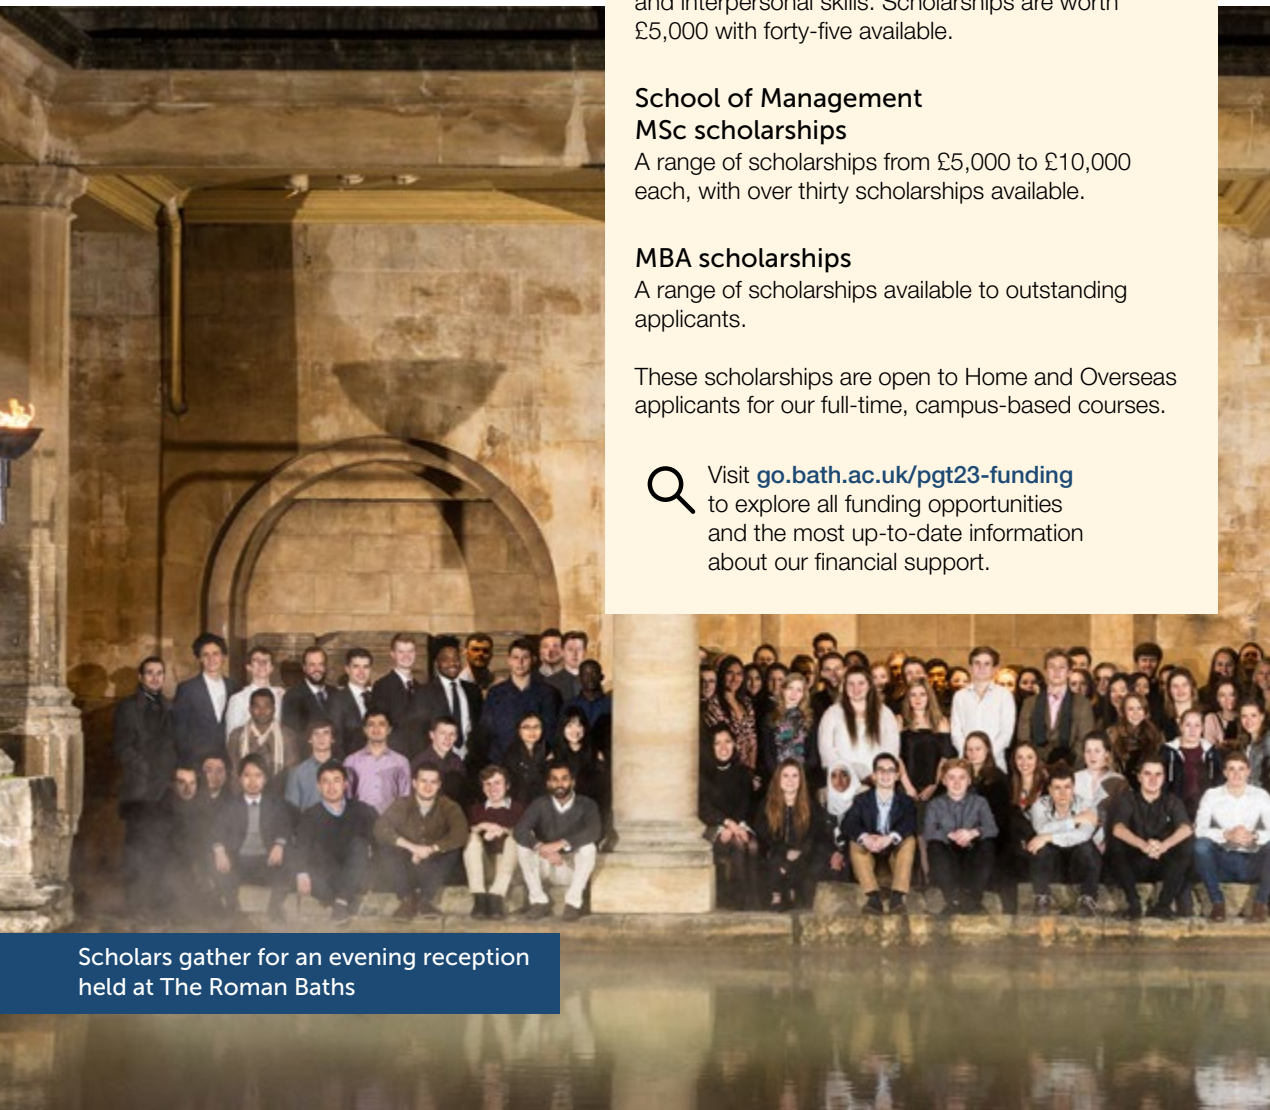

Throughout your studies, you can contact our Student Money Advice team for advice about managing your money, funding, and finding income.

🔍 Visit go.bath.ac.uk/pgt23-money-advice to see how the Student Money Advice team can help.

Part-time work

The city of Bath has a thriving local economy with a wide range of employment opportunities. The University also employs over 2,000 students in roles including bartender, barista, retail assistant, and Student Ambassador.

🔍 Visit thesubath.com/jobs to see what jobs are available.

Scholars gather for an evening reception held at The Roman Baths

Alex

MA Gender and Politics

"I completed my undergraduate degree in maths, and I was lined up to do a research master's in statistics in healthcare and transgender issues. When the pandemic started, my plans changed, and I decided to apply to Bath to study the MA in Gender and Politics.

Through the numerous national lockdowns at this time, I found that my mental health wasn't in a great place. My student finance got messed up from the year before and I had some issues relating to my disabled students' allowance. After speaking with some of the staff at the University of Bath, they were able to help me by doing a mini-assessment and determined that they felt I would be able to get an allowance. Through them, I was able to get it sorted. Throughout the whole experience I felt very supported, and at no point did I feel like I was dealing with my student finance problems by myself.

Before starting the course, I was a bit anxious as, although I'd had a lot of experience writing policy documents for the NHS, I hadn't as much experience with writing academic essays as my background was in another subject. The staff at the University were really reassuring and they told me about courses on essay writing, skills workshops, and wellbeing sessions that were available to students."

"Throughout the whole experience I felt very supported, and at no point did I feel like I was dealing with problems by myself."

"I was worried my experience wouldn't be enough for such a technical degree. The Director of Studies was kind enough to answer my concerns and reassure me that my professional experience was more than enough."

go.bath.ac.uk/pgt23-study

Choosing your course

Applying for a course at Bath gives you the choice to study in person or online while you specialise in a subject that matches your interests and career ambitions.

Course subjects

- Architecture and civil engineering
- Business, finance, management and marketing
- Chemical engineering
- Computer science
- Drug discovery
- Economics
- Education
- Electronic and electrical engineering
- Sport, Exercise and Health (Health and Wellbeing, Sport and Exercise Medicine, Football Medicine, Sports Physiotherapy, Sport Management and Global Public Health)
- Interpreting and translating
- Mathematics
- Mechanical engineering
- Molecular biosciences and biotechnology
- Politics and international studies
- Psychology
- Social and policy sciences

Course formats

Depending on the subject you want to study, you can choose to apply for a campus-based, distance learning, or online course. Whichever format you choose, all our courses are taught with the same level of expertise and are influenced by our world-leading research. You'll have plenty of opportunities to interact with fellow students as part of your studies.

	Campus-based	Distance learning	Online MSc
Type of study	Full-time or part-time	Part-time	Part-time
Delivery	Flexible blend of in-person and online learning	Online, with occasional optional or compulsory residential learning (course-dependent)	Designed specifically for online learning
Placements	Selected courses	Not available	Not available
Facilities	Use of campus facilities	Option to use campus facilities or facilities at host school outside the UK	Option to use campus facilities
Academic support	Tutors and departmental support	Tutors and departmental support	Tutors and departmental support
Access to Careers Service	Full access	Full access	Full access

Visit go.bath.ac.uk/pgt23-study for more information.

Qualifications

MA Master of Arts

MSc Master of Science

You can either:

- build on your undergraduate studies by exploring your subject in more depth – you'll be expected to work more independently and think more critically
- complement your undergraduate degree with knowledge, tools, and skills in a different subject area – for example by taking an MSc in Computer Science or Management

MBA Master of Business Administration

- A taught postgraduate course that can help you advance your career and become a better leader – great option if you want to apply for a senior management role or start your own business
- The full-time MBA takes one year to complete, while the Executive MBA lets you study part time for two years

You must have:

- at least three years of full-time, post-graduation work experience to be considered for the full-time MBA
- five years' full-time, post-graduation work experience to be considered for the Executive MBA

MRes Master of Research

- A taught course that combines the academic study of a particular subject with a comprehensive exploration of research methods
- It is a qualification in its own right, but can be used as a preparation for a PhD by taking the 1+3 (MRes + PhD) pathway

PG Dip Postgraduate Diploma

PG Cert Postgraduate Certificate

- Qualifications at the same level of study as master's degrees, but they do not include a written dissertation
- A PG Dip takes longer and is worth more credits than a PG Cert

Tuition fees

We want to make sure you have all the information you need about our tuition fees, that you know in advance what you need to pay, and that you understand what you're getting for your money.

Our latest tuition fees

You can find the fees for individual courses on pages 74 to 79. You should use these as a guide because our fees may increase each year.

You can find our most up-to-date fees on our website. We publish the fees for each academic year on the website by October of the year before.

After you start your studies, you should budget for an increase of up to 5% each year for every further year of study. We will not increase your fees each year by more than this percentage.

If you defer your entry, you'll pay the fees for the year you start your course. These fees may be more than 5% higher than the previous year.

🔍 Visit go.bath.ac.uk/pgt23-tuition-fees to find out more.

Your fee status

The amount you need to pay depends on your fee status. We determine your fee status based on your nationality, where you live, and how long you've lived there, according to the information you've given us in your application.

Your fee status will be either Home or Overseas. We'll normally confirm your fee status in your offer letter, but we might need to ask you some additional questions first.

🔍 Visit go.bath.ac.uk/pgt23-fee-status to see what your fee status is likely to be.

Placement fees

If you choose to take a placement as part of your course, you'll normally pay a reduced fee during that time. The fee you pay will depend on your course, so check the course listing or our website for more information.

Paying a deposit to secure your place

When we offer you a place, you may need to pay a deposit to secure it. You must pay the deposit within four weeks from the date of your offer letter.

We will deduct the cost of the deposit from your course fee when you register at the University.

Costs of deposits will be either:

- £1,000 for courses run by the faculties of Engineering & Design, Humanities & Social Sciences and Science
- £1,500 for School of Management courses

To find out more, visit:

🔍 go.bath.ac.uk/pgt23-deposits for deposits on courses run by the faculties

🔍 go.bath.ac.uk/pgt23-management-deposits for deposits on School of Management courses

Paying your fees

You can pay your tuition fees with a student loan, by Direct Debit, debit card, credit card, or bank transfer. We'll ask you how you plan to pay your fees when you register online as a student.

🔍 Visit go.bath.ac.uk/pgt23-paying-fees to find out more.

You may be able to get a loan to help you pay your tuition fees. See pages 62 and 63 to find out about ways to fund your studies.

Extra costs

Depending on your course, you might have additional costs during your studies to pay for things like:

- a laptop or desktop computer
- textbooks
- printing
- fieldwork
- travel to a work placement

You may also need to pay other charges for things like exam retakes and overdue library books.

🔍 Visit go.bath.ac.uk/pgt23-extra-costs to find out more.

How to apply

1 Choose a course

Find your ideal master's course at go.bath.ac.uk/pgt23-study

2 Check the entry requirements

On the web page for the course you've chosen, look at the entry requirements and make sure you have the qualifications and experience you need to apply.

3 Check the application deadline

You should apply as early as possible. Our courses can fill up fast and you need to allow enough time to apply for funding, accommodation, and visas if you need them.

You can find the deadline for applying on the web page for each course.

4 Apply online

Register and apply at go.bath.ac.uk/pgt23-apply

You can save and update your information before you submit your application. When you apply, you need to include:

- a personal statement
- a scan of your degree transcript and certificate, if available
- an academic reference
- your CV

If you're an international student, you also need to provide:

- your passport details if you need a Student visa
- an authorised translation of your degree certificate and transcript if they are not in English
- your English language assessment certificate, if available

Visit go.bath.ac.uk/pgt23-visas for more information about visas.

5 Track your application

After you apply, we'll send you login details for our online Application Tracker, where you can check on the progress of your application and find out if you've received an offer.

6 Accept your offer

If you are made an offer, use Application Tracker to accept or decline as soon as possible. For some courses, you may need to pay a deposit when you accept your offer. Deposits will be either:

- £1,000 for courses run by the Faculties of Engineering & Design, Humanities & Social Sciences and Science
- £1,500 for School of Management courses

Conditional and unconditional offers

You can receive an unconditional or a conditional offer. If you get an unconditional offer, you have met all the required conditions of your offer. If your offer is conditional, you'll need to work towards meeting the conditions of your offer. These could include English language scores, degree results, and satisfactory references.

Enquiries

Email pgtadmissions@bath.ac.uk if you have questions about applying for courses taught by the faculties of:

- Engineering & Design
- Humanities & Social Sciences
- Science

Email msc-mn@bath.ac.uk if you have questions about applying for courses in:

- business
- marketing
- management
- finance

Email online-admissions@bath.ac.uk if you have questions about applying for an online master's degree.

To find out more about applying, visit: go.bath.ac.uk/pgt23-applying for campus-based or distance learning courses
go.bath.ac.uk/pgt23-online-msc for online master's

Find a course

Use the course list to discover your perfect course at Bath. Courses are grouped by subject area and then listed in alphabetical order.

The course list includes fees for Home and Overseas students for the 2023/24 academic year only.

The list shows whether you can study full time (FT) or part time (PT) for each course. The fees are for full-time courses unless the course is part-time only. The fee for a part-time course is half the cost of the full-time course.* Fees for online courses and distance learning are shown per unit.

Visit go.bath.ac.uk/pgt23-tuition-fees to find out more about our fees.

*Except for MBA courses - visit bathmba.com for information.

Fees are liable to increase annually. You should budget for an increase of up to 5% each year for every further year of study.

Important information

Our prospectus is intended to be a general guide to the courses and facilities available to students starting a taught postgraduate course in September 2023*.

The prospectus is prepared a considerable time in advance, and we may make changes to our courses in response to, for example:

- feedback from students
- developments in the field of studies
- the requirements of accrediting bodies
- any unforeseen or unavoidable circumstances

Before making an application, you should always check our website to make sure you have the most up-to-date information.

For the latest information about our courses, visit go.bath.ac.uk/pgt23-study

Our terms and conditions provide more details of the circumstances in which we may amend our courses and how we will keep you informed of any changes.

Visit go.bath.ac.uk/pgt23-t-and-c for more information

UK professional accreditations

As well as being recognised as a higher academic qualification, a number of our degrees are also accredited by professional bodies in the United Kingdom. An accredited degree may entitle you to work in a specific profession within the UK, and abroad (where there are reciprocating arrangements with professional bodies in other countries). The requirements to practise a profession vary from country to country. If you wish to practise your profession outside the United Kingdom, you are advised to confirm that the UK professional qualification you seek is valid in the country in which you are intending to work.

* The information in this prospectus is correct at time of going to press (September 2022).

Our campus at Claverton Down

Experience the University

There are lots of ways you can find out what it's like to be a student at Bath, whether you're planning to visit the campus or connect with us from home.

Postgraduate Virtual Open Days

Join one of our Virtual Open Days to watch live talks and take part in chat sessions with students and staff.

🔍 Visit go.bath.ac.uk/pgt23-virtual-open-day to find out more.

Virtual campus tour

If you can't get to Bath in person, you can use our virtual tour to explore the campus and postgraduate accommodation in the city.

🔍 Visit go.bath.ac.uk/pgt23-virtual-tour

Discover more online

Visit our Postgraduate virtual experience, which includes:

- videos of the campus and city
- blogs by current postgraduate students
- virtual tours of our learning facilities and accommodation, as well as the Sports Training Village and The Edge arts centre
- live chat with current students
- course-specific videos and resources

🔍 visit go.bath.ac.uk/pgt23-virtual-experience

Travelling to the city of Bath

By train

Bath Spa train station, in the city centre, is on the main line between Bristol Temple Meads and London Paddington. Train journeys to Bath take about:

- 15 minutes from Bristol
- 1 hour 10 minutes from Cardiff
- 1 hour 20 minutes from London
- 1 hour 25 minutes from Southampton
- 1 hour 20 minutes from Exeter
- 2 hours from Birmingham
- 4 hours 10 minutes from Manchester

By coach

There are frequent National Express services from London Victoria and London Heathrow airport to Bath city centre.

By plane

The nearest airport is Bristol International Airport where you can catch the A4 Air Decker bus directly to Bath. There are also regular train and coach services from London Heathrow and London Gatwick.

Travelling to the University

By Bus

You can get to the campus from Bath city centre on:

- the U1
- the U2
- Service 20
- Service 22

By Car

If you're using a satnav, use the postcode BA2 7AY. The campus is in Claverton Down, on the east side of Bath. Coming by motorway, take the M4 to Junction 18 and the A46 towards Bath. Follow signs for The American Museum and the University.

Visitor parking on campus

There is pay and display parking in the East and South car parks.

Visit go.bath.ac.uk/pgt23-parking to find out more.

We have accessible parking in all our car parks. If you have a Blue Badge, you can park in these spaces for free.

Visit go.bath.ac.uk/pgt23-campus-accessibility to find out more.

Visit go.bath.ac.uk/pgt23-travel-advice for the latest travel advice and information.

Join a Postgraduate Virtual Open Day

Find out what it's like to study for a master's degree at Bath at one of our **Postgraduate Virtual Open Days**.

Chat live with our staff and current postgraduate students.

Ask questions directly to students and staff in our live webinars.

Find out more about our courses, student life, admissions, accommodation, and careers support.
